Book 1 of the Fullerton Family Saga
 McGraw Hill Professional

Rachel Dennehy had a crazy thought. If
 she could just start over somewhere else,
 she could forget about her sad and tragic
 past and all the ghosts that chased her.
 When an email landed in her inbox, to
 tutor a difficult student whose father just
 happened to be the CEO of one of the

biggest companies in the nation, the apple was a bit too enticing for Rachel to refuse. She moves from Texas to Beverly Hills, where she is tasked with turning around her wealthy pupil's bad attitude. It is a bad attitude that stems almost entirely from his parents' ugly divorce and even uglier custody battle. That her new boss Andrew, or Drew, Fullerton is one of the handsomest and most eligible bachelors in the world means nothing to Rachel. She has absolutely no plans to ever marry or have kids of her own. Her priority is teaching nine-year-old Jonathan, who needs her guidance and her direction and... most importantly... her friendship. Drew's brother, Alex, however, assumes otherwise. He basically accuses her of being a gold-digging opportunist upon their first meeting. This sets the two immediately at odds, though they both have young Jonathan's best interest at heart. Alex believes that Rachel is a "ringer," a wholesome alternative to edge Jonathan's socialite mother out of the running for custody, since she left Drew after her own salacious affair with a younger man. He wastes no time in telling Rachel that as long as she stays in her job,

she will keep Jonathan from his real mother, and that is the driving force behind Drew's interest. Unfortunately the more he tries to warn her away from Drew, the closer he ultimately propels her toward her charming boss. Drew never questions her motivation or her presence because Jonathan thrives under her tutelage, and Drew is beguiled by her no-nonsense attitude that challenges him from the start. Rachel navigates these choppy waters solely to protect Jonathan. She sees the adults in the family as self-serving; most of whom are far more interested in hurting each other than taking care of this fragile, vulnerable boy. Her heart traps her into this sticky web, despite her own history of loss and betrayal. How long will she last? More importantly, what will she be required to give to save these Fullerton men who continually tug her in three different directions? The saga begins with the first book, titled "Enticed," due to release in early 2014. Author Ginger Voight returns to the dream-making landscape of Los Angeles, in a new tale that throws back the curtain on the dangerous power, appeal and excess of the privileged. Only

by the time this tale is done, one principle character will pay the ultimate price as they all race toward that elusive happily ever after.

Get the Key to the Boardroom with Powerful Executive Presence! "This book can be a key aid in helping you make it to the next level! Great coaching for anyone who is even thinking of becoming an executive!" Marshall Goldsmith, New York Times bestselling author of What Got You Here Won't Get You There "On the corporate battlefield a true leader's success is based upon his or her ability to communicate effectively, persuade others to follow a goal, and execute it. This leads to success for all. When the stakes are high, you're well advised to read this book first." Scott A. Gaines, vice president, Hertz Corporation "If you are seriously looking to be perceived in the light you choose, Executive Presence is the book that not only answers the question, but shows you how to apply the answers." Kevin Hogan, author of The Psychology of Persuasion "Harrison Monarth is a first-rate thinker who writes as clearly as he thinks. No matter where you are on the

career ladder, Executive Presence will put you a step ahead of your competition.” T. Scott Gross, author of *Positively Outrageous Service* “Most people know that to move up in your career, you need to have self-awareness and the ability to manage the perceptions of those whose opinions count. . . . Executive Presence is your comprehensive guide to help you become more proficient at self-marketing and the art of ethical persuasion to achieve your personal and professional goals.” Larina Kase, PsyD, MBA, author of *The Confident Leader* and coauthor of the New York Times bestseller *The Confident Speaker About the Book* An expert in coaching high-level players in the art of perception management, Harrison Monarth reveals the critical difference between CEOs and those of us who wish to be CEOs. It’s not a matter of intelligence, connections, or luck. It can be summed up in two words: executive presence. While most of us toil in obscurity and expect great things to follow, those on the path to corporate leadership spend their time perfecting the types of leadership communication skills that generate respect and get others to share their

vision. They use these skills to establish how they are perceived by others and to manage their reputation throughout the organization. In other words, these soon-to-be top players have developed the presence of an executive through careful image management—and they make sure they have the goods to back it up. In *Executive Presence*, Monarth shows how you can seize control of your own career using the same skills. Inside, he explains how to: Accurately “read” people and predict their behavior Influence the perceptions of others Persuade those of opposing views to your side Create and maintain a personal “brand” Manage and control your online reputation Perform damage control when things go wrong Monarth’s conclusions aren’t based solely on his keen insight and extensive experience; they’re the result of the latest scientific research in interpersonal communication and human behavior. Talent and skills are important, but they alone won’t take you to the top of your organization. People reach highly influential positions because they deeply understand the power of perception and know how to leverage it in their favor. The

good news is, anyone with the will to succeed can do it. Executive Presence provides all the techniques you need to take your career to the highest level of any organization. Matthew Bourne and His Adventures in Dance is an intimate and in-depth conversation between the prize-winning pioneer of ballet and contemporary dance Matthew Bourne and the New York Times dance critic Alastair Macaulay. In 1987, a small, aspirant dance group with a striking name made its debut on the London

fringe. In 1996, Adventures in Motion Pictures made history as the first modern dance company to open a production in London's West End. From this achievement, AMP sailed triumphantly to Broadway - winning three Tony Awards - guided by Artistic Director Matthew Bourne. Even before the inception of AMP, Bourne was fascinated by theatre, by characterization, and by the history of dance. In his early works - Spitfire, Town & Country and Deadly Serious - Bourne brought a novel approach to dance. And in his reworkings of the classics of the ballet canon - Nutcracker, Swan Lake, Cinderella - Bourne created witty, vivid, poignant productions that received great acclaim. In the first decade of the new millennium, the company name was changed to New Adventures, and Bourne's 'classics', as well as Bourne's new works - The Car Man, Play Without Words, Edward Scissorhands and Dorian Gray - achieved levels of box-office popularity that have seldom, if ever, been matched in dance. In addition, his choreography for various musicals - My Fair Lady, Mary Poppins and Oliver! - have run for years in the West End and on Broadway. The detail in which Bourne

discusses his work with Alastair Macaulay is unprecedented. The two explore Bourne's upbringing, his training and influences, and his distinctive creative methods. Bourne's notebooks, his sources and his collaboration with dancers all form part of the discussion in this book.
