SBAs, EMQs & SAQs in Practice Papers John Wiley & Sons
 SBAs, EMQs & SAQs in the SPECIALTIES provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for clinicians preparing for their postgraduate exams. This book includes over 130 single best answer questions (SBAs), 270 extended matching questions (EMQs) and 78 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. It is an invaluable educational resource for exam preparation and to help you succeed. Key features * Over 470 questions on specialty subjects. * Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. * Overseen by experienced doctors to ensure relevance and accuracy. * The broad medical curriculum is covered in a succinct and consistent style. * Pharmacology and pathology are integrated throughout the text. * Clear and concise answers are provided. * Easy accessible information to facilitate revision on the move. * Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. * The following main specialties are covered: - Dermatology - Oncology - Ophthalmology - Obstetrics & Gynecology - Pediatrics; - Psychiatry. Watch out for our other titles in the MedQ4exams series: - Medicine - Surgery - Practice papers
The Art of Teaching Medical Students - E-Book Medq4exams
 With over 20 real patient cases and outcomes, this title in the Clinical Cases Uncovered series is designed to help students and junior doctors learn how to recognise and understand significant diseases in haematology. Each case covers the history taking, examination, investigations and management of a particular disease, with question and answer sections to tie in the underlying basic and clinical science and help build further knowledge and understanding. At the end of each case there is a review to consolidate learning with a self-assessment section containing MCQs, EMQs and SAQs. Including colour blood films, haematology slides and patient photos throughout to reinforce learning, understanding and investigative skills, Haematology: Clinical Cases Uncovered helps prepare for life on the wards. Haematology CCU is now available as a mobile app for iPad, iPhone and iPod touch. Download it for FREE <http://itunes.apple.com/gb/app/haematology-clinical-cases>

[/id425126264?mt=8](http://itunes.apple.com/gb/app/haematology-clinical-cases/id425126264?mt=8)"<http://itunes.apple.com/gb/app/haematology-clinical-cases/id425126264?mt=8/a> to access the basic science, recommendations on how to approach your patient, and the first clinical case. There are a further 22 cases available separately as in-app purchases.

SBAs, EMQs and SAQs in the SPECIALTIES CRC Press
 Crash Course - your effective every day study companion PLUS the perfect antidote for exam stress! Save time and be assured you have all the core information you need in one place to excel on your course and achieve exam success. A winning formula now for over 15 years, each series volume has been fine tuned and fully updated, with an improved layout tailored to make your life easier. Especially written by senior medical students or recent graduates - those who have just been in the exam situation - with all information thoroughly checked and quality assured by expert faculty advisers, the result are books which exactly meet your needs and you know you can trust. Each provides an integrated approach to the subject by linking together topics such as anatomy, development, histology, physiology and pharmacology. Diseases and complaints, clerking, clinical assessment and examination, common skills and further investigations are also covered. Commencing with clear 'Learning Objectives', every chapter guides you succinctly through the topic, giving full coverage of the curriculum whilst avoiding unnecessary and often confusing detail. A fully revised self-assessment section matching the latest exam formats is also included. In this edition, Crash Course Endocrinology has been carefully revised to further reflect the requirements today's medical curriculum, including enhanced coverage of the essential area of diabetes. More than 130 illustrations present clinical, diagnostic and practical information in an easy-to-follow manner. Friendly and accessible approach to the subject makes learning especially easy. Written by students for students - authors who understand exam pressures. Contains 'Hints and Tips' boxes, and other useful aide-memoires. Succinct coverage of the subject enables 'sharp focus' and efficient use of time during exam preparation. Contains a fully updated self-assessment section - ideal for honing exam skills and self-testing. Self-assessment section fully updated to reflect current exam requirements. Contains 'common exam pitfalls' as advised by faculty. Crash Courses also available electronically! Online self-assessment bank also available - content edited by Dan Horton-Szar!

