This book examines the timely topic of controlling the borders of the European Schengen Area. It considers the state perspective on border regulation, subjecting day-to-day practices of EU visa policy implementation to close analytical scrutiny. The objects of the analysis are three European Member States—France, Belgium, and Italy—that implement EU visa policy in Morocco, a country whose nationals are considered to be a migratory ‘risk’ for the EU. The book focuses on the implementation of EU visa policy in the consulates of Belgium, France and Italy in Casablanca. The empirical research and the comparative perspective make this book distinct. The book uses a ‘comprehensive implementation approach’ by taking account of the local, national and supranational locations of policy-making. It builds on in-depth pioneering fieldwork and a comparative research design that includes those three locations. The research design has determined the evolving of the puzzle and the realizing of the unanticipated: cross-national differences diminish when policy is put into practice. Extensive research into the visa sections of those EU Member States provides highly original material that sheds light on the obscure black box of EU visa policy implementation, therefore contributing to policy studies, migration studies, and studies on the European Union.

Investigating the themes and ideas that sparked Samuel Beckett’s writing career, this valuable guide explores one of the least known periods in Beckett’s early life. Having just returned from Paris where he had met James Joyce, Beckett’s brief academic career at Trinity College is detailed through a student’s extensive notes from modern French lectures delivered in 1930 and 1931. Outlining Beckett’s opinions and thoughts during a formative intellectual period, many important questions are explored, such as How did he define the modern novel of his day? What should literature strive to achieve? and What should literature avoid? Revealing the authors that he studied, praised, and criticized—including Racine, Flaubert, Balzac, Gide, Stendahl, and Dostoyevsky—this informative study of his early teachings examine his preferences as a reader and the literary theories he was developing that later influenced his novels and drama. The many arguments discussed in this perceptive history provide an understanding of the intellectual basis of modernism and spotlight a previously unstudied stage in life of one of the greatest writers of the 20th century.

In 2014, France lost part of the control of its nuclear power plants to the United States. Frédéric Pierucci, former senior executive of one of Alstom's power company subsidiaries, found himself at the heart of this state scandal. His story goes to the very core of how he plotted the key features of the secret economic war that the United States is waging in Europe. And after being silenced for a long time, he has decided, with the help of journalist Matthieu Aron, to reveal all. In April 2013, Frédéric Pierucci was arrested in New York by the FBI and accused of bribery. The US authorities imprisoned him for more than two years - including fourteen months in a notorious maximum-security prison. In doing so, they forced Alstom to pay the biggest financial penalty ever imposed by the United States. In the end, Alstom also gave up areas of control to General Electric, its biggest American competitor. Frédéric's story unpacks how the United States is using corporate law as an economic weapon against its own allies. One after the other, some of the world's largest companies are being actively destabilised to the benefit of the US, in acts of economic sabotage that seem to be the beginning of what's to come...

This edition of Importing Into the United States contains material pursuant to the Trade Act of 2002 and the Customs Modernization Act, commonly referred to as the Mod Act. Importing Into the United States provides wide-ranging information about the importing process and import requirements. We have made every effort to include essential requirements, but it is not possible for a book this size to cover all import laws and regulations. Also, this publication does not supersede or modify any provision of those laws and regulations. Legislative and administrative changes are always under consideration and can occur at any time. Quota limitations on commodities are also subject to change. Therefore, reliance solely on the information in this book may not meet the "reasonable care" standard required of importers.

the Jewish State, 1945-1949 Macmillan Higher Education Israel's Moment is a major new account of how a Jewish state came to be forged in the shadow of World War Two and the Holocaust and the onset of the Cold War. Drawing on new research in government, public and private archives, Jeffrey Herf exposes the political realities that underpinned support for and opposition to Zionist aspirations in Palestine. In an unprecedented international account, he explores the role of the United States, the Arab States, the Palestine Arabs, the Zionists, and key European governments from Britain and France to the Soviet Union, Czechoslovakia and Poland. His findings reveal a spectrum of support and opposition that stood in sharp contrast to the political coordinates that emerged during the Cold War, shedding new light on how and why the state of Israel was established in 1948 and challenging conventional associations of left and right, imperialism and anti-imperialism, and racism and anti-racism.

Foreign Visa Requirements Welcome to the United States A Guide for New Immigrants Twenty Minutes Lessons of Life Were we having a daydream, entertaining a romantic notion of

packing it all up and moving to another country? This delightful narrative of an adventurous (or foolish) couple in the autumn of their lives, who desire a lifestyle change, begins in 1992. He a skeptical, flamboyant American, and I, still clinging to a British passport and three dogs. Knowing no French, we make a bold decision to abandon California for an unspoiled village in the heart of the French countryside, called Le Berry. Once the germ of the idea becomes firmly rooted, we begin to realize the myriad obstacles and complications that must be addressed. This valuable information is laid out in a light-hearted way, and gives the reader some insight as to what actually must be done to buy a foreign property and make a move, as well as a sense of our determination and fortitude to follow the dream. The story truly unfolds once the interminable bureaucracy is behind us and our feet touch French soil on a frosty winter morning. Our first night does not go as planned, as our rented van becomes mired in a watery ditch on a desolate country cowpath in the pitch-black night. We feel like two aliens dropped onto another planet, as all our belongings are sailing the high seas, and were camping out with three dogs in our vacant cottage in the midst of France. This raw fact forces us to explore our village, meet the town folk, and become familiar with our idyllic surroundings. It also allows us to

try dealing with merchants for the purchase of a car, a sofa-bed, and some kitchen cupboards; simple transactions, we thought! We find that living in an adopted country means adapt. Not so easy with strange shopping hours, and a lack of ethnic food. I resort to some bizarre culinary experiments, using ersatz ingredients, in order to re-create our melting-pot American cravings. The language is difficult, especially for my very verbal actor husband, who begins to feel alienated from lack of expression. He has a brilliant idea to utilize our acting backgrounds which has us scurrying to Paris. An agent links us with a film producer in Lille, who hires us sight unseen. The project lands us pleading our case in a French court; judge and magistrates attired in flowing robes and powdered wigs, and no one speaks English! Can we win this case? I try my talents as a foreigner working in the very French environment of a chateau-hotel in a valiant attempt to hone my halting French. With seasons so defined, we learn complicity with nature's timetable, inevitably becoming a part of country France. We find the rich rewards of life are the simple joys; snail, mushroom, and firewood gathering, the challenge of transforming a cobwebbed attic into a grand room, delicious long evenings around a dining table with Berrichon friends sharing country cuisine and bottles of wine,

delights of true French picnics on warm afternoons on the banks of a lookingglass lake in the woods, encountering little creatures we'd never known before, or those many peaceful times wandering the picturesque lanes, exploring medieval villages scattered like windblown seeds across the velvet patchwork of countryside. This charming adventure, filled with first-hand knowledge, told with warmth, humor and paintbrush-upon-canvas descriptions, beckons the armchair traveler, as well as those so bold as to consider such a move. So curl up in your cosiest chair, pack your imaginary bags, and savor the taste of a bucolic village in the Berry!
