This book outlines how to reorganize the U.S. Army into a fully 2 and 3-Dimensional maneuver

capable, ground force with terrain-agile, armored fighting vehicles sized to rapidly deploy by fixed-wing and rotary-wing aircraft to the scene of world conflicts and strike at the heart of freedom,s enemies. The plan to build the Army into Air-Mech-Strike Forces, exploiting emerging information-age technologies, as well as America,s supremacy in aircraft and helicopter delivery systems---at the lowest cost to the taxpayers, is described in detail. These Army warfighting organizations, using existing and some newly purchased equipment, will shape the battlefield to America,s advantage, preserving the peace before it is lost; if not, then winning fights that must be fought quickly. The dangerous world we live in moves by the speed of the AIR, and the 21st Century U.S. Army 2D/3D combat team will dominate this medium by Air-Mech-Strike!

As the spearhead of the Army's special operations forces, the Rangers are involved in the most dangerous and dirty business imaginable. Often operating in dangerous, close quarters fights, Rangers require weapons and equipment that allow them to travel light, be quick on their feet, and move with the greatest of stealth. Here are the weapons that help make the Rangers one of the

U.S. Army's most effective fighting units: M4s, M16s, M240B machineguns, mortars of all calibers, grenade launchers, stun and flash grenades, Kevlar body armor, night vision equipment, and more. **40-mm Grenade Launcher M203 and MK 19, 40-mm GRENADE MACHINE GUN** Jeffrey Frank Jones

The most current, up to date, full color manual anywhere on the MK19 MOD3 Automatic Grenade Launcher system. Authored by Erik Lawrence, former Special Forces Instructor and owner of one of the most realistic and experienced training companies in the US. 96 pages of great to know information with procedures that have been vetted over time. 80+ color pictures to better explain the listed procedures. Developed for weapons familiarization classes and instructor development...the best Team Room reference library available. The objective of this manual is to allow the reader to be able to use the MK19 MOD3 Automatic Grenade Launcher system safely and

competently. The practical guide will give the reader: \* background/specifications of the weapon and its capability \* Multiple descriptive photographs \* instructions on its operation \* disassembly and assembly procedures \* demonstrate correct employment of tripod \* proper safe firing procedures \* malfunction and misfire procedures Operator level maintenance will also be detailed to allow the operator to understand and become competent in the use and maintenance of the MK19 MOD3 Automatic Grenade Launcher system.

This manual discusses how to train the unit to use the MK 19, 40-mm grenade machine gun, model (MOD) 3, referred to in this manual as the MK 19. This manual highlights mechanical training, weapon capabilities, and gunnery principles, methods, techniques, and standards that apply to the MOD 3. It also includes preliminary gunnery, a gunnery skills test, gunnery tables, and qualification tables. If this information conflicts with an applicable technical manual (TM), revised TM, or TM update, the crew will follow the guidance in the most recently published document.

COMBAT HUNTER TRAINER COURSE Purpose: The purpose of the Combat Hunter Trainer Course is to produce a Marine capable of training a more ethically minded, tactically cunning, and situational aware Marine capable of proactively identifying threats in any environment. Scope: The Combat Hunter Trainer Course enhances the safety and security of Marines across the range of military operations, whether in garrison, on liberty, or on the battlefield. Marines are trained to observe and recognize human behaviors, patterns and trends that are indicative of a threat and to act on that threat quickly and decisively through an improved and matured decision-making process. The Marine receives training in planning, conducting, and evaluating training events to include classes on small unit training and unit training management. Combat Hunter training includes Introduction to Combat Hunter, Observation Devices, Criminal and Insurgent Networks, Decision Cycle, Enhanced Observation, KIM Technique, Introduction to Profiling, Heuristics, Profiling Domains, Terrorist Planning Cycle, Tactical Questioning, Analyze and Interpret Spoor, Individual Actions in a Tracking Team, Track Exploitation, Leading a Tracking Team, and Tactical Site Exploitation.

