From a leading voice among young conservatives, an impassioned argument that to stay relevant the Republican Party must look beyond short-term electoral gains and re-commit to historic conservative values. In 1963 Richard Hofstadter published his landmark book *Anti-Intellectualism in American Life*. Today, Matt Lewis argues, America's inclination toward simplicity and stupidity is stronger than ever, and its greatest victim is the Republican Party. Lewis, a respected conservative columnist and frequent guest on MSNBC's *Morning Joe*, eviscerates the phenomenon of candidates with a "no experience required" mentality and tea party "patriots" who possess bluster but few core beliefs. Lewis traces the conservative movement's roots, from Edmund Burke to William F. Buckley, and from Goldwater's loss to Reagan's landslide victory. He highlights visionary thinkers who understood nuance and deep ideology and changed the course of the nation. As we approach the 2016 presidential election, Lewis has an urgent message for fellow conservatives: embrace wisdom, humility, qualifications, and inclusion -- or face extinction.

The Trump administration looks to be adopting a more muscular and self-interested security policy in the Asia-Pacific. Confrontational on China: Trump and his advisers have outlined a hard line towards China on most bilateral issues, and view Beijing as an aggressive strategic competitor that

needs to be deterred with US strength. Supportive but transactional on allies: the administration will uphold Asian security guarantees at the same time as more strictly scrutinising the US interests at stake. The United States will seek greater burden-sharing and "wins" from allies, including initiatives to create new US jobs. A military-first rebalance: the administration will advance the security elements of President Obama's "pivot to Asia" while attaching little importance to engagement with Southeast Asia or the rebalance's original liberal internationalist goals. Changes in US Asia policy will likely produce more volatile relations with competitors, and potentially between Washington and its allies and partners. Instability in US-China relations: Trump's abrasive policies, particularly on Taiwan, are likely to deepen friction with China and increase the risk of mixed signals and communication breakdowns. Disunity and fragility in the US alliance network: Trump's "America first" approach to Asia is at odds with the policy preferences and public opinions of most regional allies, creating potential constraints on coordination between Washington and its Asian alliance network. Divergence between Australia and Japan: Japan's anxiety about being abandoned by the United States may see it rush to embrace Trump's Asia policy, while Australia's concern about being entrapped in potential US military endeavours could see it keep some distance from Washington. This may produce opposing dynamics that could weaken bilateral ties and trilateral cooperation. Australia needs to adopt a more active regional security policy to weather these destabilising shifts. It should: Assist the United States in articulating policy priorities on China. Actively work to reduce possible misperceptions between the United States and China. Work multilaterally with Asian allies and partners to communicate shared interests, opportunities, and redlines to President Trump's cabinet. Coordinate US alliance management strategies with Japan. Build greater resilience into the US Asian alliance network by establishing new trilateral partnerships with Southeast Asia, starting with an Australia-Indonesia-Japan grouping.

Assume a more active leadership role in Southeast Asia by independently contributing to a stable and liberal regional order.

***** PERFECT FOR FANS OF 'THE COMING STORM' ONE OF THE TELEGRAPH'S BOOKS OF THE YEAR 'A chilling overview of a movement that should arguably have no place in any healthy, well-educated society.' - The Telegraph 'A compelling book.' - The Guardian 'The Storm Is Upon Us is an impressive piece of research and a gripping read. Rothschild's book reads like a thriller, with cliffhangers that leave you eager for the next episode. The trouble, of course, is that it's not fiction.' - The Times 'For anyone who fears that the world really has 'gone mad', this book might be essential reading' - The Telegraph 'An ideal tour guide for your journey into the depths of the rabbit hole that is QAnon, and even shows you a glimmer of light at the exit.' - Cullen Hoback, director of HBO's Q: Into the Storm In 2017, President Trump made a cryptic remark at a gathering of military officials, describing it as 'the calm before the storm'-then refused to explain himself to puzzled journalists. But on internet message boards, a mysterious poster called 'Q Clearance Patriot' began an elaboration all of their own. Q's wild yarn hinted at a vast conspiracy that satisfied the deepest desires of MAGA-America. None of Q's predictions came to pass. But did that stop people from clinging to every word, expanding Q's mythology, and promoting it ever more widely? No. Conspiracy culture expert Mike Rothschild is uniquely equipped to explain QAnon, from the cults that first fed into it, to its embrace by Trump and the right-wing media. With families torn apart and with the Capitol under attack, he argues that mocking the madness of QAnon will get us nowhere. Instead, he argues that QAnon tells us everything we need to know about global fear after Trump-and that we need to understand it now, because it's not going away.

