Makdisi's important work traces the development and organisational structure of learning institutions in Islam, and reassesses scholarship on the origins and growth of the Madrasa.

Lebanese Salafis Between the Gulf and Europe Dar Al Kotob Al Ilmiyah دار الكتب العلمية

It was a time when the Umayyad Empire was aggressively expanding their jurisdiction. Finally, they reached the borders of Africa and Europe — a border separated by the narrow strip of a strait. The first commander to cross these straits and set foot on European soil was none other than Tariq ibn Ziyad. A brave and formidable warrior, Tariq was a smart strategist. He strategically took advantage of the time the Christian rulers of Andalusia were engulfed in a civil war to attack and ultimately defeat them. Hence, the straits that he crossed was honourably named after him, as Jabal Tariq or Gibraltar. After the Andalusian soil was conquered, Tariq advanced towards Paris but was annihilated at the mountains of the Alps. Tariq was also forced to retreat because the Caliphs were worried they would lose contact with him. From then on forth, Andalusia became one of Europe's shining stars amidst the dark ages.

Salafism is one of the most dynamic and rapidly growing Islamic movements and it is impossible to understand contemporary Islam without taking account of it. The movement has reached almost every corner of the Muslim world, and its transnational networks span the globe. Despite the importance of Salafism, scholars have only recently begun to pay serious attention to the movement, and while the body of literature on Salafism is growing, there are still many lacunae. The Lebanese context adopted by the author of this important study provides an excellent opportunity to explore the dynamics of the Salafi movement worldwide.

Contemporary Islamic thinkers are often studied sociologically rather than as theologians. There are many accessible introductions to Christian theologians, but very few such studies of Islamic thinkers. This book, and this series, seeks to change this situation: offering new introductions to influential Islamic thinkers and engaging, at the level of ideas, with the rich depths of contemporary Islamic theology. This book introduces to the English-speaking world the leading modern Islamic thinker Said Nursi (1878-1960) - who has some nine million followers in modern day Turkey and around the world. After an

opening chapter that provides an overview of his life, the next four chapters outline the theology of Nursi on God, the Qur'an, the West and Politics. The final section provides an invaluable resource of readings from Nursi's most important writings. Providing an introduction to a major form of Islam which is committed to non-violence, dialogue and constructive relationships with the West, this is the first student textbook to introduce a contemporary Islamic theologian in a systematic way. *Revival of Religion's Sciences (Ihya Ulum ad-din) 1-4 Vol 1* Al-Ma'arif Publications

The Naqshbandi Sufi Tradition is one of the most distinguished and respected schools of Islamic spirituality. Its long and glorious history stretches back to the earliest days of Islam and it has always played a central, pivotal role in the life of the Muslim world. Led by the shaykhs of the Golden Chain inheritors of the secret knowledge of the prophets and saints the Naqshbandi Order survived the turmoil and tribulations of the past century and remains one of the few authentic mystical traditions that still maintains a living link with its ancient past. Now, for the first time, the history and teachings of the Naqshbandi Way are being made available to the public. *Classical Islam and the Naqshbandi Sufi Tradition* is the most detailed and authentic book ever written about a Sufi order in English. Providing a comprehensive history of the Naqshbandi Tradition, the author Shaykh Muhammad Hisham Kabbani, one of the most respected teachers of Islamic spirituality in the world today, traces the lives of its foremost teachers from Prophet Muhammad, upon whom be peace, to the present. Their life stories are intimately woven with landmark events of history, from the time of the

Companions to the fall of the Ottoman Empire and the reemergence of Islam in the former Soviet Union. However, this book also contains much more. It details the fundamental principles of the Sufi path and the primary teachings of the Naqshbandi Order, exploring the doctrines and philosophy behind this important current in spiritual thinking.