DEFINITION AND MISSION OF THE COMBAT HUNTER. A combat hunter selects, uses, and maximizes the appropriate optics available to see objects and events, both hidden and distant. These optics range from the naked eye to advanced optical systems. A combat hunter, through attention to detail, establishes a baseline of an environment and detects the anomalies located within that environment. A combat hunter tracks humans and vehicles by reading the natural terrain. He pursues an armed enemy and gathers data that may suggest the enemy's action and intent. The combat hunter is the creation of a mindset through the integration of enhanced observation, combat profiling, and combat tracking. This mindset will enable Marines to locate, close with, and destroy an elusive enemy that hides among the population and uses asymmetric tactics to attack our forces. By utilizing enhanced observation, combat profiling, and combat tracking, a Marine is more lethal, survivable, and tactically cunning. He becomes a force multiplier to his unit's operations. OBSERVATION. Observation begins with the gathering and processing of information obtained through the senses. The five sensory systems are sight, hearing, smell, touch, and taste that allow information to be collected from the environment. Perception is the process that the mind uses to organize the sensory information into an understandable interpretation of the environment. Central to all these skills is a critically-thinking Marine whose decisions can be affected by numerous factors, both external and internal. The Marine refines his decision making capabilities by understanding the decision cycle process and his awareness of the physical and biological responses he goes through when faced with a dynamic situation. Refining these skills and understanding the effects they have on his mind and body make him more capable and more lethal.

Special Forces Jeffrey Frank Jones

Over 5,300 total pages .... MARINE RECON Reconnaissance units are the commander's eyes and ears on the battlefield. They are task organized as a highly trained six man team capable of conducting specific missions behind enemy lines. Employed as part of the Marine Air-Ground Task Force, reconnaissance teams provide timely information to the supported commander to shape and influence the battlefield. The varying types of missions a Reconnaissance team conduct depends on how deep in the battle space they are operating. Division Reconnaissance units support the close and distant battlespace, while Force Reconnaissance units conduct deep reconnaissance in support of a landing force. Common missions include, but are not limited to: Plan, coordinate, and conduct amphibious-ground reconnaissance and surveillance to observe, identify, and report enemy activity, and collect other information of military significance. Conduct specialized surveying to include: underwater reconnaissance and/or demolitions, beach permeability and topography, routes, bridges, structures, urban/rural areas, helicopter landing zones (LZ), parachute drop zones (DZ), aircraft forward operating sites, and mechanized reconnaissance missions. When properly task organized with other forces, equipment or personnel,

assist in specialized engineer, radio, and other special reconnaissance missions. Infiltrate mission areas by necessary means to include: surface, subsurface and airborne operations. Conduct Initial Terminal Guidance (ITG) for helicopters, landing craft, parachutists, air-delivery, and re-supply. Designate and engage selected targets with organic weapons and force fires to support battlespace shaping. This includes designation and terminal guidance of precision-guided munitions. Conduct post-strike reconnaissance to determine and report battle damage assessment on a specified target or area. Conduct limited scale raids and ambushes. Just a SAMPLE of the included publications: BASIC RECONNAISSANCE COURSE PREPARATION GUIDE RECONNAISSANCE (RECON) TRAINING AND READINESS (T&R) MANUAL RECONNAISSANCE REPORTS GUIDE GROUND RECONNAISSANCE OPERATIONS GROUND COMBAT OPERATIONS Supporting Arms Observer, Spotter and Controller DEEP AIR SUPPORT SCOUTING AND PATROLLING Civil Affairs Tactics, Techniques, and Procedures MAGTF Intelligence Production and Analysis Counterintelligence Close Air Support Military Operations on Urbanized Terrain (MOUT) Convoy Operations Handbook TRAINING SUPPORT PACKAGE FOR: CONVOY SURVIVABILITY Convoy Operations Battle Book Tactics, Techniques, and Procedures for Training, Planning and Executing Convoy Operations Urban Attacks