"Millions of Americans." declared Dallas megachurch pastor Robert Jeffries in 2017, "believe the election of President Trump represented God giving us another chance-perhaps our last chance-to truly make America great again. Our job was to elect him once God showed us the way. We thank Our Lord to this day that we did. Donald Trump got elected because someone whispered in the individual ears of millions of Americans. The voice said that together in this election, we could make a difference, and Donald Trump would be that difference. The people trusted this self-made Billionaire to do what was best for America and not the bidding of slimy politicians or political donors and hacks. Donald Trump was the only candidate for president who offered Americans a breath of fresh air from the stodgy, bossy, establishment elites in both the Democratic and Republican Parties. Trump defied the status quo of rich donors controlling the government for their personal benefit. Donald Trump to many, including myself is a great gift from God himself. Donald J. Trump loves America and American traditional values. Just look at the goodness that he instilled into his own children. He is not a liberal fool or a progressive socialist tool who hates America. He is simply for America and Americans First. So are you and I if we think about it for a while. The corrupt anti-American mainstream press still does not like Trump because he represents normal God-loving and God-fearing Americans and not the fringe sectors of the country. They hate him. He calls them out as the fakes they are. They hate him because he is not controlled by anyone - Dem Party or wimpy swamp-dwelling Republicans. Neither gave Trump an inch and they undermine America by undermining our president. Donald Trump does pay attention to God and Americans are glad that he does. If Mr. Trump happened to be crossing the street and he stepped off a curb and crushed a newly fallen fully formed beautiful blue robin egg, the press would hang him for being anti-bird, anti-animal, and uncaring. Meanwhile when he ran for president, his opponent had gotten four Americans with mothers and fathers back home killed in Benghazi and the press would not even acknowledge the story. Something was wrong, and you know what it was. We needed Donald Trump and Mike Pence to bring America back to reality and truth. That's "Why Trump Got Elected!" That's why God intervened in this great 2016 election. The country's issues included oppressive taxation; legal and illegal immigrants stealing the best jobs; regulations choking businesses; huge debt and deficits shackling our capital resources; a government Obamacare system that added taxes and made health worse; and corporate offshoring, which created a weaker nation. Mrs. Clinton was ready to continue this because she supported Barack H. Obama's policies which had created the whole mess in the first place. Additionally, we have a massive energy dependency on our enemies. We redistribute wealth from producers to non-producers. We permit a huge, growing, inefficient government to operate. It continually lies, taxes too much and spends more than it has. Our government had become enemy # 1 of the people. A good plan, endorsed by Mr. Trump, along with good leaders such as Donald Trump & Mike Pence is now in place and the plan and the leaders are already saving US from Obama perdition. That's "Why God Gave US Trump!"

America First: US Asia Policy Under President Trump Open Embrace

The Covid-19 pandemic has sharpened the divisions within and among countries. Nationalism continues to stir India, with the re-election of Narendra Modi in 2019, and in the US, despite the defeat of Donald Trump in 2020. The pandemic and the unsettling expansionism of China are reasons for heightened bilateral cooperation between the world's oldest and largest democracies, but they are increasingly protectionist and volatile. India and the US are trying hard to figure out their respective roles in the emerging world and their bilateral ties, as fears of a new Cold War, or even a military confrontation loom large. Both democracies are also grappling with contesting visions of their nationhood. Renewed debates over national security, borders, international trade, economic order, immigration, citizenship, state-society relations, the place of minorities, and institutional trust in both countries are noisy and fractious. In India, Narendra Modi's Hindutva Strategic Doctrine is reshaping India and advancing a new framework for its ties with the world; in the US, a significant portion of Trump's 'America First' nationalism has been embraced by his successor Joe Biden, demonstrating the salience of nationalism. Strategic commentaries tend to treat international relations in isolation from domestic politics. In a first, Open Embrace explores the domestic motivations of the strategic policies of India and the US. This new, wholly revised edition accounts for the post-pandemic shift in global politics and ongoing changes in the US politics around the defeat of Trump by Biden.

