Law and Society Cambridge University
Press

Previous edition, 1st, published in 2000.
The Betrayal BEIJING BOOK CO. INC.

In order to fully grasp criminal law
concepts, students must go beyond
mere rote memorization of the penal
code and attempt to understand where
the laws originate from and how they
have developed. Criminal Law, Second

Edition blends legal and moral reasoning
in the examination of crimes and
explores the history relating to
jurisprudence and roots of criminal law.
It fosters discussions of controversial
issues and delivers abridged case law
decisions that target the essence of
appellate rulings. Grounded in the model
penal code, making the text national in
scope, this volume examines: Why the
criminal codes originated, and the moral,
religious, spiritual, and human influences
that led to our present system How
crimes are described in the modern

criminal justice model The two essential elements necessary for criminal culpability: actus reus (the act committed or omitted) and mens rea (the mind and intent of the actor) Offenses against the body resulting in death, including murder, manslaughter, felony murder, and negligent homicide Nonterminal criminal conduct against the body, including robbery, kidnapping, false imprisonment, assault, and hate crimes Sexual assault, rape, necrophilia, incest, and child molestation Property offenses, such as larceny/theft, bribery, forgery, and embezzlement Crimes against the home, including burglary, trespass, arson, and vandalism The book also examines controversial public morality issues such as prostitution, drug legalization, obscenity, and

pornography. The final two chapters discuss inchoate offenses, where the criminal act has not been completed, and various criminal defenses such as legal insanity, entrapment, coercion, self-defense, and mistake of fact or law. Important keywords introduce each chapter, and discussion questions and suggested readings appear at the end of each chapter, prompting lively debate and further inquiry into a fascinating subject area that continues to evolve. *La corsa alla Casa Bianca. Come si elegge il presidente degli Stati Uniti, dalle primarie dei partiti al voto di novembre* OUP Oxford Penetrating analyses of how sociological factors affect legal processes and outcomes in America and subcultures within the general society

The Palgrave Handbook of Applied Ethics and the Criminal Law SAGE

The goal of this book is to minimize the misunderstandings and conflicts between International law and Islamic law. The objective is to bring peace into justice and justice into peace for the prevention of violations of human rights law, humanitarian law, international criminal law, and impunity.

Criminal Procedure + Striking the Balance Oxford University Press

By offering both a comprehensive update and new material reflecting the continuing development of the subject, this continues to be the leading textbook on international criminal law. Its experienced author team draws on its combined expertise as teachers, scholars and practitioners to offer an

authoritative survey of the field. The third edition contains new material on the theory of international criminal law, the practice of international criminal tribunals, the developing case law on principles of liability and procedures and new practice on immunities. It offers valuable supporting online materials such as case studies, worked examples and study guides. Retaining its comprehensive coverage, clarity and critical analysis, it remains essential reading for all in the field.

The Nuremberg Military Tribunals and the Origins of International Criminal Law

Gordian Knot

The adage 'ignorance of the law is no excuse' is significantly inaccurate. Ignorance and mistake of law do, under certain circumstances, exclude

responsibility both in national and international criminal law. This monograph updates the existing reviews of law and practice on the topic, aiming to go a step further: it takes the analysis of mistake of law as a starting point for systematic observations about international criminal law in general. First, the volume defines the contours of the defence of mistake of law in general theory of criminal law, distinguishing it from cognate defences and highlighting, most notably, its connection with superior orders. Secondly, it gives an overview of the possible approaches to the defence, offering examples from national law as terms of reference for the subsequent analysis of international criminal law. Thirdly, it surveys the relevant law and practice of international

criminal tribunals, with a focus on the International Criminal Court, and it contemplates offences for which a defence of mistake of law may potentially succeed. Finally, the author tries to interpret what the rules on mistake of law applicable before international criminal tribunals imply about the purpose of punishing individuals and to the legitimacy of such punishment. Whilst the discourse on international criminal law is more and more concerned with global politics, The Defence of Mistake of Law in International Criminal Law brings back the focus on the appropriateness of imposing a guilty verdict on the individual defendant, a human being constituting the basic unit of each society.