Over 2,200 total pages !!! WARRANT OFFICER BASIC COURSE (WOBC) 1-18 INFORMATION  
Congratulations on your selection as a Warrant Officer of Marines. You are about to embark upon a truly remarkable journey as an officer of Marines. That journey begins with your successful completion of the Warrant Officer Basic Course (WOBC) at The Basic School (TBS) in Quantico, Virginia. Warrant Officers and Title 10: Warrant Officer (WO) is an appointed rank, vice a commissioned one. Chief Warrant Officers (Marine Gunners and Recruiting Officers) are commissioned. All Chief Warrant Officers and Warrant Officers must successfully complete the WOBC in order to retain their appointment or commission. Title 10 U.S.C. Section 1165 states: THE SECRETARY OF THE NAVY HAS THE AUTHORITY TO TERMINATE THE REGULAR APPOINTMENT OF ANY PERMANENT REGULAR WO AT ANY TIME WITHIN THREE YEARS AFTER THE DATE WHEN THE OFFICER ACCEPTED HIS ORIGINAL PERMANENT APPOINTMENT. A MARINE WHOSE APPOINTMENT IS TERMINATED MAY, UPON HIS REQUEST AND AT THE DISCRETION OF THE SECRETARY OF THE NAVY, BE ENLISTED IN A GRADE NOT LOWER THAN THAT HELD IMMEDIATELY PRIOR TO APPOINTMENT. THEREFORE, THE FIRST THREE YEARS AS A WO IS A PROBATIONARY PERIOD AND THE APPOINTMENT TO WO WILL BE TERMINATED IF A MARINE DOES NOT COMPLETE THE REQUIREMENTS OF THE WOBC. WOBC MISSION STATEMENT: Train and educate newly appointed warrant officers in the high standards of professional knowledge esprit-de-corps, and leadership required to transition from enlisted Marine to officer with particular emphasis on the duties, responsibilities and warfighting skills required of a provisional rifle platoon commander. The Warrant Officer Basic Course: The WOBC is an eighteen-week course that focuses on the transition from enlisted Marine to Marine officer. TBS and the WOBC focus on five horizontal themes that define expectations of all Marine Officers: (1) a man/woman of exemplary character, (2) devoted to leading Marines 24/7, (3) able to decide, communicate, and act in the fog of war, (4) a Warfighter who embraces the Corps' warrior ethos, and (5) mentally strong and physically tough. The universal concept that Marine Officers must be able to assess situations, weigh the pros and cons

of various decisions, make a decision, develop a plan, communicate that plan effectively, and supervise its execution is stressed and exercised throughout the course. The course will teach the science and art required for service of Marine Officers with an emphasis on decision making throughout. Provisional infantry and planning subjects are together used as the means or vehicle to teach and evaluate this process. Since all students are evaluated on leadership as Marine Officers; physical, mental, and emotional stress are incorporated throughout the course in order to evaluate the ability to lead in chaotic and stressful environments. Some individuals will be pushed close to their failing point, but the WOBC is designed to give students an opportunity to display positive leadership qualities in the face of adversity. The WOBC is not a "check in the block." It is a course designed to provide students with the learning experiences necessary to effectively transition to service as a Marine Officer. Students who do not successfully complete the course face a variety of administrative actions, including repetition of the course, recycle to a six month lieutenant Basic Officer Course, revocation of appointment, or separation from the service. The WOBC curriculum is an academically rigorous, provisional infantry and staff planning based program of instruction (POI) which consists of approximately 935 hours of formal instruction. The POI includes classroom instruction, field exercises, sand table exercises, and discussion groups. Classroom instruction is designed around the flipped classroom model.

*Department of the Army Pamphlet* Jeffrey Frank Jones

This manual, "MK 19, 40-mm Grenade Machine Gun, MOD 3 (with Change 1) (FM 3-22.27 / 23.27)," discusses how to train the unit to use the MK 19, 40-mm grenade machine gun, model (MOD) 3, referred to in this manual as the MK 19. This manual highlights mechanical training, weapon capabilities, and gunnery principles, methods, techniques, and standards that apply to the MOD 3. It also includes preliminary gunnery, a gunnery skills test, gunnery tables, and qualification tables. If this information conflicts with an applicable technical manual (TM), revised TM, or TM update, the crew will follow the guidance in the most recently published document. The primary audiences for this manual are soldiers, trainers, and staff officers. Units can modify the gunnery program to meet local training restraints. Although the gunnery tables are intended for use with live fire, trainers can use the tactical engagement simulator system (TESS), a video disc trainer (VDT), a multipurpose arcade combat simulator (MACS), or other training device, except on qualification tables. In all cases, units must evaluate their training to ensure that it follows the building-block

principle and adheres to sound training policy. Only a crew that is trained and does well in preliminary gunnery exercises is likely to do well in live-fire exercises (LFX) and in combat situations.

