DRAVEN DOYLE

Key Maths Cambridge University Press

Developed for the CCEA Specification, this Teacher File contains detailed support and guidance on advanced planning, points of emphasis, key words, notes for the non-specialist, useful supplementary ideas and homework sheets.

Revise for Edexcel GCSE Mathematics Heinemann

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Foundation tier specification for first teaching from 2015, this Problem-solving Book contains a variety of questions for students to develop their problem-solving and

reasoning skills within the context of the new GCSE curriculum. Suitable for all Foundation tier students, this resource will stretch the more able and provide support to those who need it.

Questions with worked solutions will help students develop the reasoning, interpreting, estimating and communication skills required to help them effectively solve problems. Encouraging progression by promoting higher-level thinking, our Problem-solving Books will help prepare students for further study.

GCSE Mathematics for OCR Foundation Problem-solving Book
Cambridge University Press

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Approved by AQA and created specifically for the GCSE Mathematics Higher tier specification for first teaching from 2015, this Student Book covers the new GCSE Mathematics qualification. With a strong

focus on developing problem-solving skills, reasoning and fluency, it helps students understand concepts, apply techniques, solve problems, reason, interpret and communicate mathematically. Written by experienced teachers, it also includes a solid breadth and depth of quality questions set in a variety of contexts. GCSE Mathematics Online - an enhanced digital resource incorporating progression tracking - is also available, as well as Problem-solving Books, Homework Books and a free Teacher's Resource.

Mathematics HarperCollins UK

Written specifically for the Foundation and Intermediate tier GCSE for the AQA Modular GCSE Specification B. This clearly presented book will help all students looking to achieve a grade C in GCSE maths. An ideal, stand-alone resource for students doing the GCSE course in one year including students resitting modules.

London GCSE Mathematics Nelson Thornes

Developed for the CCEA Specification, this Teacher File contains detailed support and guidance on advanced planning, points of emphasis, key words, notes for the non-specialist, useful supplementary ideas and homework sheets.

Higher course Cambridge University Press

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Created specifically for the Edexcel GCSE Mathematics Higher tier specification for first teaching from 2015, this Problem-solving Book contains a variety of questions for students to develop their problem-solving and reasoning skills within the context of the new GCSE curriculum. Suitable for all Higher tier students, this resource will stretch the more able and provide support to those who need it.

Questions with worked solutions will help students develop the reasoning, interpreting, estimating and communication skills required to help them effectively solve problems. Encouraging progression by promoting higher-level thinking, our Problem-solving Books will help prepare students for further study.

GCSE Mathematics for OCR Higher Student Book Nelson Thornes
Written by examiners and experienced teachers, this work offers study and homework support throughout GCSE. It is useful as a reference source, a lesson back-up and a revision guide.

Hachette UK

A revision guide for the London Examinations Board GCSE higher maths exam. The book offers: key point summaries of candidates expected knowledge; worked examples; test-yourself diagnostic questions; and a further practice examination paper. The text is cross-referenced to the companion course text.

Pearson Edexcel GCSE (9-1) Mathematics: Purposeful Practice Book - Foundation GCSE Mathematics for Edexcel Higher Problem-solving Book

A hugely enjoyable, brilliantly researched explanation of the basic principles of maths.

Key Maths Heinemann

Intending to help students revise the key topics they need to brush up on, this work includes test yourself diagnostic questions, worked examples, practice questions and summaries on important topics, and practice examination papers.

Make The Grade At GCSE Maths Higher, Third Edition Cambridge University Press

This book has been written for all students who are doing Mathematics at GCSE level. It carefully and precisely follows the

syllabus for Maths 9-1 and is suitable for all examining boards AQA, Edexcel, OCR, CIE, IGCSE, Cambridge O Level. It provides the details and guidance that are needed by students to be successful in the Mathematics examinations up to GCSE level. This book will prove to be valuable to students of Mathematics who are: Revising the subject on their own and who need support with techniques and examinations advice, and need a comprehensive guide with worked examples and lots of practice exercises to check their understanding Studying the subject for the first time at secondary level (Year 7 and onwards) and want to get a good grasp of GCSE Mathematics from an early age to be able to excel in this subject matter Being home-schooled and can learn and practise at their own pace Learning the subject on their own (like mature students) who wants to develop an understanding of Mathematics As a bonus, this book includes as separate section on concise facts and formulas to remember grouped by topics that students can just browse through efficiently before examinations. Plus, it is packed with: Tips on revision planning and organisation Memorising techniques Examinations preparation advice (before, during and after) Assistance with designing your revision plan How to keep your motivational level consistent. All answers are included for each and every question in this book for you to check your understanding.

The AQA Modular Course Heinemann

A complete course for GCSE, this text contains clear explanations of key ideas, graded exercises, worked examples, past paper questions and practice exam papers. Answers are also included. The Foundation course is targeted towards lower ability students. Foundation Cambridge University Press