Contemporary Criminal Law Martinus Nijhoff Publishers

Since after the Second World War, the crime of aggression is – along with genocide, crimes against humanity and war crimes – a “core crime” under international law. However, despite a formal recognition of aggression as a matter of international criminal law and the reinforcement of the international legal regulation of the use of force by States, numerous international armed conflicts occurred but no one was ever prosecuted for aggression since 1949. This book comprehensively analyses the historical development of the criminalisation of aggression, scrutinises in a detailed manner the relevant jurisprudence of the Nuremberg and Tokyo Tribunals as well as of the

Nuremberg follow-up trials, and makes proposals for a more successful prosecution for aggression in the future. In identifying customary international law on the subject, the volume draws upon a wealth of applicable sources of national criminal law and puts forward a useful classification of States’ legislative approaches towards the criminalisation of aggression at the national level. It also offers a detailed analysis of the current international legal regulation of the use of force and of the Rome Statute’s substantive and procedural provisions pertaining to the exercise of the International Criminal Court’s jurisdiction with respect to the crime of aggression, after 1 January 2017.

This handbook consists of essays on contemporary issues in criminal law and their theoretical underpinnings. Some of the essays deal with the relationship between morality and criminalization. Others deal with criminalization in the context of specific crimes such as fraud, blackmail, and revenge pornography. The contributors also address questions of responsible agency such as the effects of addiction or insanity, and some deal with punishment, its mode and severity, and the justness of the state's imposition of it. These chapters are authored by some of the most distinguished scholars in the fields of applied ethics, criminal law, and jurisprudence.

Essential Criminal Law + Striking the Balance SAGE

"The relevance of intellectual property

(IP) law has increased dramatically over the last several years. Globalization, digitization, and the rise of post-industrial information-based industries have all contributed to a new prominence of IP law as one of the most important factors in driving innovation and economic development. At the same time, the significant expansion of IP rules has impacted many areas of public policy such as public health, the environment, biodiversity, agriculture, information, in an unprecedented manner. The growing importance of IP law has led to an exponential growth of academic research in this area. This Book offers a comprehensive overview of the methods and approaches that can be used to address and develop scholarly research questions related to IP law. In

particular, this Book aims to provide a useful resource that can be used by IP scholars who are interested in expanding their expertise in a specific research method or seek to acquire an understanding of alternative lenses that could be applied to their research. Even though this Book does not claim to include all existing research methodologies, it represents one of the largest and most diverse compilations, which has been carried out to date. In addition, the authors of this Book comprise an equally diverse group of scholars from different jurisdictions, backgrounds, and legal traditions. This diversity, both regarding the topics and the authors, is a fundamental feature of the Book, which seeks to assist IP scholars worldwide in their research

journeys." --

Criminal Law, Second Edition Sage Publications

At the end of World War II the Allies faced a threefold challenge: how to punish perpetrators of appalling crimes for which the categories of 'genocide' and 'crimes against humanity' had to be coined; how to explain that these had been committed by Germany, of all nations; and how to reform Germans. The Allied answer to this conundrum was the application of historical reasoning to legal procedure. In the thirteen Nuremberg trials held between 1945 and 1949, and in corresponding cases elsewhere, a concerted effort was made to punish key perpetrators while at the same time providing a complex analysis of the Nazi state and German history.

