Power is an issue that  
is attracting increased  
interest among  
philosophers,  
theologians and social  
scientists. The gospel  
of Mark, especially in  
10:32-45, contains

teachings attributed to  
Jesus about the use  
and abuse of power.  
This book applies a  
combination of  
different methods and  
approaches: mainly  
orality, criticism,  
literary criticism and a  
sensitivity for the  
social and cultural  
environment of the  
text, showing the  
centrality of Jesus's  
message on the issue

of power both for the plot and for the theology of Mark. This message is a call to practice leadership in a way that is subversive toward the networks of power of the empire.

Citizenship has long been a central topic among educators, philosophers, and political theorists. Using the phrase “rhetorical citizenship” as a unifying perspective, *Rhetorical Citizenship and Public Deliberation* aims to develop an understanding of citizenship as a discursive phenomenon, arguing that discourse is not prefatory to real action but in many ways constitutive of civic engagement. To accomplish this, the

book brings together, in a cross-disciplinary effort, contributions by scholars in fields that rarely intersect. For the most part, discussions of citizenship have focused on aspects that are central to the “liberal” tradition of social thought—that is, questions of the freedoms and rights of citizens and groups. This collection gives voice to a “republican” conception of citizenship. Seeing participation and debate as central to being a citizen, this tradition looks back to the Greek city-states and republican Rome. Citizenship, in this sense of the word, is rhetorical citizenship. Rhetoric is thus at the core of being a citizen. Aside from the editors, the contributors are John Adams, Paula

Cossart, Jonas  
 Gabrielsen, Jette  
 Barnholdt Hansen,  
 Kasper Møller Hansen,  
 Sine Nørholm Just,  
 Ildikó Kaposi, William  
 Keith, Bart van Klink,

 “From the bedroom to  
 the classroom to the  
 courtroom, ‘consent’ is  
 a key term in our  
 contemporary sexual  
 ethics. In this timely  
 reexamination, Manon  
 Garcia deftly reveals  
 the hidden  
 complexities of  
 consent and proposes  
 how to reconceptualize  
 it as a tool of

liberation.” —Amia  
 Srinivasan, author of  
*The Right to Sex* A  
 feminist philosopher  
 argues that consent is  
 not only a highly  
 imperfect legal  
 threshold but also an  
 underappreciated  
 complement of good  
 sex. In the age of  
 #MeToo, consent has  
 become the ultimate  
 answer to problems of  
 sexual harassment and  
 violence: as long as all  
 parties agree to sex,  
 the act is legitimate.  
 Critics argue that  
 consent, and the  
 awkwardness of  
 confirming it, rob sex  
 of its sexiness. But that  
 objection is answered  
 with the charge that  
 opposing the consent  
 regime means  
 defending a masculine  
 erotics of silence and  
 mystery, a pillar of  
 patriarchy. In *The Joy  
 of Consent*, French

philosopher Manon Garcia upends the assumptions that underlie this very American debate, reframing consent as an ally of pleasure rather than a legalistic killjoy. In doing so, she rejects conventional wisdom on all sides. As a legal norm, consent can prove rickety: consent alone doesn't make sex licit—adults engaged in BDSM are morally and legally suspect even when they consent. And nonconsensual sex is not, as many activists insist, always rape. People often agree to sex because it is easier than the alternative, Garcia argues, challenging the simplistic equation between consent and noncoercion. Drawing on sources rarely considered

together—from Kantian ethics to kink practices—Garcia offers an alternative framework grounded in commitments to autonomy and dignity. While consent, she argues, should not be a definitive legal test, it is essential to realizing intimate desire, free from patriarchal domination. Cultivating consent makes sex sexy. By appreciating consent as the way toward an ethical sexual flourishing rather than a legal litmus test, Garcia adds a fresh voice to the struggle for freedom, equality, and security from sexist violence.

particularly as it relates to how the intersection of spornosexual and inclusive masculinities inform their views and enactment of their masculine and sexual identities. Chapters engage with findings from an in-depth qualitative sociological exploration on issues surrounding these masculinities among men living in South Africa who engage in gym work. The author demonstrates that men, when given the opportunity to reflect on their own and the masculinity of others, acknowledge how they promote softer, kinder, disciplined, playful, and sexually agentic masculinities through their look and touch. This book develops the concept of "gamble-play media", describing how some gambling and gambling-like practices are increasingly mediated by digital technologies. Digital gambling brings gambling closer to the practices and features of videogames, as audio-visual simulations structure users' experiences. By studying digital gambling from media studies, videogame and cultural studies approaches, this book offers a new critical perspective on the

issues raised by computer-mediated gambling, while expanding our perspective on what media and gambling are. In particular, it critically analyses terrestrial, mobile and online slot machines, online poker and stock trading apps through a selection of case studies.

