INTRODUCTIO
N: Quorum
sensing (QS)
is a cell-to-cell
communicatio
n that
regulates

gene
expression
and
coordinates
their behavior
in accordance
with the cell
population
density as a
result of
discerning
molecules
termed
autoinducers
(AIs). Quorum
sensing
inhibitors: a
patent
review. Quoru
m sensing
inhibitors: a
patent
overview. ...
BACKGROUND
: Quorum

sensing (QS)
is a microbial
cell-cell
signaling
system that
correlates
gene
expression
with cell
population
density. It
plays
important
roles in intra-
species
communicatio
ns and is also
involved in
inter-species
and microbe-
host
interactions. Q

Quorum sensing inhibitors: a patent review

The invention relates to compounds for use as quorum sensing inhibitors (QSIs), and in particular, to quorum sensing inhibitors of *Pseudomonas aeruginosa*.
BACKGROUND
 . Bacteria communicate via a phenomenon termed quorum sensing (QS) in which they secrete chemical signal molecules, termed autoinducers, into their surrounding environment.

<i>WO20110559 87A2 - Method for screening of quorum sensing ... Quorum sensing inhibitors: a patent overview. ... BACKGROUND</i>	: Quorum sensing (QS) is a microbial cell-cell signaling system that correlates gene expression with cell population density. It	plays important roles in intra- species communicatio ns and is also involved in inter-species and microbe- host interactions.
