Homemade Beauty Products Collection: Over 100 DIY Organic, Toxic-Free Scrubs, Lotions and Soaps Recipes for All Skin Types Book 1 Body Scrubs: 35 Natural DIY Scrubs for Body and Face for Radiant and Youthful Skin You have seen many scrubs in the store for your body and face. You have seen the results of using them, but the problem you would like to save money by making your own. You've looked all over the internet to find information on how to make scrubs on your own, but the flood of information is difficult to parse and find just what you are looking for in order to get started. In this book, I use my over twenty years of natural health experience to walk

you through everything you will need to get started and eventually make your own. I will teach you the basics and leave you feeling like you can start making your own recipes and using them. By purchasing this book, you are ready to get started on a new way to take care of your skin and your body. This book will walk you through the steps and show you: What scrubs are and the different types What essential oils are and how to use them The best ways to combine the essential oils Recipes with step-by-step instructions on how to make and store the scrubs I will present the information in a fashion that is easy to understand without leaving you with more questions. I will walk you through every step of the process. Book 2 Homemade Organic Lotion: 39 Best Natural Lotions Recipes For All Skin Types I would like to thank and congratulate you for downloading "Homemade Organic Lotion". You are certainly going to learn that. The skin is the largest organ and it requires a lot of attention in order to stay healthy. One of the biggest threats is represented by

dehydration, which becomes an even bigger issue to consider during the cold winter season. When the skin suffers from dehydration, it becomes dry and has an aged-aspect. Preparing homemade lotions and body butters is not as complicated as you might expect. All homemade lotions & body butters recipes have a basic pattern and, once you grasp that, you can customize your recipes as you desire. First and foremost, it is highly important that you use the correct quantities, as this will ensure a stable product. The texture of the lotion/body butter depends on the quantity you have used for each of the chosen ingredients: it is also influenced by the chosen emulsifier, co-emulsifier and essential oils. In some recipes, it is possible to use a number of additional ingredients, such as glycerin or fragrances. This is what you will find in the book: Understanding Skin types Base ingredients of the lotion Lotions for Dry Skin Lotions for Normal Skin Lotions for Oily Skin Sunscreen Lotions Secrets to making natural lotions Importance of a natural skin lotion Thanks again for downloading this book.

It is my sincere hope that it will answer all your questions on Homemade Organic Lotion. Book 3 Homemade Soap Making: 35 Best Organic Soap Making Recipes You're on your way...You are ready to start making your soaps. By purchasing this book, you will be introduced to a new hobby that is economical and puts you in control of what goes in your soap. This book has been written to walk you through: The tools you need to get started. The different oils and lye you will need to make the soaps. General cautions for the soap making process. The three different ways to make soap. How to make your own laundry detergent and other house hold soaps. Recipes to get you started on your way to making soaps.

Making Soap At Home  
"What I like is that once you have made the soap, you know exactly what is inside. My family has sensitive skin, and commercial scented soaps tend to cause a rash or redness." - Sarah  
"We don't know the kind of chemicals that are used to make the soaps we buy today. This book will shed light on why we should use only natural soaps. Besides, making homemade soap is very easy! My first goat milk soap turned out to be amazing!" - Carly  
"I definitely relate to the author in terms of skin type. I've got very sensitive skin, too, and find it very difficult to use even the mildest soaps available on the market. I made the lavender bar, and I must say I feel amazing!" - Amanda  
Why should you make your own natural and homemade soap? In the early 90s, based on a report by the National Institute of Environmental Health Science, approximately 300 billion pounds of synthetic chemicals were produced, used, and disposed of in the United States. Where are these chemicals now? In your shampoos, face creams, soaps and basically everything you

are applying to your body right now. I don't mean to scare you. It's just really important to be careful with what goes on your skin I didn't start soap making out of nowhere. I researched, met a lot of experienced soap makers, and spoke to several chemists and dozens of suppliers just to help comb through the frustrating amount of information I had heard about and/or read. This book is for those who care about their bodies and who know the importance of keeping our body's largest organ healthy, hydrated, and moisturized – The Skin. 'Making Soap At Home' is just how you like it! Short, Simple and straight to the point without all the page-filling nonsense you've already seen in every other soap making book. In this book you'll learn: • The basics of natural soap making • Basic homemade soap ingredients and needed equipment • Safety measures when making natural soap • Oils, butters and essential oils for your first of many homemade soaps! • The actual homemade soap making process • Secret specialty soap scents • DIY soap recipes and much more! Name Me A Book on Soap Making That