OSCEs for Medical Finals RCPsych Publications
 Self-Assessment by Ten Teachers presents a new opportunity for medical students to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practise

their exam technique. Working well as a stand-alone book, this comprehensive self-assessment book is also designed to complement the well-known volumes 'Gynaecology by Ten Teachers' and 'Obstetrics by Ten Teachers', both of which have now reached their 18th editions. The book tests information covered in the two 'Ten Teachers' volumes via the full variety of exam question types - EMQs, MCQs, SAQs and OSCEs. Each answer has a short explanation of its own, and cross-references are also made to page numbers and topics in the main textbooks. *Self-Assessment by Ten Teachers: EMQs, MCQs, SAQs and OSCEs in Obstetrics & Gynaecology* Cambridge Scholars Publishing
 Fully updated, this book now contains new communication skills criteria and more clinical examination stations. Information on the OSCE making scheme and mock exams make the books ideal for exam practice.

Clinical Anaesthesia John Wiley & Sons
 'SBAs, EMQs & SAQs in SURGERY' provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for those clinicians preparing for their postgraduate exams. This book includes over 200 single best answer questions (SBAs), 400 extended matching questions (EMQs) and 100 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. It is an invaluable educational resource for exam preparation and to help you succeed. Over 700 questions on the core medical subjects. * Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. * Overseen by experienced doctors to ensure relevance and accuracy. * The broad medical curriculum is covered in a succinct and consistent style. * Clear and concise answers are provided. * Easy accessible information to facilitate revision on the move. * Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. * The following main specialties are covered: - Upper gastrointestinal surgery; - Lower gastrointestinal surgery; - Vascular surgery; - Breast surgery; - Urology; - Neurosurgery; - Ear, nose and throat surgery; - Trauma & orthopaedics; - Fluids & electrolytes. Watch out for our other titles in the MedQ4exams series: - Medicine - The Specialties - Practice papers
Cases for Surgical Finals John Wiley & Sons
 Featuring a range of commonly encountered and important conditions in women's health, Obstetrics & Gynaecology: Clinical Cases Uncovered allows the reader to understand normal reproductive physiology and anatomy in the context of clinical practice. It highlights aspects of good practice which in real life are considered beyond the presenting symptom. This unique

case-based approach allows the reader to progress through each stage, gaining an understanding of the rationale for investigation and management and to consider other important aspects for holistic care. *Obstetrics & Gynaecology: Clinical Cases Uncovered* is ideal for medical students and junior doctors, obstetrics and gynaecology trainees, midwives and nurse practitioners.

Medical Finals John Wiley & Sons

This book is an easy-to-read, practical guide for any medical school preparing for accreditation or institutional review. It contains practical guidance on the use of internationally accepted standards with a particular focus on what it is that external accrediting teams will be looking for both before and during their site visit. This book will appeal to medical school faculty as well as faculty from other health professions schools who are preparing for either high stakes accreditation or internal review. It may also appeal to agencies responsible for accrediting medical schools who wish to become more familiar with the international standards.

Elsevier Health Sciences

Created in partnership with the Association for the Study of Medical Education (ASME), this completely revised and updated new edition of *Understanding Medical Education* synthesizes the latest knowledge, evidence and best practice across the continuum of medical education. Written and edited by an international team, this latest edition continues to cover a wide range of subject matter within five broad areas – Foundations, Teaching and Learning, Assessment and Selection, Research and Evaluation, and Faculty and Learners – as well as featuring a wealth of new material, including new chapters on the science of learning, knowledge synthesis, and learner support and well-being. The third edition of *Understanding Medical Education*: Provides a comprehensive and authoritative resource summarizing the theoretical and academic bases to modern medical education practice Meets the needs of all newcomers to medical education whether undergraduate or postgraduate, including those studying at certificate, diploma or masters level Offers a global perspective on medical education from leading experts from across the world Providing practical guidance and exploring medical education in all its diversity, *Understanding Medical Education* continues to be an essential resource for both established educators and all those new to the field.