*FORCE PROTECTION WEAPONS HANDLING STANDARD PROCEDURES AND GUIDELINES NTRP 3-07.2.2: M9 / M11 Service Pistols, Mossberg 500 Shotgun, M14 and M16 (Series) Rifles, M203 / M79 Grenade Launchers And More*

Training Circular TC 3-22.19 (FM 3-22.27) Grenade Machine Gun MK 19 MOD 3 May 2017 TC 3-22.19 is comprised of nine chapters and five appendices, and is specifically tailored to the individual Soldier's use of the MK 19 grenade machine gun. This TC is divided into two major parts to provide specific information about the weapon, aiming devices, attachments, followed by sequential chapters on the tactical employment of the weapon system. TC 3-22.19 is purposely organized in a progressive manner, each chapter or appendix building on the information from the previous section. This organization provides a logical sequence of information which directly supports the Army's training strategy for the weapon at the individual level. Chapters 1 through 4 of this TC describe the weapon, aiming devices, weapon mounts, and accessories associated with the weapon. General information is provided in the chapters of the manual, with more advanced information placed in appendix A, Ammunition, and appendix B, Machine Gun Theory. Chapters 5 through 9 provide the employment, stability, aiming, control and movement information. This portion focuses on the Soldier skills needed to produce a well-aimed burst. Appendix C of this publication provides common tactical drills that are used in training and combat that directly support tactical engagements. Appendix D provides zeroing information on this weapon. Finally, appendix E of this publication, is provided at a common location in this and future weapons publications to provide a common location for reference for qualification. TC 3-22.19 does not cover the specific machine gun strategy, ammunition requirements for the training strategy, or range operations. These areas will be covered in separate training circulars. TC 3-22.19 applies to all Soldiers, regardless of experience or position. This publication is designed specifically for the Soldier's use on the range during training, and as a reference while deployed.

*Department of Defense Appropriations for Fiscal Year 1982*

Over 400 total pages ... Now also includes: ANNUAL RIFLE TRAINING DATABOOK M16A4 SERVICE RIFLE/M4 CARBINE WITH RIFLE COMBAT OPTIC (RCO) AND BACK-UP IRON SIGHT (BUIS) and

numerous related lesson plans. Summary: NTRP 3-07.2.2 provides standardized handling procedures that are essential for the safe and effective employment of the M9 and M11 service pistols, Mossberg 500 shotgun, M14 and M16 (series) rifles, M203 and M79 grenade launchers, M60 (series) and M240 (series) medium machine guns, M2HB (.50 caliber) heavy machine gun, MK19 (MOD 3) 40 mm grenade machine gun, MK 3A2 concussion grenade, nonlethal weapons and simunitions.

**MK 19, 40-Mm Grenade Machine Gun, MOD 3 (FM 3-22. 27 / FM 23. 27) (with Change 1 - September 2006)**

When it entered army service in 1985, AM General's high-mobility multipurpose wheeled vehicle- better known as the Humvee-quickly assumed the status the World War II jeep enjoyed among an earlier generation of soldiers. Humvee at War showcases this iconic vehicle in the many roles and configurations it has taken on over the years-ambulance, troop transport, and armament carrier among them.

**Soldier's Study Guide 7th Edition**

Over 1,400 pages covering the following primary topics: URBAN OPERATIONS BREACHING DEMOLITIONS ANTI-ARMOR WARFARE WEAPONS TRAINING, MAINTENANCE & MARKSMANSHIP MACHINE GUNS PATROLLING INFANTRY TACTICS AND TECHNIQUES NBC COMMUNICATIONS MORTARS ... and more Following Recruit Training, the School of Infantry is the second stage of training for all Infantry Military Occupational Specialty (MOS) Enlisted Marines and marks the transition from entry-level Marines to combat-ready Marines. At SOI, Marines who have recently graduated from recruit training continue their education and training to become more proficient in the fundamentals of being a rifleman. Marines with a Military Occupational Specialty (MOS) of infantry are trained at the Infantry Training Battalion (ITB), while all non-infantry Marines are trained at the Marine Combat Training Battalion (MCT). There are two Schools of Infantry: Camp Geiger located in North Carolina and Camp Pendleton in California. The primary role of the School of Infantry is to ensure, first and foremost, that "every Marine a rifleman." All Marine Corps assets exist to support the rifleman on the ground, and every Marine is prepared to do whatever it takes to ensure the safety of the Marines to their left and right. Regardless of MOS, the ITB mission ensures every Marine has the capability to fulfill his or her duties while operating in a combat environment.