Building on a long debate about Germany's divergence from a presumed Western path of development, Allied prosecutors sketched a historical trajectory which had led Germany to betray the Western model. Historical reasoning both accounted for the moral breakdown of a 'civilised' nation and rendered plausible arguments that this had indeed been a collective failure rather than one of a small criminal clique. The prosecutors therefore carefully laid out how institutions such as private enterprise, academic science, the military, or bureaucracy, which looked ostensibly similar to their opposite numbers in the Allied nations, had been corrupted in Germany even before Hitler's rise to power. While the argument, depending on individual

protagonists, subject matters, and contexts, met with uneven success in court, it offered a final twist which was of obvious appeal in the Cold War to come: if Germany had lost its way, it could still be brought back into the Western fold. The first comprehensive study of the Nuremberg trials, *The Betrayal* thus also explores how history underpins transitional trials as we encounter them in today's courtrooms from Arusha to The Hague.

Springer Science & Business Media
This book analyzes the everyday actions of ordinary people in the context of

extreme political and cultural polarization, distort the criminal justice system and betray the lofty ideals expressed in American founding documents and centuries of Anglo-American articulations of basic human rights.

Contemporary Criminal Law + Striking the Balance Prentice Hall

This is a comprehensive, introductory criminal law textbook that expands upon traditional concepts and cases by coverage of the most contemporary topics and issues. Contemporary material, including terrorism, computer crimes, and hate crimes, serves to illuminate the ever-evolving relationship between criminal law, society and the criminal justice system's role in balancing competing interests. The case

method is used throughout the book as an effective and creative learning tool. Features include: " vignettes, core concepts, 'Cases and Concepts', 'You Decides, excerpts from state statutes, 'legal equations' and Crime in the News boxes " fully developed end-of-chapter pedagogy includes review questions, legal terminology and 'Criminal Law on the Web' resources " instructor resources (including PowerPoint slides, a computerized testbank and classroom activities) and a Student Study Site accompany this text

Studyguide for Contemporary Criminal Law BRILL

This book provides the first comprehensive legal analysis of the twelve war crimes trials held in the American zone of occupation between

1946 and 1949, collectively known as the Nuremberg Military Tribunals (NMTs). The judgments the NMTs produced have played a critical role in the development of international criminal law, particularly in terms of how courts currently understand war crimes, crimes against humanity, and the crime of aggression. The trials are also of tremendous historical importance, because they provide a far more comprehensive picture of Nazi atrocities than their more famous predecessor, the International Military Tribunal at Nuremberg (IMT). The IMT focused exclusively on the 'major war criminals'-the Goerings, the Hesses, the Speers. The NMTs, by contrast, prosecuted doctors, lawyers, judges, industrialists, bankers-the private citizens and lower-level

functionaries whose willingness to take part in the destruction of millions of innocents manifested what Hannah Arendt famously called 'the banality of evil'. The book is divided into five sections. The first section traces the evolution of the twelve NMT trials. The second section discusses the law, procedure, and rules of evidence applied by the tribunals, with a focus on the important differences between Law No. 10 and the Nuremberg Charter. The third section, the heart of the book, provides a systematic analysis of the tribunals' jurisprudence. It covers Law No. 10's core crimes-crimes against peace, war crimes, and crimes against humanity-as well as the crimes of conspiracy and membership in a criminal organization. The fourth section then examines the

modes of participation and defenses that the tribunals recognized. The final section deals with sentencing, the aftermath of the trials, and their historical legacy.

Criminal Procedure Oxford University Press

Contemporary Criminal Law: Concepts, Cases, and Controversies is an introductory text that features "the new criminal law," expanding on traditional criminal law cases and concepts with contemporary topics and issues. Author Matthew R. Lippman uses an engaging case study approach to enhance student learning and offer an interactive educational environment.

