"In recent years religious leaders of mainline Christian and Jewish groups have been calling on their adherents to play a larger role in the creation of a just social order. One of the most publicized of these was the declaration of the American Catholic bishops, Economic Justice For All. It remains to be seen whether believers raised in an era of affluence are deeply committed to the plight of the needy, and whether religion itself can mark out a path between social activism and conventional party politics." "John Courtney Murray (1904-1967) was a pioneer in the ongoing dialogue about the role of believers in public life. For all of his contributions, however, Murray spoke in a patrician manner to a social order that was stable and structured. How useful are his

ideas in an age of multiculturalism, when the strongest pressure for justice comes from grassroots organizations of the poor and marginalized?" "The Believer as Citizen proposes a fresh view of Murray's public philosophy in a way that makes it applicable to today's conditions."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.

This clinically focused book explores W. R. Bion's thinking on primitive and unrepresented mental states and shows how therapists can work effectively with traumatized patients who are difficult to reach. The author illuminates how trauma survivors suffer from direct access to primal undifferentiated positions of the psyche that lie outside the symbolic order of the mind and are resistant to treatment. This access, unmediated by symbolic

representation but represented in the body, disrupts the normal trajectory of development and of relationship. Integrating theory and clinical application, the book addresses processes of symbolization, somatic receptivity, and the use of countertransference when working therapeutically with undeveloped areas of the mind. It also demonstrates how primitive body relations and object relations include the body of the analyst as part of the analytic frame and are essential in establishing a therapeutic alliance. Illustrated with detailed clinical vignettes, *Bion and Primitive Mental States* is important reading for psychoanalysts, psychologists, social workers, and educators who wish to understand primitive states of mind and body in patients who have previously been considered untreatable.

Why is the social group that society most often looks to for warmth, intimacy, and love also characterized by cruelty and violence? This book attempts to answer that seemingly ironic question. The authors examine aspects of family stress from both social and cultural viewpoints and conclude that violence grows out of the nature of social arrangements and cannot be explained in terms of the personalities of husbands and wives. They emphasize the fundamental contradictions built into family life as it is now constituted, and point out that counseling and family therapy alone will not decrease the level of violence in family settings. Real change will come about only with a restructuring of the relations between women and men, and that in turn is dependent upon a fundamental reallocation of power and status in society at large. In their examination of the apparently irrational or bizarre aspects of family life, the authors of this book move beyond the problem of physical violence to an understanding of the nature of the family itself.

"With wit and sharp insight, the authors of THE TRADE OFF provide a behind-the-scenes peek at the Machiavellian world of a luxury Manhattan store, its executives, designers, clerks—and demanding socialite customers. Told in the knowing voice of the store's ambitious shopping salon director, THE TRADE OFF is a fast-paced, entertaining read." —Dr. Joyce Brown, President of Fashion Institute of Technology Go behind the window displays. Behind the racks. Two personal shoppers for Manhattan's biggest department stores have written a wildly dishy novel that goes behind the dressing rooms of New York's fashion elite. At Frankel's New York, the wives of billionaires and Hollywood celebrities sip champagne while stylists and tailors cater to every whim. And one person has made it her career to help these Amex-wielding shoppers create the perfect look. Bonnie Salerno Madden knows all of her client's preferences, whims, and fantasies. She

knows the price they paid to gain access to the salon where having Bonnie as their private shopper is a first-class ticket to being the toast of the New York high-fashion social scene. But while Bonnie is all elegance on the outside, she's barely keeping it together on the inside. A single mom to a special needs child, she needs her high-pressure job to care for her family. And when that job is put in jeopardy, Bonnie will need to make some of the riskiest choices of her life to guarantee a better future for her son, and for herself. With the opportunity to live in her own fairy tale, will Bonnie have what it takes to make the trade off? "THE TRADE OFF is a riveting page-turner even for a non-shopper like me.