"An exquisitely timed book ... Code Red is a worthwhile exploration of the shared goals (and shared enemies) that unite moderates and progressives. But more than that, it is a sharp reminder that the common ground on which Dionne built his career has been badly eroded, with little prospect that it will soon be restored." —The New York Times Book Review New York Times bestselling author and Washington Post columnist E. J. Dionne, Jr. sounds

the alarm in Code Red, calling for an alliance between progressives and moderates to seize the moment and restore hope to America's future for the 2020 presidential election. Will progressives and moderates feud while America burns? Or will these natural allies take advantage of the greatest opportunity since the New Deal Era to strengthen American democracy, foster social justice, and turn back the threats of the Trump Era? The United States stands at a crossroads. Broad and principled opposition to Donald Trump's presidency has drawn millions of previously disengaged citizens to the public square and to the ballot boxes. This inspired and growing activism for social and political change hasn't been seen since the days of Franklin Roosevelt's New Deal policies and the Progressive and Civil Rights movements. But if progressives and moderates are unable—and unwilling—to overcome their differences, they could not only enable Trump to prevail again but also squander an occasion for launching a new era of reform. In Code Red, award-winning journalist E. J. Dionne, Jr., calls for a shared commitment to decency and a politics focused on freedom, fairness, and the future, encouraging progressives and moderates to explore common ground and expand the unity that brought about Democrat victories in the 2018 elections. He offers a unifying model for furthering progress with a Politics of Remedy, Dignity, and More: one that solves problems, resolve disputes, and moves forward; that sits at the heart of the demands for justice by both long-marginalized and recently-displaced groups; and that posits a positive future for Americans with more covered by health insurance, more with decent wages, more with good schools, more security from gun violence, more action to roll back climate change. Breaking through the partisan noise and cutting against conventional wisdom to provide a realistic look at political possibilities, Dionne offers a strategy for progressives and moderates to think more clearly and accept the responsibilities that history now imposes on them. Because at this point in our national story, change can't wait.

"Bracing and immediate." - The Washington Post Once at the center of the American conservative movement, bestselling author and radio host Charles Sykes is a fierce opponent of Donald Trump and the right-wing media that enabled his rise. In How the Right Lost Its Mind, Sykes presents an impassioned, regretful, and deeply thoughtful account of how the American conservative movement came to lose its values. How did a movement that was defined by its belief in limited government, individual liberty, free markets, traditional values, and civility find itself embracing bigotry, political intransigence, demagoguery, and outright falsehood? How the Right Lost its Mind addresses: *Why are so many voters so credulous and immune to factual information reported by responsible media? *Why did conservatives decide to overlook, even embrace, so many of Trump's outrages, gaffes, conspiracy theories, falsehoods, and smears? *Can conservatives govern? Or are they content merely to rage? *How can the right recover its traditional values and persuade a new generation of their worth?

The Trump Phenomenon and the Future of US Foreign Policy Metropolitan Books

"President Donald Trump never developed a National Security Strategy or Doctrine. Rather he went from issue to issue, challenge to challenge, and position to position without a detailed framework or plan. Trump used unpredictability and disruption to achieve his goals and objectives, with the principal objective being playing the game better, harder, and tougher while reducing the costs and risks for American global leadership. Trump's national security approach promoted American sovereignty, military interests, and deals that advanced America first rather than reinforcing alliances that were of marginal value to our interests. President Donald Trump's transactional personalized approach to other world leaders in many instances ignored American values and interests. This was clearly the case with respect to his relationship with MbS of Saudi Arabia, Kim Jong-Un of North Korea, Vladimir Putin of Russia, and even the president's failed attempt to pursue Sayyid Ali Hosseini Khamenei of Iran. His willingness to accept and embrace positions taken by foreign adversaries over those of his own national security team, allies abroad, or even allies in the Congress defined Trump's approach to national security policy which preferred short term gains for him rather than securing the long term interests for the United States. Trump believed that keeping allies and adversaries perpetually off balance accrued to the benefit of the United States. America First and foremost meant that the president did not have to apologize for anything the United States did under his leadership, and he saw no adequate substitute for American power while insisting that our regional allies and coalitions bore a greater share of the burden in providing for the common defense, and he believed that we were vulnerable if our allies were resolute or unprepared. Trump's National Security Non-Doctrine has transitioned to the Biden Presidency which seeks to renew American engagement in the world in ways that reinvigorate the global norms for cooperative behavior. The United States' allies and adversaries remain the same today as they were four years ago and unilateral policies are highly unlikely to advance America's main goals; rather, they are likely to undermine its security and prosperity. President Biden has emphasized that multilateral engagement remains in America's interest as the best strategy to securing peace and prosperity. I reflect in the first chapter on the recent scholarly research of Frank Ninkovich, Mel Gurov, and Robert Jervis as it relates to Trump's approach to national security policy and issues and how my approach is distinct from theirs with respect to the themes and issues examined in my manuscript. I also reflect upon my personal interaction and conversation with H.R McMaster on the significance of the National Security Strategy Report of 2017, and the highly limited and questionable role that it played for the Trump Administration"--