Pre-Clinical Medicine CRC Press

Previously entitled *MCQs in Gynaecology & Obstetrics 3rd Edition*, this text has been expanded to include Short Answer Questions (SAQs), in line with new assessments used in many medical schools. 'Self-Assessment in O&G' contains 300 MCQs and 60 SAQs, all of which are closely referenced to the 17th editions of 'Ten Teachers in Obstetrics' and 'Ten Teachers in Gynaecology'. Detailed explanatory answers ensure that the title can be used on its own or in conjunction with other texts. Ten Teacher's Self Assessment in Obstetrics and Gynaecology is a comprehensive revision aid that will help medical students prepare for exams during clinical attachments and medical finals. The self-test format allows assessment of learning in obstetrics and gynaecology with multiple choice and short answer questions. The questions and explanatory answers are referenced to the appropriate chapter in the well-known volumes *Gynaecology by Ten Teachers* and *Obstetrics by Ten Teachers* to enhance learning and revision.

Neurology tfm Publishing Limited

OSCEs for Medical Finals has been written by doctors from a variety of specialties with extensive experience of medical education and of organising and examining OSCEs. The book and website package consists of the most common OSCE scenarios encountered in medical finals, together with checklists, similar to OSCE mark schemes, that cover all of the key learning points students need to succeed. Each topic checklist contains comprehensive exam-focussed advice on how to maximise performance together with a range of 'insider's tips' on OSCE strategy and common OSCE pitfalls. Designed to provide enough coverage for those students who want to gain as many marks as possible in their OSCEs, and not just a book which will ensure students 'scrape a pass', the book is fully supported by a companion website at www.wiley.com/go/khan/osces, containing: OSCE checklists from the book A survey of doctors and students of which OSCEs have a high chance of appearing in finals in each UK medical school

SBAs, EMQs & SAQs in MEDICINE CRC Press

This handbook is a must for anyone trying to navigate the landscape of postgraduate medical education.

One Stop Doc Immunology Elsevier Health Sciences

Infectious Disease is a core topic within the clinical curriculum and students are expected to recognize, understand and know how to investigate and manage many infectious conditions. *Infectious Disease: Clinical Cases Uncovered* leads students through a clinical approach to managing problems, with a question-answer approach developing the narrative. With self-assessment exercises using MCQs, EMQs and SAQs, *Infectious Disease: Clinical Cases Uncovered* is perfect for medical students and junior doctors, infectious disease nurses, nursing students and nurse practitioners.

Minor Injury and Minor Illness at a Glance John Wiley & Sons

Translating the evidence from the bedside to populations This sixth edition of the best-selling *Epidemiology, Evidence-based Medicine and Public Health Lecture Notes* equips students and health professionals with the basic tools required to learn, practice and teach epidemiology and health prevention in a contemporary setting. The first section, 'Epidemiology', introduces the fundamental principles and scientific basis behind work to improve the health of populations, including a new chapter on genetic epidemiology. Applying the current and best scientific evidence to treatment at both individual and population level is intrinsically linked to epidemiology and public health, and has been introduced in a brand new second section: 'Evidence-based Medicine' (EBM), with advice on how to incorporate EBM principles into your own practice. The third section, 'Public Health', introduces students to public health practice, including strategies and tools used to prevent disease, prolong life, reduce inequalities, and includes global health. Thoroughly updated throughout, including new studies and cases from around the globe, key learning features include: Learning objectives and key points in every chapter Extended coverage of critical appraisal and data interpretation A brand new self-assessment section of SAQs and 'True/False' questions for each topic A glossary to quickly identify the meaning of key terms, all of which are highlighted for study and exam preparation Further reading suggestions on each topic Whether approaching these topics for the first time, starting a special study module or placement, or looking for a quick-reference summary, this book offers medical students, junior doctors, and public health students an invaluable collection of theoretical and practical information.

