Das packende Finale der Urban-Fantasy-Trilogie: Spannend bis zur letzten Seite
Nachdem Emilia und Ben aus Kaleidra zurück sind, ist nichts mehr so, wie es einmal war. Die Hohepriesterin Ishtar ist wie vom Erdboden verschluckt, und die Crux greifen unter der Herrschaft der Quecks die Menschen an. Städte werden ins Chaos gestürzt, und auch Rom bleibt nicht unversehrt. Emilia und ihre Freunde versuchen händeringend, einen Ausweg zu finden. Und dann ist da auch noch die Sache mit Emilias wahrer Herkunft, die sie nicht loslässt. Zusammen mit alten und neuen Verbündeten will sie

der Sache auf den Grund gehen.
Schließlich offenbart sich ihr ein gut gehütetes Geheimnis, das nicht nur das Schicksal aller Alchemisten, sondern auch die Zukunft der gesamten Menschheit verändern könnte ...
[When Your Child Is Sick](#)
Rowman & Littlefield Publishers
"Top agricultural scientists from around the world have taken up the challenge of sustainable agriculture, with the specific focus on integrating agronomic, climatological, biophysical and socio-economic perspectives and processes. Every chapter (of the Handbook) contributes to addressing the growing food-security challenges facing the world."Foreword by

Jeffrey Sachs, Director of the Earth Institute at Columbia University Climate effects on agriculture are of increasing concern in both the scientific and policy communities because of the growing population and the greater uncertainty in the weather during growing seasons. Changes in production are directly linked to variations in temperature and precipitation during the growing season and often to the offseason changes in weather because of soil water storage to replenish the soil profile. This is not an isolated problem but one of worldwide interest because each country has concerns about their food security. The Agricultural Model

Intercomparison and Improvement Project (AgMIP) was developed to evaluate agricultural models and intercompare their ability to predict climate impacts. In sub-Saharan Africa and South Asia, South America and East Asia, AgMIP regional research teams (RRTs) are conducting integrated assessments to improve understanding of agricultural impacts of climate change (including biophysical and economic impacts) at national and regional scales. Other AgMIP initiatives include global gridded modeling, data and information technology (IT) tool development, simulation of crop pests and diseases, site-based crop-climate sensitivity studies, and

aggregation and scaling.

Kinderschutz in der Demokratie - Eckpfeiler guter Fachpraxis Editora Foco

CRACKER IS ONE OF THE UNITED STATES ARMY'S MOST VALUABLE WEAPONS: a German shepherd trained to sniff out bombs, traps, and the enemy. The fate of entire platoons rests on her keen sense of smell. She's a Big Deal, and she likes it that way. Sometimes Cracker remembers when she was younger, and her previous owner would feed her hot dogs and let her sleep in his bed. That was nice, too. Rick Hanski is headed to Vietnam. There, he's going to whip the world and prove to his family and his sergeant -- and

everyone else who didn't think he was cut out for war -- wrong. But sometimes Rick can't help but wonder that maybe everyone else is right. Maybe he should have just stayed at home and worked in his dad's hardware store. When Cracker is paired with Rick, she isn't so sure about this new owner. He's going to have to prove himself to her before she's going to prove herself to him. They need to be friends before they can be a team, and they have to be a team if they want to get home alive. Told in part through the uncanny point of view of a German shepherd, Cracker! is an action-packed glimpse into the Vietnam War as seen through the eyes of a dog and her

handler. It's an utterly unique powerhouse of a book by the Newbery Medal-winning author of *Kira-Kira*.

Industrial and Labor Relations Review
Routledge

"Kadohata's slapshot is the heart-swelling narrative of a father and son...Truly powerful." —Jason Reynolds "A deeply poignant story about a boy sorting out his priorities." —Publishers Weekly (starred review) "A vivid, memorable portrayal of a boy within his family, his sport, and his gradually broadening world." —Booklist (starred review) From Newbery Medalist Cynthia Kadohata comes a brilliantly-realized novel about a hockey player who must discover who he is without the sport

that defines him. Hockey is Conor's life. His whole life. He'll say it himself, he's a hockey beast. It's his dad's whole life too—and Conor is sure that's why his stepmom, Jenny, left. There are very few things Conor and his dad love more than the game, and one of those things is their Doberman, Sinbad. When Sinbad is diagnosed with cancer, Conor chooses to put his hockey lessons and practices on hold so they can pay for Sinbad's chemotherapy. But without hockey to distract him, Conor begins to notice more. Like his dad's crying bouts, and his friend's difficult family life. And then Conor notices one more thing: Without hockey, the one thing

that makes him feel special, is he really special at all?