Struggling for One America Penguin

Why do so many conservative Christians continue to support Donald Trump despite his many overt moral failings? Why do many Americans advocate so vehemently for xenophobic policies, such as a border wall with Mexico? Why do many Americans seem so unwilling to acknowledge the injustices that ethnic and racial minorities experience in the United States? Why do a sizeable proportion of Americans continue to oppose women's equality in the workplace and in the home? To answer these questions, Taking America Back for God points to the phenomenon of "Christian nationalism," the belief that the United States is-and should be-a Christian nation.Â Christian ideals and symbols have long played an important role in American public life, but Christian nationalism is about far more than whether the phrase "under God" belongs in the pledge of allegiance. At its heart, Christian nationalism demands that we must preserve a particular kind of social order, an order in which everyone--Christians and non-Christians, native-born and immigrants, whites and minorities, men and women?recognizes their "proper" place in society. The first comprehensive empirical analysis of Christian nationalism in the United States, Taking America Back for God illustrates the influence of Christian nationalism on today's most contentious social and political issues. Drawing on multiple sources of national survey data as well as in-depth interviews, Andrew Whitehead and Samuel Perry document how Christian nationalism shapes what Americans think about who they are as a people, what their future should look like, and how they

should get there. Americans' stance toward Christian nationalism provides powerful insight into what they think about immigration, Islam, gun control, police shootings, atheists, gender roles, and many other political issues—very much including who they want in the White House. Taking America Back for God is a guide to one of the most important—and least understood—forces shaping American politics.

How the Right Lost Its Mind United States Studies Centre at the University of Sydney

What happens when you speak with Hollywood stars and entertainers—half pro-Trump and half against—posting the question, “Can we talk?” Since the 2016 presidential campaigns, Conservatives, Liberals, Democrats, Republicans, Whites, and non-Whites in America began saying loudly that they are “Fighting for America.” Yet, by the 2020 presidential elections, they were even more divided than united despite all the good intention of the most. Now that America is well into 2021, it is time to yearn for “One America” but without “fighting.” But here is the caveat! To achieve “One America,” the “Trump Phenomena” must first be understood. Next, “Discrimination” and “Racism” in America must be re-visited. After that, “Cancel Culture” and “No-No Rhetoric” must be handled promptly and sensitively. Finally, Hollywood must first embrace #MeToo Movement and then come up with a long-term strategy. Filmmakers of the Trump vs. Hollywood documentary, Daphne Barak and Erbil Gunasti brought on board twenty-four Hollywood stars and entertainers in a documentary to discuss these topics. Half were chosen among pro-Trump, and half against. Daphne interviewed both sides, posing the question: “Can We Talk?” Struggling For One America stands as the genesis of this documentary. This book in that respect points at the presumptive and pretended “Culprits” and “Scapegoats” in the current divide, while focusing on what is obvious. The two White Houses are standing tall, in plain sight, and a step further on the wrong direction from this moment on would be nothing less than repeating history.