Covers It All? Making Soap At Home teaches you the basic way of making soaps followed by a lot of scent and design suggestions that allow you to use your creativity to make something special for loved ones. I've also included some Frequently-Asked Questions for you – things you probably won't get in any other soap making book. My Soap Making Guide Will Answer Some Of These Questions, And Many More! • Why isn't my homemade soap thickening? • Why are small bubbles forming in the mixture? • Why do I have a slightly grainy mixture? • My mixture is beginning to streak. Why is this happening? • My natural soap turned out to be soft and spongy. Why? If this is your first time with DIY Soap?, you're gonna have a great time! Don't wait any longer! Start making your own homemade and natural soaps today! So What Are You Waiting For? Dive into the book now and learn everything there is to know about Soap Making. Do you often get dry skin that often shows cracks and flakes when you use store-bought soap for your showers or baths? Are you worried about the countless chemicals in commercial soap that keep getting banned by regulatory institutions every year, and want a safer option? Or are you a practical creative whose passion to try out exciting projects led your eyes to soap making? If that's you, then you came to the right place. You Are About To Discover Exactly How You Can Make Your Very Own Customized Organic Soap For Use In All Manner Of Ways! Store-bought soaps are not only expensive, but generally harmful to the human body as well as the environment. Actually, one chemical known as Triclosan that's often used in soap products has been linked with antibiotic resistance and disruption of hormones in the body. So making your own soap would not only help you save yourself, your environment and cash,

but give you a superior product, offer you some fun moments (if you love cool projects) and instill in you important skills and knowledge. But where do you get started? What does the process of making your own soap look like? Can you make bath bombs and customized soaps alone? If so, how? What kind of equipment will I require? If these are the kind of questions you've been asking yourself, then you're in luck because this book has all the answers. It is a simple beginners' guide that brings to you a comprehensive description of soap making, including the mistakes you need to avoid to be make the process successful and fun! Here's a snapshot of what you'll discover: An overview of how soap is made How to use fragrance and essential oils in soap making How to make and use soap molds to make your own custom-made soap How to make soap using the cold process soap making technique How to make soap using the hot process soap making technique What bath bombs are and why they're important How to make your own bath

bombs effortlessly How to use bath bombs in the shower or bath How to come up with the perfect way to package and store your bath bombs Common mistakes you need to avoid in making bath bombs The best natural bath bomb recipes to get you started ...And so much more! Preparing and designing soap is fun, but when you consider the fact that it's safer, cheaper and healthier, you'll understand why so many people are turning to the practice. Even if the process seems intimidating and complicated because you are a complete beginner, you can bet that this book will be helpful, as it breaks down the seemingly complex process into easy to follow, beginner friendly steps that you can follow to have your own custom soap made!

Leave no soapstone unturned! Soapmaking has always been a popular craft with a dedicated group of followers, but with the explosion of urban homesteading and people looking to go green, noncrafters are now joining in on the fun. Whether it's making

natural soap to live greener, give as gifts, save money, or make money, *The Complete Idiot's Guide® to Making Natural Soaps* has everything the new soap maker will need to create organic, natural soaps of all kinds. ?Includes recipes to make a wide array of molded, poured, and liquid soaps ?Contains soap recipes for body as well as household and even pets [Homemade Natural Soap](#) Living Plus Healthy Publishing *The Crafty Guide to Soap Making* Janet Brooks, is sold on soap! The soap making whiz enjoys creating unique, handcrafted soaps to use, give, and sell at local crafts festivals and now she's breaking down the complex business of soap making so you can join in on the fun. Janet's expert advice will help you whip up batches of heavenly-smelling, therapeutic, and skin-nourishing soaps that are free of unnecessary additives and harsh chemicals. Once you've cooked up a batch of *Chocolate Chip Cookie Soap*, *Chocolate Lovers Exfoliating Soap*, and other delectable soaps, there's no turning back! Because this guide is geared towards soap