Pedagogical Content Knowledge (PCK) has been adapted, adopted, and taken up in a diversity of ways in science education since the concept was introduced in the mid-1980s. Now that it is so well embedded within the language of teaching and learning, research and knowledge about the construct needs to be more useable and applicable to the work of science teachers, especially so in these times when standards and other measures are being used to define their knowledge, skills, and abilities. Re-examining Pedagogical Content Knowledge in

Science Education is organized around three themes: Re-examining PCK: Issues, ideas and development; Research developments and trajectories; Emerging themes in PCK research. Featuring the most up-to-date work from leading PCK scholars in science education across the globe, this volume maps where PCK has been, where it is going, and how it now informs and enhances knowledge of science teachers' professional knowledge. It illustrates how the PCK research agenda has developed and can make a difference to teachers' practice and students' learning of science. Univ of California Press The presence of women in Congress is

at an all-time high -- approximately one of every five members is female -- and record numbers of women are running for public office for the 2018 midterms. At the same time, Congress is more polarized than ever, and little research exists on how women in Congress view their experiences and contributions to American politics today. Drawing on personal interviews with over three-quarters of the women serving in the 114th Congress (2015-17), the authors analyze how these women navigate today's stark partisan divisions, and whether they feel effective in their jobs. Through first-person perspectives, *A Seat at the Table* looks at what motivates these

women's legislative priorities and behavior, details the ways in which women experience service within a male-dominated institution, and highlights why it matters that women sit in the nation's federal legislative chambers. It describes the strategies women employ to overcome any challenges they confront as well as the opportunities available to them. The book examines how gender interacts with political party, race and ethnicity, seniority, chamber, and district characteristics to shape women's representational influence and behavior, finding that party and race/ethnicity are the two most complicating factors to a singular narrative of women's

congressional representation. While congresswomen's perspectives, experiences, and influence are neither uniform nor interchangeable, they strongly believe their presence matters in myriad ways, affecting congressional culture, priorities, processes, debates, and outcomes.

Women, Politics, and Power Intl Food Policy Res Inst

This introductory course text explores the genealogy of the field of conflict resolution by examining three different epochs of the field, each one tied to the historical context and events of the day. Bananas, Beaches and Bases CQ Press

This paper examines the continuing effects

of COVID-19 and exposure to weather extremes on income, dietary, and migration outcomes in rural Guatemala. We rely on a comprehensive longitudinal survey of 1,612 smallholder farmers collected over three survey rounds in 2019, 2020, and 2021. We find improvements in incomes, food security, and dietary diversity in 2021 relative to 2020, but with levels still below pre-pandemic ones in 2019. We also find a substantial increase in the intention to emigrate that was not observed in the onset of the pandemic. In terms of the channels mediating the variations in dietary diversity and migration intentions, income shocks seem to have played a role, in

contrast to direct exposure to the virus, local mobility restrictions, and food market disruptions. Importantly, households exposed to ETA and IOTA tropical storms, in addition to COVID-19, were considerably more prone to exhibit larger increases in the prevalence of moderate or severe food insecure episodes and larger decreases in their diet quality. The study provides novel evidence on vulnerable households' wellbeing in the aftermath of a global crisis, including the effects of compound shocks.

There is bad luck, good
luck, and making your
own luck—which is
exactly what Summer
must do to save her
family in this winner of
the National Book
Award by Newbery
Medalist Cynthia
Kadohata. Summer
knows that kouun
means “good luck” in
Japanese, and this year
her family has none of
it. Just when she thinks
nothing else can
possibly go wrong, an
emergency whisks her
parents away to
Japan—right before
harvest season.
Summer and her little
brother, Jaz, are left in

the care of their
grandparents, who
come out of retirement
in order to harvest
wheat and help pay the
bills. The thing about
Obaachan and Jiichan
is that they are old-
fashioned and
demanding, and
between helping
Obaachan cook for the
workers, covering for
her when her back pain
worsens, and worrying
about her lonely little
brother, Summer just
barely has time to
notice the attentions of
their boss’s cute son.
But notice she does,
and what begins as a
welcome distraction
from the hard work
soon turns into a mess
of its own. Having
thoroughly
disappointed her
grandmother, Summer
figures the bad luck
must be finished—but
then it gets worse. And

when that happens, Summer has to figure out how to change it herself, even if it means further displeasing Obaachan. Because it might be the only way to save her family. Cynthia Kadohata's ode to the breadbasket of America has received six starred reviews and won the National Book Award.

Entgegen allen Objektivitäts- und Neutralitätsansprüchen bestehen an deutschen Hochschulen Geschlechterungleichheiten fort. Insbesondere im MINT-Bereich sind Frauen* noch immer unterrepräsentiert. Der Sammelband greift Fragen nach den Gründen für die anhaltenden

Ungleichheiten sowie Veränderungsmöglichkeiten im Kontext der Diskurse zu Fachkulturen und Intersektionalität auf und diskutiert Strategien für mehr Geschlechtergerechtigkeit an Hochschulen.