Code Red Routledge

From a leading scholar on conservatism, the extraordinary chronicle of how the transformation of the American far right made the Trump presidency possible—and what it portends for the future Since Trump's victory and the UK's Brexit vote, much of the commentary on the populist epidemic has focused on the emergence of populism. But, Lawrence Rosenthal argues, what is happening globally is not the emergence but the transformation of right-wing populism. Rosenthal, the founder of UC Berkeley's Center for Right-Wing Studies, suggests right-wing populism is a protean force whose prime mover is the resentment felt toward perceived cultural elites, and whose abiding feature is its ideological flexibility, which now takes the form of xenophobic nationalism. In 2016, American right-wing populists migrated from the free marketeering Tea Party to Donald Trump's "hard hat," anti-immigrant, America-First nationalism. This was the most important single factor in Trump's electoral victory and it has been at work across the globe. In Italy, for example, the Northern League reinvented itself in 2018 as an all-Italy party, switching its fury from southerners to immigrants, and came to power. Rosenthal paints a vivid sociological, political, and psychological picture of the transnational quality of this movement, which is now in power in at least a dozen countries, creating a de facto Nationalist International. In America and abroad, the current mobilization of right-wing populism has given life to long marginalized threats like white supremacy. The future of democratic politics in the United States and abroad depends on whether the liberal and left parties have the political capacity to mobilize with a progressive agenda of their own.

This presidential election is Donald J. Trump's to lose and he is losing it in a landslide. Hurray, Hillary! Win or lose, Trump does not care; we can be sure of that he assures us. But before this political gatecrasher becomes history politically he should know that he will not only be worse off in defeat, his renown—which was never fantastic anyway—will be in tatters at last. Donald Trump should realize that his own crude presidential campaign has hammered the little precampaign respect people had for him, and that he will become a persona non grata to the vast majority of not only Americans when he loses. From now on, unless he happens to win on November 8, every time people are reminded of the real estate mogul—who-would-be-president, they will be reminded also of his campaign of calumny, and they will cringe afresh. In the New York Catholic dinner and the like, he was always the butt of President Barack Obama's jokes. When Hillary Rodham Clinton becomes president, Trump better not accept such invitations again. Or President Obama's reprisals will become a child's play to how praise singers and comedians will treat President Hillary Clinton to a twenty-one-gun-salute of a twenty-one-course-dinner of jokes at his expense.

Trump's World World Scientific

A phrase has come into the Zeitgeist - calling people the "Trump of their field." Elon Musk is the Trump of business. Many leaders still do not know how to react to President Trump; to his decision to control immigration; 3+% economic growth and, especially, to the absolutely justified desire to implement a pro-US policy. Europe has been awakened from its somnolence by the vigor and determination with which US President Donald Trump has changed the face of America and indeed, the entire world. Since the fall of the Soviet Union, mainland Europe has been stuck in the old politics of the 20th century. The annihilation of the European Socialists in the European Parliament and the European Council (where they only count a handful of heads of state) is birthing a new European era. Europe, like the rest of the world, needs Trump in order to re-learn how to do politics, instead of winding endless tales from which no one understands anything, and no one takes any firm decisions. The Trump of America must lead the world in uniting Western Civilization against an onslaught of weak, feeble centrists and leftists at home and abroad. Europe needs Trump in order to wake up from its zealous overconfidence in its capacity to assimilate millions of non-Europeans into its cultures. The world also needs Trump and America to learn the value of the nation state and policies based on the community called the "nation." Every nation in the world needs a president or prime minister like Donald Trump - pushing their nation towards its greater destiny. Every nation needs presidents that puts their nation first and fights for the interests of those who voted for them! Trump's World shows how Trump has bent the arc of modern history in the US and how other leaders will do the same across the world as popular sovereignists win the day.

Trump and the Protestant Reaction to Make America Great Again Simon and Schuster

America is in civic chaos, its politics rife with conspiracy theories and false information. Nationalism and authoritarianism are on the rise, while scientists, universities, and news organizations are viewed with increasing mistrust. Its citizens reject scientific evidence on climate change and vaccinations while embracing myths of impending apocalypse. And then there is Donald Trump, a presidential candidate who won the support of millions of conservative Christians despite having no moral or political convictions. What is going on? The answer, according to J. Eric Oliver and Thomas J. Wood, can be found in the most important force shaping American politics today: human intuition. Much of what seems to be irrational in American politics arises from the growing divide in how its citizens make sense of the world. On one side are rationalists. They use science and reason to understand reality. On the other side are intuitionists. They rely on gut feelings and instincts as their guide to the world. Intuitionists believe in ghosts and End Times prophecies. They embrace conspiracy theories, disbelieve experts, and distrust the media. They are stridently nationalistic and deeply authoritarian in their outlook. And they are the most enthusiastic supporters of Donald Trump. The primary reason why Trump captured the presidency was that he spoke about politics in a way that resonated with how Intuitionists perceive the world. The Intuitionist divide has also become a threat to the American way of life. A generation ago, intuitionists were dispersed across the political spectrum, when most Americans believed in both God and science. Today, intuitionism is ideologically tilted toward the political right. Modern conservatism has become an Intuitionist movement, defined by conspiracy theories, strident nationalism, and hostility to basic civic norms. Enchanted America is a clarion call to rationalists of all political persuasions to reach beyond the minority and speak to intuitionists in a way they understand. The values and principles that define American democracy are at stake.

