A toolkit for optimising your study, work, and life! Currency CONNECTIONS: QUADRANT II TIME MANAGEMENT is on the crest of the wave of a new generation of time management theory & implementation. CONNECTIONS empowers the reader to translate values into action, to escape from the tyranny of the "urgent" & to move into that marvellous part of the universe known as "Quadrant II." I think the greatest human tragedy I see is people with talent & ability who have paid a tremendous price for their "success" & who are unhappy, unfulfilled people. They simply don't have the "right connections." I believe that right connections are within reach. I know they have made a powerful difference in my own life. I have seen them make a powerful difference in the lives of hundred of others. I know they are based on timeless, self-validating & empowering principles. And I know, as Emerson once observed, "Nothing can bring peace but yourself. Nothing can bring you peace but a triumph of principles." This book, simple in style & rich in substance, is must-reading for anyone who wants a closer "connection" between deep beliefs about what is most important & daily behaviors. **To Live, to Love, to Learn, to Leave a Legacy** Simon and Schuster

The USA Today bestseller by the star sales speaker and author of *The Sales Blog* that reveals how all salespeople can attain huge sales success through strategies backed by extensive research and experience. Anthony Iannarino never set out to become a salesman, let alone a sales manager, speaker, coach, or writer of the most prominent blog about the art and science of great selling. He fell into his profession by accident, as a day job while pursuing rock-and-roll stardom. Once he realized he'd never become the next Mick Jagger, Iannarino turned his focus to a question that's been debated for at least a century: Why are a small number of salespeople in any field hugely successful, while the rest get mediocre results at best? The answer is simple: it's not about the market, the product, or the competition—it's all about the seller. And consequently, any salesperson can sell more and better, all the time. Over twenty-five years, Iannarino has boiled down everything he's learned and tested into one

convenient book that explains what all successful sellers, regardless of industry or organization, share: a mind-set of powerful beliefs and a skill-set of key actions, including...

- Self-discipline: How to keep your commitments to yourself and others.
- Accountability: How to own the outcomes you sell.
- Competitiveness: How to embrace competition rather than let it intimidate you.
- Resourcefulness: How to blend your imagination, experience, and knowledge into unique solutions.
- Storytelling: How to create deeper relationships by presenting a story in which the client is the hero and you're their guide.
- Diagnosing: How to look below the surface to figure out someone else's real challenges and needs. Once you learn Iannarino's core strategies, picking up the specific tactics for your product and customers will be that much easier. Whether you sell to big companies, small companies, or individual consumers, this is the book you'll turn to again and again for proven wisdom, strategies, and tips that really work.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

What does it take to win success and influence? Some people think that in today's hyper-competitive world, it's the tough, take-no-prisoners type who comes out on top. But in reality, argues New York Times bestselling author Dave Kerpen, it's actually those with the best people skills who win the day. Those who build the right relationships. Those who truly understand and connect with their colleagues, their customers, their partners. Those who can teach, lead, and inspire. In a world where we are constantly connected, and social media has become the primary way we communicate, the key to getting ahead is being the person others like, respect, and trust. Because no matter who you are or what profession you're in, success is contingent less on what you can do for yourself, but on what other people are willing to do for you. Here, through 53 bite-sized, easy-to-execute, and often counterintuitive tips, you'll learn to master the 11 People Skills that will get you more of what you want at work, at home, and in life. For example, you'll learn: • The single most important

question you can ever ask to win attention in a meeting • The one simple key to networking that nobody talks about • How to remain top of mind for thousands of people, everyday • Why it usually pays to be the one to give the bad news • How to blow off the right people • And why, when in doubt, buy him a *Bonsai* A book best described as "How to Win Friends and Influence People for today's world," *The Art of People* shows how to charm and win over anyone to be more successful at work and outside of it.

"Live, love, laugh, leave a legacy." "But until a person can say deeply and honestly, 'I am

what I am today because of the choices I made yesterday,' that person cannot say, 'I choose otherwise.'" "Seek first to understand, then to be understood." "To touch the soul of another human being is to walk on holy ground."

Leadership Secrets from Game of Thrones Simon and Schuster
In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

From Stephen R. Covey's eldest son come a revolutionary book that will guide business leaders, public figures and their organizations towards unprecedented productivity and satisfaction. Trust, says Stephen M. R. Covey, is the very basis of

the 21st century's global economy, but its power is generally overlooked and misunderstood. Covey shows you how to inspire immediate trust in everyone you encounter - colleagues, constituents, the marketplace - allowing you to forego the time-killing and energy-draining check and balance bureaucracies that are so often relied upon in lieu of actual trust.

The Art of People Simon and Schuster

A guide to leading without losing your head, inspired by the bestselling books and smash television series Game of Thrones. "When you play the game of thrones, you win or you die. There is no middle ground." —Cersei Lannister One of the great joys of Game of Thrones is strategizing what bold moves you'd make in this bloody, volatile world—from the comfort of your living room. And one of the great terrors of being a leader is knowing your real world can be just as brutal—and offices bring no comfort. Every day you're presented with opportunities and challenges, and must decide which roads to follow, which risks to confront, when to deny an opportunity and when to pursue the call to adventure. And you won't know whether you'll profit or fail while you're in the thick of it. In Win or Die: Leadership Secrets from Game of Thrones, Bruce Craven brilliantly analyzes the journeys of the best and worst leaders in Westeros, so that leaders can create their own narratives of success. Craven considers beloved characters such as Ned Stark, Jon Snow, Daenerys Targaryen, and Tyrion Lannister as they make terrible decisions and fatal mistakes, but also achieve incredible victories and surprising successes, learning and growing along their (often bloody) ways. Readers will learn how to face conflict and build resilience, develop contextual and emotional intelligence, develop their

vision, and more. This entertaining and accessible guide will show readers how to turn danger into opportunity, even when dragons threaten.