Becoming Young Men in a New India tells the gendered story of a

changing India through the lives of its young middle class men. Through time spent ethnographically 'hanging-out' with young men in gyms, bars, clubs, trains and gay cruising grounds in India, this book critically reveals Indian men's violence towards women in various city spaces and also shows the many classed and masculine entitlements and challenges that they experience. The book lays bare the often secretive and hidden social worlds of young Indian men and critically analyses the impact young men's actions and identities have not just for themselves, but for the many women they encounter. In this way, it puts forward a critical queer-feminist perspective of men and

masculinities in postcolonial India where the politics of class, gender, sexuality, violence and urban spaces come together.

Worldwide, men have more opportunities, privileges, and power, yet they also have shorter life expectancies than women. Why is this? Why are there stark differences in the burden of disease, quality of life, and length of life amongst men, by race, ethnicity, (dis)ability status, sexual orientation, gender identity, rurality, and national context? Why is this a largely unexplored area of research? Men's Health Equity is the first

volume to describe men's health equity as a field of study that emerged from gaps in and between research on men's health and health inequities. This handbook provides a comprehensive review of foundations of the field; summarizes the issues unique to different populations; discusses key frameworks for studying and exploring issues that cut across populations in the United States, Australia, Canada, the United Kingdom, Central America, and South America; and offers strategies for improving the health of key population groups and achieving men's health equity overall. This book systematically explores the underlying causes of these differences,

describes the specific challenges faced by particular groups of men, and offers policy and programmatic strategies to improve the health and well-being of men and pursue men's health equity. Men's Health Equity will be the first collection to present the state of the science in this field, its progress, its breadth, and its future. This book is an invaluable resource for scholars, researchers, students, and professionals interested in men's health equity, men's health, psychology of men's health, gender studies, public health, and global health.

In today's modern

world, we are largely isolated from the kind of savagery our ancestors faced on a daily basis. Although violence was as natural to our evolutionary development as sex and food, it has become foreign to most of us: at once demonized and glamorized, but almost always deeply misunderstood. Our hard-earned and hard-wired instincts—our evolved and trained ability to survive and overcome violent encounters—have been compromised. Yet, as even a cursory look at news headlines or a police blotter will reveal, the threat of violent crime is ever-present, and those we've entrusted to protect us cannot always be relied upon. The Gift of Violence

tells the story of this vulnerability and provides the average person with all the knowledge they need to reduce the likelihood of becoming a victim of violence and to increase their chances of surviving a violent encounter. Based both on the author's decades of experience teaching everyday people how to defend themselves and on a rational approach to the scientific data, *The Gift of Violence* offers clear, easy-to-remember lessons for people of all ages and abilities. It is designed to empower those who've been affected by violence or are concerned that they or their loved ones could be—in short, it was written to help good people become more dangerous to bad

people. Every reader will be armed with the necessary knowledge to harness the power of violence for him- or herself—and, in the process, to be not just smarter and stronger but also safer.

While there has been a gradual increase in scholarship on men, ageing and masculinities, little attention has been paid to the social relations of men in later life and the implications for enhancing their social wellbeing and counteracting ageist discourse. Bringing together scholars in social gerontology and the social sciences from across Global North and South nations, this collection fills the gaps in key

texts by foregrounding older men's experiences. It provides new perspectives across the intersections of old age, ethnicities, class and sexual and gender identity, paying particular attention to older men from seldom heard or marginalised groups.

'A barnstorming epic of the '80s British Left' Hari Kunzru, author of Red Pill Paul, ex-tube driver and drinking partner of legendary Union leader Bob Crowe turns up at Essex University in the early 1980s haunted by the death of his colleague on the tracks. Thrown into the

radical mix of Student Union life and the academic intoxication of post-modern theory taught by the likes of Ernesto Laclau, Jacques Derrida and a very young Slavoj Zizek, Paul befriends the novel's unnamed narrator. What follows is a riotous attempt to put the 20th Century to bed, as seen through the eyes of the foot soldiers of British history. From Miners strikes to IRA collection buckets, ANC demonstrations and some very dodgy handling of Soviet money, *Our Struggle* climaxes with a devastating denouement in modern day Kurdistan. Holloway's epic tale asks the big questions, does what we think, what we say and what we do ever match up?
