Ahoy, mateys! Get on

board! Boats and the need for them have been around for thousands of years. Reed boats might have been the first boat ever to be built. The Vikings built wooden ships that were strong and ornate. And now boats like an Aircraft Carrier house 6,000 people and can carry over 100 planes. In Jerry Pallotta's newest book we get to see an entire alphabet of floating wonders. David Biedrzycki has provided dramatic settings for a variety of boats and captures the mood of each body of water. In one he paints a calm lake where a red canoe glides across the water and in another the stormy swells of an angry ocean tossing a three-masted Xebec. The facts about each boat

are sprinkled with traditional Pallotta humor.

Chicka Chicka Boom Boom ABC Book

A luminous journey into the sky for daydreamers and cloud enthusiasts big and small, from renowned paper-diorama artist Elly MacKay. A bored and curious little girl wishes for a bit of sunshine on a cloudy day. But a friendly bird soon whisks her off for an adventure in the sky, where she can contemplate questions both scientific and philosophical in nature: how do clouds float? Or carry the rain? Where do they go when they disappear? Are there clouds on other planets? Do they have memories? Have they ever seen a girl like her? This dreamy picture book from the

inimitable Elly MacKay features her trademark stunning, light-infused spreads that beautifully capture the wondrousness of clouds and the power of nature to inspire and stimulate imaginations. *Write and Wipe ABC 123* Simon and Schuster

Centuries ago, two Mayan brothers constructed a spacecraft that sent them hurtling into outer space. Returned to Earth, only to find their culture and civilization destroyed, one of the brothers vows revenge and seeks to decimate the planet with intergalactic technology gathered on his travels. To prevent this, his sibling creates a contingency plan that activates the world's protectors -

descendants of their own Pacal family. Now, the fate of the planet lies in the hands of three cousins scattered throughout Central and North America who have never even met.
