**NOMINATED FOR THE JAZZ JOURNALISTS ASSOCIATION BOOK OF THE YEAR 2021 WINNER OF THE PRESTO JAZZ BOOK OF THE YEAR 2020** An articulate, scrupulously researched account based on first-hand information, this book presents Brubeck's contribution to music with the critical insight that it deserves -  
 \*\*\*\*\* BBC Music Magazine This is the writing about jazz that we've been waiting for - Mike Westbrook The sheer descriptive verve, page after page, made me want to listen to every single musical example cited. A major achievement - Stephen Hough 'Definitive . . . remarkable. Clark writes intelligently and joyously.' - Mojo In 2003, music journalist Philip Clark was granted unparalleled access to jazz legend Dave Brubeck. Over the course of ten days, he shadowed the Dave Brubeck Quartet during their extended British tour, recording an epic interview with the bandleader. Brubeck opened up as never before, disclosing his unique approach to jazz; the heady days of his 'classic' quartet in the 1950s-60s; hanging out with Duke Ellington, Charlie Parker, Louis Armstrong, and Miles Davis; and the many

controversies that had dogged his 66-year-long career. Alongside beloved figures like Ella Fitzgerald and Frank Sinatra, Brubeck's music has achieved name recognition beyond jazz. But finding a convincing fit for Brubeck's legacy, one that reconciles his mass popularity with his advanced musical technique, has proved largely elusive. In Dave Brubeck: A Life in Time,

Clark provides us with a thoughtful, thorough, and long-overdue biography of an extraordinary man whose influence continues to inform and inspire musicians today. Structured around Clark's extended interview and intensive new research, this book tells one of the last untold stories of jazz, unearthing the secret history of 'Take Five' and many hitherto unknown aspects of

Brubeck's early career - and about his creative relationship with his star saxophonist Paul Desmond. Woven throughout are cameo appearances from a host of unlikely figures from Sting, Ray Manzarek of The Doors, and Keith Emerson, to John Cage, Leonard Bernstein, Harry Partch, and Edgard Varèse. Each chapter explores a different theme or aspect of

Brubeck's life and music, illuminating the core of his artistry and genius.

**The Professional Singer's Handbook**

Columbia Pictures Publications Classic Keys is a beautifully photographed and illustrated book focusing on the signature rock keyboard sounds of the 1950s to the early 1980s. It celebrates the Hammond B-3 organ, Rhodes and Wurlitzer electric pianos, the

Vox Continental and Farfisa combo organs, the Hohner Clavinet, the Mellotron, the Minimoog and other famous and collectable instruments. From the earliest days of rock music, the role of keyboards has grown dramatically. Advancements in electronics created a crescendo of musical invention. In the thirty short years between 1950 and 1980, the rock keyboard went from

being whatever down-on-its-luck piano awaited a band in a bar or concert hall to a portable digital orchestra. It made keyboards a centerpiece of the sound of many top rock bands, and a handful of them became icons of both sound and design. Their sounds live on: Digitally, in the memory chips of modern keyboards, and in their original form thanks to a growing group of musicians

and collectors of many ages and nationalities. Classic Keys explores the sound, lore, and technology of these iconic instruments, including their place in the historical development of keyboard instruments, music, and the international keyboard instrument industry. Twelve significant instruments are presented as the chapter foundations, together with information about and comparisons

with more than thirty-six others. Included are short profiles of modern musicians, composers, and others who collect, use, and prize these instruments years after they went out of production. Both authors are avid musicians, collect and restore vintage keyboards, and are well-known and respected in the international community of web forums devoted to these

instruments. **Rocking the Classics** Hal Leonard Publishing Corporation (Instructional). This is a highly original book about Haydn's

keyboard music, about 18th-century keyboard practices and culture, and about performance. Written in the first person by the author, himself a professional keyboard player, the study places the performer, both historical and contemporary, at the center of the scholarly inquiry and explores in exquisite detail the process by which a modern performer arrives at a

historically-informed interpretation of Haydn's sonatas. The veiled reference to Diderot's Paradox of an Actor in the title explicitly situates the study within the context of 18th-century debates on performance-- a crucial issue in the period, with the rapid expansion of music publishing, of concert culture, of amateur music making, especially among aristocratic women performers,