In advance of the 2020 election, legal scholar Lawrence Douglas prepares readers for a less-than-peaceful transition of power. It doesn't require a strong imagination to get a sense of the mayhem Trump will unleash if he loses a closely contested election. It is no less disturbing to imagine Trump still insisting that he is the rightful leader of the nation. With millions of diehard supporters firmly believing that their revered president has been toppled by malignant forces of the Deep State, Trump could remain a force of constitutional chaos for years to come. WILL TRUMP GO? addresses such questions as: How might Trump engineer his refusal to acknowledge electoral defeat? What legal and extra-legal paths could he pursue in mobilizing a challenge to the electoral outcome? What legal, political, institutional, and popular mechanisms can be used to stop him? What would be the fallout of a failure to remove him from office? What would be the fallout of a successful effort to unseat him? Can our democracy snap back from Trump? Trump himself has essentially told the nation he will never accept electoral defeat. A book that prepares us for Trump's refusal to concede, then, is hardly speculative; it is a necessary precaution against a coming crisis.

The Age of Illusions Independently Published

From the #1 New York Times bestselling author of *Yes We (Still) Can* and cohost of *Pod Save America*, a sharp political playbook for how Democrats can take on the right-wing circus dominating American politics. There is nothing more important than beating Donald Trump in 2020, but defeating Trump is just the start of this timely book. *Un-Trumping America* offers readers three critical insights: first, Trump is not an aberration, but rather the logical extension of the modern Republican Party; second, how Democrats can defeat Trump in 2020; and third, preventing the likes of Trump from ever happening again with a plan to fix democracy. While the catalog of the president's crimes is long and growing, undoing Trumpism—the political platform of racism, authoritarianism, and plutocracy that gave rise to Trump and defines the Republican Party—is a long and continuing fight. Through a craven, cynical strategy engineered by Mitch McConnell, funded by the Kochs, and fueled by Fox News propaganda, Republicans have rigged American politics to drown out the voices of the people in favor of the powerful. Without an aggressive response that recognizes who the Republicans are and what they have done, American democracy as we know it won't survive this moment and a conservative, shrinking, mostly white minority will govern the country for decades. *Un-Trumping America* dismantles toxic Trumpism and offers a way forward. Dan Pfeiffer worked for nearly twenty years at the center of Democratic politics, from the campaign trail to Capitol Hill to Barack Obama's White House. But it was Trump's victory and Republicans' incessant aiding and abetting of Trumpism that has radicalized his thinking. Here, Pfeiffer urges Democrats to embrace bold

solutions—from fixing the courts to abolishing the electoral college to eliminating the filibuster—in order to make America more democratic (and Democratic). *Un-Trumping America* is a powerful call for Democrats and progressives to get smarter, tougher, and more aggressive without becoming a paler shade of orange.

If there's one thing most people in America - and, indeed, the world - can agree on, it's that Donald Trump isn't a politician. A presidential nominee, however, he most certainly is. And whether you're happy about that fact or not, there's no denying that the three biggest news stories of the 2016 US election have been Trump, Trump and Trump. The media have twisted themselves in knots trying to grasp how he won over millions of Republicans, whether he really has a shot in November, and what he'd be like as President. But bestselling author and political commentator Ann Coulter isn't puzzled. She knows why Trump was the only one of seventeen Republican contenders who was able to capture the spirit of our time. She gets the power of addressing the pain of the silent majority and saying things the PC Thought Police considers unspeakable. And with her unique insight, candour and sense of humour, she makes the definitive case for why we should all join his revolution - and why a bull in the china shop is exactly what America needs to make it great again. If you're already a Trump fan, Ann Coulter will help you defend and promote your position. If you're not, she might just change your mind.
