Aspiring author Ben Simmons hates imposing himself upon others, so when he breaks down in the small Rhode Island town of Kettering, he's forced to grit his teeth and lean on strangers for help. It's not all bad, though. His temporary host could not be more accommodating, and the local librarian quickly takes an interest in Ben, as well as the research for his next novel. Though unexpected, his short stay has the potential to be enjoyable. But when he stumbles upon the second murder in Kettering within a week, he realizes his presence in town might actually be life-threatening. Ben soon finds himself torn between leaving as soon as he can and his feelings for the alluring Ellen Hornsby. However, the longer Ben stays in town, the more questions he has. Who is the killer? How are these murders connected to similar crimes committed thirty years before? And why haven't the townspeople done anything? As Ben's list of allies grows, so too does the threat that haunts the people of Kettering. Together, these individuals must set aside their differences and find the killer before the body count climbs any higher, but time is running out. Something is in the woods, something hidden among the shadows that grow ever longer with winter's approach, and it's hunting all of them.

A TikTok sensation, this rom-com about a young woman who agrees to fake date a colleague and bring him to her sister's wedding has "everything you could want in a romance" (Helen Hoang, *New York Times* bestselling author). Catalina Martín desperately needs a date to her sister's wedding. Especially since her little white lie about her American boyfriend has spiraled out of control. Now everyone she knows—including her ex and his fiancée—will be there and eager to meet him. She only has four weeks to find someone willing to cross the Atlantic and aid in her deception. New York to Spain is no short flight and her raucous family won't be easy to fool. Enter Aaron Blackford—her tall, handsome, condescending colleague—who surprisingly offers to step in. She'd rather refuse; never has there been a more aggravating, blood-boiling, and insufferable man. But Catalina is desperate, and as the wedding draws nearer, Aaron looks like her best option. And she begins to realize he might not be as terrible in the real world as he is at the office.

Hundreds of major leaguers—including the Hall of Fame's Hank Greenburg, Johnny Mize, Rod Carew, Carl Yastrzemski and Joe Morgan—got their starts in North Carolina, where baseball has been a fixture in the state for nearly 100 years—in Charlotte and Durham (whose Bulls were in the 1988 film *Bull Durham*) as well as Red Springs and Snow Hill. Following an historical statewide overview, year by year summaries and histories are provided for each of the 72 towns, from Albemarle to Zebulon. Notable players and club records are listed for each year, and the causes for the rise and fall of baseball in the different towns are discussed. Biographies of 20 prominent minor leaguers are included, as is an appendix of nearly 2,000 major leaguers who played for a North Carolina team. The state's Negro League and textile league histories are also related.

#1 NEW YORK TIMES BESTSELLER • The game-changing author of *Tribe of Mentors* teaches you how to reach your peak physical potential with minimum effort. “A practical crash course in how to reinvent yourself.”—Kevin Kelly, *Wired* Is it possible to reach your genetic potential in 6 months? Sleep 2 hours per day and perform better than on 8 hours? Lose more fat than a marathoner by bingeing? Indeed, and much more. *The 4-Hour Body* is the result of an obsessive quest, spanning more than a decade, to hack the human body using data science. It contains the collective wisdom of hundreds of elite athletes, dozens of MDs, and thousands of hours of jaw-dropping personal experimentation. From Olympic training centers to black-market laboratories, from Silicon Valley

to South Africa, Tim Ferriss fixated on one life-changing question: For all things physical, what are the tiniest changes that produce the biggest results? Thousands of tests later, this book contains the answers for both men and women. It's the wisdom Tim used to gain 34 pounds of muscle in 28 days, without steroids, and in four hours of total gym time. From the gym to the bedroom, it's all here, and it all works. You will learn (in less than 30 minutes each):

- How to lose those last 5-10 pounds (or 100+ pounds) with odd combinations of food and safe chemical cocktails
- How to prevent fat gain while bingeing over the weekend or the holidays
- How to sleep 2 hours per day and feel fully rested
- How to produce 15-minute female orgasms
- How to triple testosterone and double sperm count
- How to go from running 5 kilometers to 50 kilometers in 12 weeks
- How to reverse “permanent” injuries
- How to pay for a beach vacation with one hospital visit

And that's just the tip of the iceberg. There are more than 50 topics covered, all with real-world experiments, many including more than 200 test subjects. You don't need better genetics or more exercise. You need immediate results that compel you to continue. That's exactly what *The 4-Hour Body* delivers.