Rowman & Littlefield

Adopt this bundle, and your students SAVE! This bundle is just dollars more than the price of the main textbook alone. Hardcover: \$79.95; ISBN: 9781412905800 It is important to understand the development of law and the law generally from statutes rather than merely relying on case review and interpretation. Lippman provides a more academic and thorough approach, and SAGE is developing instructor guides and power point presentations for the textbook, which should prove very helpful. In sum, I whole-heartedly endorse Lippman's book for Criminal Law, and I look forward to using it in my

own classes. -Glenn Coffey, University of North Florida
Contemporary Criminal Law: Concepts, Cases, and Controversies is an introductory text that features the new criminal law, expanding on traditional criminal law cases and concepts with contemporary topics and issues. Author Matthew R. Lippman uses an engaging case study approach to enhance student learning and offer an interactive educational environment. Key Features: Employs a unique case study approach: Edited cases and accompanying exploratory essays present the fundamentals of criminal law. These engaging cases are designed to develop skills in case analysis and critical and logical thinking. Emphasizes contemporary cases and issues: While classic cases fundamental to the study

of criminal law are presented, contemporary cases and issues reflecting our increasingly diverse and urbanized society are central to the book. Cases on carjacking, computer crime, drugs, gangs, stalking, terrorism, white collar crime, cultural diversity, and animal rights are included. Attention is also devoted to gender, race, domestic violence, and hate crimes. Incorporates valuable learning tools: In addition to the illustrative cases and essays, this book contains a variety of special features including side-bars, thematic boxes, inserts, discussion questions, legal equations, case comments, and much more to facilitate student comprehension. You Decide exercises enable students to apply what they have learned from the cases and help to

involve them with the text material. Accompanied by High Quality Ancillaries! A full ancillary package comes with this text and includes: An Instructor's CD-ROM A Web-based Student Study Site at <http://www.sagepub.com/lippmanstudy> that features: Unique, online state-specific guides that supplement each chapter of the text for California, Texas, New York, Illinois, Florida, and Ohio MP3 audio files from the author himself who provides insight into the text E-flashcards Web quizzes Learning from SAGE research articles Case narratives, and much more! Intended Audience: This book uniquely combines the concepts, learning tools, and features found in undergraduate texts with the types of challenging cases and issues that are characteristic of law school case books.

It is the perfect text for undergraduate students studying criminal law in the department of Criminal Justice. Paperback: \$34.95; ISBN: 9780761921769 Hardcover: \$89.95; ISBN: 9780761921752 A handy reference for students, professionals, and anyone interested in criminal justice and criminology, *The Concise Dictionary of Crime and Justice* is an excellent, wide-ranging resource with clear definitions for over 2,000 key criminal justice terms. Often going beyond simple definitions, the dictionary presents and explains common misperceptions for selected entries. The concise definitions of terms will be easily accessible to a wide audience 3/4 from students in introductory courses to professionals looking to brush up on key terms. Some

of the topics covered in entries include: abduction, cycle of violence, eyewitness testimony, facial reconstruction, habeas corpus, La Cosa Nostra, Nuremberg Principle, Palestinian Liberation Organization (PLO), typology, Walker spy ring, and zoophilia. Features/Benefits: Each term will contain the following: Over 2,000 entries A complete, current definition of the term A discussion of common misconceptions or controversies surrounding the term A cross-reference to other entries in the dictionary

The Georgia Journal of International and Comparative Law SAGE

Il presidente degli Stati Uniti è uno dei capi di Stato più potenti della Terra. Le sue decisioni influenzano non solo il proprio Paese, ma gran parte del

pianeta. Conoscere le procedure per la sua elezione è fondamentale per rendersi conto di quanto avviene oggi nel mondo. Lo scopo di questo volume è quello di fornire una guida agile e sintetica, con un linguaggio semplice, per seguire e comprendere tali dinamiche, a partire dalla tappa iniziale della campagna elettorale, il caucus dell'Iowa, l'evento che dà l'avvio al processo per stabilire chi siano i candidati dei due maggiori partiti che si contendono la Casa Bianca. Il libro ricostruisce anche quei meccanismi che finora non hanno mai dovuto essere attivati, come i sistemi di surroga di un candidato o dello stesso Presidente eletto, nel caso di morte o di rinuncia. Fornisce infine un sintetico profilo dei candidati di maggiore rilievo in lizza per

la conquista della Casa Bianca nel 2020.
