Company, established in 1965, is world renowned for quality engineered products at economical prices. Bulk material handling customers and processing industries have come to depend on Conveyor Components Company as a manufacturer of conveyor controls, motion controls, level controls, bin aerators and conveyor belt cleaners. Home | Conveyor Components Company

Screw Conveyors Screw Conveyors are one of the oldest and simplest methods for moving bulk materials and consist primarily of a conveyor screw rotating in a stationary trough. Screw Conveyors - Syntron Material Handling The first type of screw conveyor was the Archimedes' screw, used since ancient times to pump irrigation water. They usually consist of a trough or tube containing either a spiral blade coiled around a shaft, driven at one end and held at the other, or a "shaftless spiral", driven at one end and free at the other. Knowledge - PARTcommunity - 3D & 2D CAD Models Conveyor Engineering & Manufacturing was established in a small shop outside of Shueyville, Iowa in 1977 by Joe & Donita Cone and Bill Djerf. At this time the company was named Modern Fabricators and focused on making oil bath guards and custom fabrication products.