Epidemiology, Evidence-based Medicine and Public Health Radcliffe Publishing

SBAs, EMQs & SAQs in PRACTICE PAPERS provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for clinicians preparing for their postgraduate exams. This book includes over 40 single best answer questions (SBAs), 140 extended matching questions (EMQs) and 25 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. The book also includes a variety of radiological images (abdominal and chest X-rays), ABGs and ECGs for interpretation. It is an invaluable educational resource for exam preparation and to help you succeed. Key features: * Over 200 questions on the core medical subjects. * Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. * Overseen by experienced doctors to ensure relevance and accuracy. * The broad medical curriculum is covered in a succinct and consistent style. * Pharmacology and pathology are integrated throughout the text. * Clear and concise answers are provided. * Easy accessible information to facilitate revision on the move. * Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. * The following main specialties are covered: - Breast surgery; - Cardiology; - Dermatology; - Endocrinology; - ENT surgery; - Fluids & electrolytes; - Gastroenterology; - Haematology; - Infectious diseases; - Lower gastrointestinal surgery; - Neurology; - Neurosurgery; - Obstetrics & gynaecology; - Oncology; - Ophthalmology; - Paediatrics; - Psychiatry; - Renal medicine; - Respiratory medicine; - Rheumatology; - Statistics; - Trauma & orthopaedics; - Upper gastrointestinal surgery; - Urology; - Vascular surgery. Watch out for our other titles in the MedQ4exams series: - Medicine - Surgery - The Specialties

Crash Course Endocrinology E-Book John Wiley & Sons

This handbook will be a concise guide to important topics in psychiatry with an international focus. It constitutes a précis of the field of psychiatry with emphases on the therapeutic approach to the patient and on the proper diagnosis of major psychiatric disorders. All psychiatric diagnoses are encoded using both the US Diagnostic and Statistical Manual (DSM) and the International Statistical Classification of Diseases and Related Health Problems (ICD). Treatment options for psychiatric disorders will include approaches used in developed nations in North America, Europe, Asia, as well as in the developing world. Furthermore an invaluable brief history of psychiatry allows readers to trace the beginnings of their chosen field and gain awareness of the ethical and legal contexts. This handbook will provide a comprehensive introduction to psychiatry appropriate for students, trainees, and practitioners seeking an international approach. Contents: Impact of Mental Illness (Laura Weiss Roberts, Richard Balon and Joseph B Layde) International Issues in Psychiatry (Richard Balon and Cyril Höschl) Psychiatric Diagnosis (Stephanie Bagby-Stone, Jessica Nittler and John Lauriello) Psychiatric Genetics (Bhanu Prakash Kolla and David Mrazek) Psychiatric Interviewing: What to Do, What Not to Do (Mara Pheister) Psychological and Neuropsychological Testing (Jennifer Niskala Apps and Jonathan E Romain) Psychiatric Disorders in Childhood and Adolescence (Michael Koelch and Joerg M Fegert) Schizophrenia and Other Psychotic Disorders (Peter F Buckley, Adriana Foster and Scott Van Sant) Mood Disorders (Sandra Rackley and J Michael Bostwick) Anxiety Disorders (Leanne Parasram and Dan J Stein) Substance Use Disorders (Nidal Moukaddam and Pedro Ruiz) Cognitive Disorders (Alana Iglewicz, Ipsit V Vahia and Dilip V Jeste) Somatoform

Disorders (Christina L Wichman) The Dissociative Disorders (Jean M Goodwin) Sleep Disorders in Psychiatry (Oludamilola A Salami) Eating Disorders (Athena Robinson and W Stewart Agras) Sexual Disorders (Richard Balon) Adjustment Disorder (Mauro Giovanni Carta, Maria Carolina Hardoy and Matteo Balestrieri) Personality Disorders (Joel Paris) Geriatrics (Randall Espinoza) Emergency Psychiatry (Divy Ravindranath, Mark Newman and Michelle Riba) Outpatient Psychiatry (Ondria Gleason, Aaron Pierce and Bryan Touchet) General Hospital Psychiatry (Jen Alt McDonald and Mark T Wright) Psychiatric Education (Linda Gask and Michelle B Riba) Residency Training (Sanjai Rao and Sidney Zisook) Methods of Psychiatric Research (Elizabeth Burgess, Nicolas Ramoz and Philip Gorwood) World Suicide (Morton M Silverman) AIDS Psychiatry (Mary Ann Cohen) Pharmacogenomic Variability Associated with Psychotropic Medication Response (David Mrazek and Bhanu Prakash Kolla) Ethics in Psychiatry (Kristi Estabrook) The Culturally Competent Psychiatric Assessment (Ajoy Thachil and Dinesh Bhugra) Traditional Healing for Psychiatric Disorders (Roger M K Ng, Zhang-jin Zhang and Wendy Wong) International Perspective on Homelessness (Belinda Bandstra, Anthony Mascola and Daryn Reicherter) Mental Health Consequences of War and Political Conflict (Daryn Reicherter and Rena Sugarbaker) Stigma (Travis Fisher) Legal Aspects of Psychiatry (Joseph B Layde) Readership: Psychiatry students, trainees, and practitioners.