and with rapid changes in the technology and the physical properties of the instruments themselves. The reference to Diderot also hints at the way in which Beghin's text itself "performs" in the manner of many 18th-century critical texts: like them, it has a tendency to be personal and idiosyncratic. Discussing a group of Viennese sonatas, for example, the author

explores the contemporary fascination with physiognomy and goes on to try out facial gestures in his own performance of the music, which he documents in photographs reproduced in the book vis-à-vis Messerschmidt's grimacing busts of the same period. Introducing the female dedicatees and performers of sonatas written for both Vienna and London, he links rhetoric and

gender showing how femininity was encoded into the music through rhetorical gestures comparable to those Haydn employed in letters to female friends and patrons. Using wit and imagination to illuminate and bridge the gulf between 18th-century and 21st-century concepts of performance, this book helps define a fresh approach to keyboard studies and performance studies today. *Bowker's*

In Stardust Melodies, Will Friedwald takes each of these legendary songs apart and puts it together again, with a staggering wealth of detail and unprecedented understanding. Each chapter gives us an extended history of one song—the circumstances under which it was written and first performed—and then explores its musical and lyric content. Drawing on his vast knowledge of records and the careers of performing artists, Friedwald tells us who was responsible for making these songs famous and discusses in depth the performers who have left their unique marks on them. He writes about variations in performance style, about both classic and obscure versions of the songs, about brilliantly original interpretations and ghostly travesties. And then there's the completely unexpected, like Stan Freberg's politically correct "Elderly Man River." This is a book for all lovers of American song to explore, argue with, and savor.

student gain the skills necessary to be professional and competitive in the music industry today. The included audio contains recorded versions of all assigned repertoire pieces and examples, so there is no doubt what they should sound like. Rarely does an accomplished artist extend his musical passion to the area of teaching, but jazz composer/key

boardist John Novello is the exception. Novello began teaching in 1983, and released *The Contemporary Keyboardist* a few years later. *The Virtual Haydn* Routledge Jazz: Research and Pedagogy is the third edition of an annotated bibliography to books, recordings, videos, and websites in the field of jazz. Since the publication of the 2nd edition in 1995, the quantity and quality of

books on jazz research, performance, and teaching materials have increased. Although the 1995 book was the most comprehensive annotated jazz bibliography published to that date, several books on research, performance, and teaching materials were omitted. In addition, given the proliferation of new books in all jazz areas since 1995, the need for a new, comprehensive, and

annotated reference book on jazz is apparent. Multiply indexed, this book will serve as an excellent tool for librarians, researchers, and scholars in sorting through the massive amount of new material that has appeared in the field over the last decade. *The Contemporary Keyboardist* Pantheon What Duke Ellington and Miles Davis teach us about leadership

How do you cope when faced with complexity and constant change at work? Here's what the world's best leaders and teams do: they improvise. They invent novel responses and take calculated risks without a scripted plan or a safety net that guarantees specific outcomes. They negotiate with each other as they proceed, and they don't dwell on mistakes or

stifle each other's ideas. In short, they say "yes to the mess" that is today's hurried, harried, yet enormously innovative and fertile world of work. This is exactly what great jazz musicians do. In this revelatory book, accomplished jazz pianist and management scholar Frank Barrett shows how this improvisational "jazz mindset" and the skills that go along with it are essential for effective

leadership today. With fascinating stories of the insights and innovations of jazz greats such as Miles Davis and Sonny Rollins, as well as probing accounts of the wisdom gleaned from his own experience as a jazz musician, Barrett introduces a new model for leading and collaborating in organizations. He describes how, like skilled jazz players, leaders need to master the

art of unlearning, perform and experiment simultaneously, and take turns soloing and supporting each other. And with examples that range from manufacturing to the military to high-tech, he illustrates how organizations must take an inventive approach to crisis management, economic volatility, and all the rapidly evolving realities of our globally connected world. Leaders

today need to be expert improvisers. Yes to the Mess vividly shows how the principles of jazz thinking and jazz performance can help anyone who leads teams or works with them to develop these critical skills, wherever they sit in the organization. Engaging and insightful, Yes to the Mess is a seminar on collaboration and complexity, against the soulful backdrop of jazz.