making newbies, Janet guides readers through the history of soap making before moving on to more practical matters--such as describing the four main types of soap making procedures and the equipment you need to purchase when you first get started. Janet discuss the fundamental differences between commercial soap and homemade soap and the pros and cons of specific soap making procedures so readers can determine which one works best for their needs. For practical reasons, Janet does not include instructions on how to make soap using the least favored home-crafting method--the hot process. Do you know how to color a soap blue or beige? Do you know how to make hand milled soap or make soap smell like an orange? What about safety? You'll find the answer to those essential soap making questions, and many others, between the pages of this crafty, comprehensive soap-making guide.

ANSWER ANY QUESTION OF YOURS AFTER READING THIS BOOK. ASK ON HER WEB SITE, AND YOU'LL NORMALLY HEAR BACK WITHIN HOURS! In between writing several of today's most popular and innovative beginner books on soapmaking -- including the modern classics "Smart Soapmaking" and "Milk Soapmaking" -- Anne L. Watson engaged in a number of projects, experiments, and investigations into areas of advanced soapmaking. A lot of it never got into those books! Now Anne shares with you her explorations into such topics as herbal soaps, chocolate soaps, silk soaps, sea soaps, "wood" soaps, citrus soaps, cucumber soaps, oatmeal soaps, egg soaps, beer and wine soaps, castile soap, and even laundry soap. Along the way, she shares hard-earned tips about soap equipment and ingredients, choosing soapmaking suppliers, designing and resizing recipes, troubleshooting, trace accelerants, soda ash, essential oils and fragrances, natural colorants, gift soaps, and soapmaking as a business. And as a special bonus, she provides a fun and instructive look at the

history of soap ads, using antique trade cards from her personal collection.

Looking for new challenges as a soapmaker? Anne's soapmaking almanac will keep you busy, engaged, and entertained throughout the year.

////////////////////  
//////// Anne L. Watson is the author of "Smart Soapmaking," "Milk Soapmaking," three more books on making soap and lotion, other popular books on home crafts and lifestyle, and many novels and children's books. In a previous career, she was a historic preservation architecture consultant. Anne lives in Bellingham, Washington.

////////////////////  
//////// SAMPLE Almost any kind of soap will get you clean. But beyond that, what do we look for? There are so many things to consider -- lather, fragrance, color, and effects on the skin, to name just a few. Then there's the whole process of making that soap. Is it easy or tricky? How long does the soap need to age before it's safe and pleasant to use? What additives are beneficial? Which affect the chemistry of the process? How can we get around difficulties? How do you

turn soapmaking into a business, if that's what you want? This almanac started life as a monthly "magazine" posted on my web site, where I shared projects, experiments, and investigations I took up between writing my first three books on soap and lotion making. There was a lot that never got into the books! Along with practical questions, I gave some attention to the social and cultural side of soap -- to attitudes and prejudices and myths. I'm fascinated by soap advertising and its claims, and by the history of the daily process of cleaning ourselves, our homes, and our clothing. All of that says a lot about where we've been, and maybe something about where we're going. I'm glad now to offer all this in the more enduring form of an almanac -- something to keep in your collection of soapmaking references. Before we start, though, here are just a few practical notes: Most important, this is not a beginning soapmaker's "how-to" book. It contains many recipes, but they're mostly just ingredients lists, because I assume you already know how to make soap. If you do need basic directions, please see one or more of my

other books -- especially "Smart Soapmaking" and "Milk Soapmaking" -- or any other reputable resource.

 Soapmakers may love to add a variety of materials to soap, but they find that some cause more trouble than others. In the heat of the chemical reaction, an ingredient might discolor, or lose its scent, or develop a bad smell. Or it might cause problems during soapmaking, giving off noxious fumes, or making the soap harden so fast that there's no time to pour it in the mold. Help has arrived. Anne L. Watson extends

the low-temp techniques from her book "Milk Soapmaking" to making soap from a variety of special ingredients, including cucumber, citrus, pine tar, beer, and wine. Soaps that have long challenged home soapmakers will now pose no problem at all.