Keywords: Psychiatry; Mental Health; Physician Assistant; Nursing Practitioner and Advanced Practice; Professional and Technical; Medical; Allied Health Professional; Medical Assistants; Neurology/ Neuroscience; Public Health; Pharmacology/ Pharmacy; Paediatrics; HIV & AIDS Research; Forensic Medicine Key Features: The international focus and the wide international experience of the authors would make the book particularly attractive to students and residents, both in terms of coursework and preparation for formal examinations Focus on innovative areas of psychiatry such as patient-centered care practices (e.g. in defining the goals of treatment), new therapies (e.g. pharmacogenetic advances), and the approach to special or complex patient populations (e.g. children, elders, medically ill, and terminally ill) The particular strengths of "Q & A" sections, self-assessment items, "clinical pearls" study guides and the competency-based orientation would set this book apart from others

Obstetrics and Gynaecology, eTextbook Medq4exams

Covering cases from Addison's disease to osteoporosis and diabetic foot ulcer, and an introductory section explaining the molecular and physiological aspects of endocrinology, *Endocrinology and Diabetes: Clinical Cases Uncovered* has it all. Reflecting the varied nature of the specialty, the cases cover various endocrine conditions and address the clinical presentation, diagnostic workup and potential complications, while the self-assessment section, comprising 30 MCQ, 10 SAQs and 10 EMQs, will help medical students, junior doctors, and nurses practise clinical reasoning and prepare for life on the wards.

SBAs, EMQs & SAQs in SURGERY John Wiley & Sons

A guide to the reality of medical student life. It addresses questions such as: How do I find my way to lectures? Can I live on hamburgers? How do I give effective presentations? How much can I drink without vomiting in Freshers week? What about student loans? How should I prepare for exams? And, exactly how much work should I be doing?

Complete SAQs for Medical Finals Complete SAQs for Medical Finals

This detailed guide is a must for medical students preparing for clinical attachment and final exams. Its wide-ranging approach is also ideal for those sitting GP entrance exams. Presenting short answer questions encompassing the entire current curriculum, this informative revision aid covers all bases.

International Handbook of Psychiatry John Wiley & Sons

It has been recognised by governments and healthcare organisations worldwide that for Universal Healthcare in pursuit of Health for All under the Sustainable Development Goals to be achieved, effective primary care that is integrated, accessible, and affordable for everyone is essential. This practical guide is the first designed specifically to support those planning and conducting family medicine/primary care education within medical schools around the world. It offers medical educators a collection of concise easy to follow chapters, guiding the reader through the curriculum requirements with key references for further detail. Plain English and practical, deliverable advice, adaptable to different contexts, ensures the content is accessible to those educating medical students in any country, while the structure within sections ensures that family medicine doctors and educators can dip into chapters relevant to their roles, for example curriculum design for academic educators or teaching methods for those educating in clinical practice. Key Features ■ The first "how-to" guide dedicated to effective integration of family medicine teaching into medical school curricula ■ Offers a strong evidence-based framework for integrating family medicine into medical schools ■ Wide in scope, for academics and educationalists at all levels and in all geographies, reflecting and embracing the experience and variation in family medicine across

the globe to produce pragmatic and effective information on which medical schools can base change ■ Step-by-step introduction to the processes of literature review (establishing the existing knowledge base), choosing a topic, research questions, and methodology, conducting research, and disseminating results

■ Supported by the WONCA Working Party on Education The book is edited and authored by members of the World Organization of Family Doctors (WONCA) Working Party on Education, which is ideally placed to offer a strong platform for medical schools to

integrate family medicine whatever the local context, enabling all future doctors, whatever their career aspiration, to understand the importance of family medicine to health systems and holistic medicine and encourage family medicine doctors to inspire students to consider a career in the field.