Due to failing health from old age, Genghis Khan did not live to fulfill his dreams of conquering the world. Those dreams however lived on in the hearts of his heirs, one of whom was Hulagu Khan. Like his grandfather, Hulagu Khan was a genius in military tactics and a brave Monggol horse warrior. When he took up command, the Monggols already had control of Central Asia with plans to head west. However, one thing stood in their way of expanding their Mongol Empire. It was the flourishing Abbasiyah Empire in West Asia. Hulagu Khan's sharp military tactics, combined with corruption amongst the rulers of the Abbasiyah Empire, finally saw the fall Baghdad. Conquered, Baghdad was destroyed. Its land turned red, swimming in the the blood of the scientists and philosophers killed. Its waters ran black with ink from the libraries of books thrown into the Tigris river. It was the end of the Abbassid dynasty. Though victorious, the Mongol Empire's own end was near. Soon after the conquest of Aleppo and Damascus, Hulagu Khan's advance to expand his empire in Arabia was halted after his defeat to courageous Mamluk army in Ain Jalut.

Darussalam

This is the story of the legendary Muhammad Al Fateh, following him from his childhood and how he was raised by his father to become a Caliph of Islam, through to his appointment as the Caliph of the Ottoman Empire at the tender age of 19 and subsequent rule. Without Constantinople under its jurisdiction, the Ottoman Empire was incomplete. And so, Sultan Muhammad AlFateh set out to conquer it. Al Fateh was not the first person to attempt conquering Constantinople. Many warriors and caliphs of Islam before him had tried in vain. Learning from their past failures, Al-Fateh carefully assembled and equipped his army. Finally, after an epic battle, Constantinople was conquered. Al Fateh changed the name of the city to Istanbul. At his peak, Al Fateh was the ruler of 25 countries. In the end, he was poisoned and killed by his enemies. Yet, the Ottoman Empire and legacy he left behind stayed standing strong.

Reveals the secret spiritual exercises of the Bektashi Order of Sufis • Shows how this order, also known as Oriental Freemasonry, preserves the ancient spiritual doctrines forgotten by modern Freemasonry • Explains how to transform the soul into the alchemical Magnum Opus by combining Masonic grips and the abbreviated letters of the Qur'an • Includes a detailed biography of Baron von Sebottendorff Originally

published in Germany in 1924, this rare book by Baron Rudolf von Sebottendorff reveals the secret spiritual exercises of the Bektashi Order of Sufis as well as how this order, also known as Oriental Freemasonry, preserves the ancient spiritual doctrines forgotten by modern Freemasonry. Sebottendorff explains how the mysterious abbreviated letters found in the Qur'an represent formulas for perfecting the spirit of the individual. When combined with Masonic hand signs and grips and conducted accordingly to a precise schedule, these formulas incorporate spiritual power into the body and transform the soul from its base state into a noble, godlike state: the Magnum Opus of the medieval alchemists. Laying out the complete program of spiritual exercises, Sebottendorff explains each abbreviated word-formula in the Qur'an, the hand gestures that go with them, and the exact order and duration for each exercise. Including a detailed biography of Sebottendorff and an examination of alchemy's Islamic heritage, this book shows how the traditions of Oriental Freemasonry can ennoble the self and lead to higher knowledge.

The Prophet Muhammad BRILL

This landmark book probes Muslims' attitudes toward Jews and Judaism as a special case of their view of other religious minorities in predominantly Muslim societies. With authority, sympathy and wit, Bernard Lewis demolishes two competing stereotypes: the Islamophobic picture of the fanatical Muslim warrior, sword in one hand and Qur'an in the other, and the overly romanticized depiction of Muslim societies as interfaith utopias. Featuring a new introduction by Mark R. Cohen, this Princeton Classics edition sets the Judaeo-Islamic tradition against a vivid

background of Jewish and Islamic history. For those wishing a concise overview of the long period of Jewish-Muslim relations, *The Jews of Islam* remains an essential starting point.

