Student Unit Guides are perfect for revision. Each guide is written

by an examiner and explains the unit requirements, summarises  
the relevant unit content and includes a series of specimen  
questions and answers. There are three sections to each guide:  
Introduction - includes advice on how to use the guide, an  
explanation of the skills being tested by the assessment  
objectives, an outline of the unit or module and, depending on the  
unit, suggestions for how to revise effectively and prepare for the  
examination questions. Content Guidance - provides an  
examiner's overview of the module's key terms and concepts and  
identifies opportunities to exhibit the skills required by the unit. It  
is designed to help students to structure their revision and make  
them aware of the concepts they need to understand the exam  
and how they might analyse and evaluate topics. Question and  
Answers - sample questions and with graded answers which have  
been carefully written to reflect the style of the unit. All responses  
are accompanied by commentaries which highlight their  
respective strengths and weaknesses, giving students an insight  
into the mind of the examiner.