Mein stiller Freund

Oxford University Press
What difference does gender make to foreign diplomacy? What do we know about women's participation as decision-makers in international affairs? Is it fair to assume, as many observers do, that female elites will mirror the relatively pacifist preferences of women in the general public as well as the claims of progressive feminist movements? And, of particular importance to this book, what consequences follow

from the appointment of "firsts" to these posts? Inspired by recent work in the field of feminist diplomatic history, this book offers the first comparative examination of women's presence in senior national security positions in the United States executive branch. Sylvia Bashevkin looks at four high-profile appointees in the United States since 1980: Jeane Kirkpatrick during the Reagan years, Madeleine Albright in the Clinton era, Condoleezza Rice during the George W. Bush presidency, and Hillary Rodham Clinton in the first Obama mandate. Bashevkin explores the extent to which each of these women was able to fully participate in a domain long

dominated by men, focusing in particular on the extent to which each shaped foreign policy in meaningful ways. She looks particularly at two specific phenomena: first, the influence of female decision-makers, notably their ability to make measurable difference to the understanding and practice of national security policy; and second, leaders' actions with respect to matters of war and women's rights. The track records of these four women reveal not just a consistent willingness to pursue muscular, aggressive approaches to international relations, but also widely divergent views about feminism. Women as Foreign Policy Leaders

shows how Kirkpatrick, Albright, Rice, and Clinton staked out their presence on the international scene and provided a crucial antidote to the silencing of women's voices in global politics.

A Million Shades of Grey

A Million Shades of Grey
Gegenwärtig werden verstärkt tödliche Fälle von Kindesmisshandlung medial aufgegriffen und sensationsheischend aufbereitet. Hierbei kommt es oft zu Entführungen und Einseitigkeit. Im Handbuch setzen die Autor*innen neu an und fragen: Vor welchen Herausforderungen stehen wir aktuell in der Kinderschutzarbeit? Sie

entfalten ein Konzept nachhaltiger demokratischer Kinderschutzarbeit auf Basis eines neuen Grundverständnisses und eines umfassenden Konzepts der Prozessgestaltung für eine solidarische Kooperation der beteiligten Akteur*innen.

Generation Unbound

Carl Hanser Verlag
GmbH Co KG

Over half of all births to young adults in the United States now occur outside of marriage, and many are unplanned. The result is increased poverty and inequality for children. The left argues for more social support for unmarried parents; the right argues for a return to traditional marriage. In *Generation Unbound*, Isabel V. Sawhill offers

a third approach: change "drifters" into "planners." In a well-written and accessible survey of the impact of family structure on child well-being, Sawhill contrasts "planners," who are delaying parenthood until after they marry, with "drifters," who are having unplanned children early and outside of marriage. These two distinct patterns are contributing to an emerging class divide and threatening social mobility in the United States. Sawhill draws on insights from the new field of behavioral economics, showing that it is possible, by changing the default, to move from a culture that accepts a high number of unplanned pregnancies to a culture in which adults

only have children when they are ready to be a parent.

Atheneum/Caitlyn
Dlouhy Books

Winner of the 2017 Mac Jewell Enduring Contribution Award of the APSA's State Politics and Policy Section. Politics in the American States, Eleventh Edition, brings together the high-caliber research you expect from this trusted text, with comprehensive and comparative analysis of the 50 states. Fully updated for all major developments in the study of state-level politics, including capturing the results of the 2016 elections, editors Virginia Gray, Russell L. Hanson, and Thad Kousser bring insight and uncover the impact of key

similarities and differences on the operation of the same basic political systems. Students will appreciate the book's glossary, the fully up-to-date tables and figures, and the maps showcasing comparative data.

ILRReview World Scientific

Women's Rights in the USA is a rigorous examination of the intersection of gender roles and public policy and the implications for feminist activists. The book places full information on state and federal statutes and court decisions in the context of the ebb and flow of debates that have engaged the public since the founding of the Republic. This fifth edition includes updates on all topics

and expanded attention to same-sex marriage and lesbian issues, pay equity, conservative trends in courts, and women in elective politics. This text is a resource for the inquiry into women's rights politics and policies. It is a record of the changes in the major areas affecting gender roles and the status of women: constitutional law, political participation, reproduction, family law, education, work and pay, work and family, sexuality and economic status. It is more than a recital of laws, statutes and court decisions. The chapters focus on the development of the changes in debates over these issues and how the debates produce laws and

provide the environment for their administration and interpretation. It also highlights the role, and impact, of feminists in the debates.

Politics in the American States

Simon and Schuster
In this brand new radical analysis of globalization, Cynthia Enloe examines recent events—Bangladeshi garment factory deaths, domestic workers in the Persian Gulf, Chinese global tourists, and the UN gender politics of guns—to reveal the crucial role of women in international politics today. With all new and updated chapters, Enloe describes how many women's seemingly personal strategies—in their marriages, in their housework, in their

coping with ideals of beauty—are, in reality, the stuff of global politics. Enloe offers a feminist gender analysis of the global politics of both masculinities and femininities, dismantles an apparently overwhelming world system, and reveals that system to be much more fragile and open to change than we think.