Ibn Saba' and the Origins of Shi'ism

PTS Publishing House Sdn. Bhd.

The Prophet and the Age of Caliphates is an accessible history of the Near East from c.600-1050AD, the period in which Islamic society was formed. Beginning with the life of Muhammad and the birth of Islam, Hugh Kennedy goes on to explore the great Arab conquests of the seventh century and the golden age of the Umayyad and Abbasid caliphates when the world of Islam was politically and culturally far more developed than the West. The arrival of the Seljuk Turks and the period of political fragmentation which followed shattered this early unity, never to be recovered. This new edition is fully updated to take into account the considerable amount of new research on early Islam, and contains a completely revised bibliography. Based on extensive reading of the original Arabic sources, Kennedy breaks away from the Orientalist tradition of seeing early Islamic history as a series of ephemeral rulers and pointless battles by drawing attention to underlying long term social and economic processes. *The Prophet and the Age of Caliphates* deals with issues of continuing and increasing relevance in the twenty-first century, when it is, perhaps, more important than ever to understand the early development of the Islamic world. Students and scholars of early Islamic history will find this book a clear, informative and readable introduction to the subject.

In *THE LIFE OF MUHAMMAD*, Haykal

achieves two objectives admirably: first, a biography which reveals the career of Prophet Muhammad (peace be upon him) in the full light of historic reality; second, bringing out the essence of Islam, as exemplified in the life of the greatest Muslim. It includes complete coverage of the Prophet's life, a detailed analysis of pre-Islamic Arabia, the situational context of revelation, and a comparative study of the basics of Islamic and western civilizations. It is based upon a scholarly examination of all of the extant Sirah and Hadith literature (the Prophet's life, his sayings and narrations of his teachings by his contemporaries) with the eye of an objective, scientific and critical scholar who is well-versed in modern historical critical methodology. *THE LIFE OF MUHAMMAD* is an essential book for all English-speaking Muslims, as well as non-Muslims. This English version has been approved by the Supreme Council for Islamic Affairs, Cairo.

This book identifies what guidance the

Prophet's example offers for Muslims living as a minority. In so doing, the author examines how Islam was practised in Makkah under constant prejudice, how Muslims led their lives as migrants in Abyssinia and how Muslim minorities were treated by the Islamic state of Madinah.

The History of al-Tabari Vol. 39 BRILL
 Mahdis and Millenarians is a discussion of Shiite groups in eighth- and ninth-century Iraq and Iran, whose ideas reflected a mixture of indigenous non-Muslim religious teachings and practices in Iraq in the early centuries of Islamic rule. It demonstrates the period's fluidity of religious boundaries. Particular attention is given to the millenarian expectations and the revolutionary political activities of these sects. Specifically, it seeks to define the term 'millenarian', to explain how these groups reflect that definition, and to show how they need to be seen in a much larger context than Shiite or even Muslim history. The author concentrates, therefore, on the historical-sociological role of these movements. The thesis of the study is that they were the first revolutionary chiliastic groups in Islamic history and, combined with the later influence of some of their doctrines, contributed to the teachings of a number of subsequent Shiite or quasi-Shiite sectarian groups.

In a comprehensive study of early Islamic history, Wilferd Madelung examines the conflict which developed after Muhammad's death for the leadership of the Muslim community. He pursues the history of this conflict through the reign of the four 'Rightly Guided' caliphs to its climax in the first

inter-Muslim war. The outcome of the war, which marked the demise of the reign of the Early Companions, resulted in the lasting schism between Sunnite and Shi'ite Islam. Contrary to recent scholarly trends, the author brings out Ali's early claim to legitimate succession, which gained support from the Shi'a, and offers a convincing reinterpretation of early Islamic history. This book will make a major contribution to the debate over succession. Wilferd Madelung's book *The Succession to Muhammad* has been awarded the Best Book of the Year prize by the Islamic Republic of Iran for the year 1997.
