In 1967 a one-off concept
car based on the Jaguar E-
type was commissioned
by newspaperman John
Anstey of the Daily
Telegraph Magazine in the
UK. In less than six
months, the car that

would become known as
the Jaguar Bertone Pirana
Coupe, was styled by
Marcello Gandini for
Carrozzeria Bertone. The
fully functional Pirana
made its debut at the
1967 Earls Court Motor
Show owing some of its
styling to Bertone's
Lamborghini Marzal
concept car and it served
as the preview for the
styling treatment for the
production Lamborghini

Espada which debuted
just a year later. For more
than 40 years the Pirana
virtually disappeared from
view in the UK and later,
in Palm Springs, California
where it surfaced briefly
in 2010. It was from there
that it was sold to
Southern California-based
collector Ed Superfon who
commissioned a complete
restoration, replacing the
car's green exterior to a
silver metallic finish that

closely represents its original Earl's Court presentation back in 1967. It broke cover at the 2012 Concorso Italiano where it surprised many attendees, knowledgeable Italian car fans, most of whom knew little of its existence. The Jaguar Bertone Pirana Coupe contains 13 pages of historical text and images, a specification chart comparing the Jaguar Bertone Pirana Coupe to the Jaguar E-Type 2+2 that served as the donor chassis, and 33 full-page color plates. The

Jaguar Bertone Pirana Coupe serves to document this unique collaboration between The Daily Telegraph Magazine, Jaguar, and Carrozzeria Bertone. It transports the reader back in time when an audacious editor, John Anstey, had the power and budget to commission the building of a dream car. Under the able hand of stylist Marcello Gandini and the direction of Nuccio Bertone, Carrozzeria Bertone was able to bring the Jaguar Bertone Pirana Coupe from design concept to

auto show star in just five months. It is a remarkable story, one that will likely never be repeated. *The Autocar Motorbooks* Visual information is everywhere. We are constantly immersed in a flow of visual data that reshapes our social and inner world. Companies and individuals are competing to conquer the public's scarce attention by inventing distinctive visual formats to stand out from the crowd. How can designers, inventors, and product managers create designs that are

quick to process as well as meaningful, unique and memorable in an age characterized by constant information overload? The answer is to think aesthetically. Research insights at the intersection between cognitive science and art studies demonstrate that our minds can effectively process visual complexity by using aesthetic pleasure and judgement as a guide. Analysing the work of great artists and designers from the perspective of how our mind appreciates beauty,

Elegant Design identifies actionable aesthetic strategies that will help you to design products and user experiences that are useful, beautiful and meaningful.

The Car Book Crescent Each 96 page, hard cover book in the series is 10 1/2" x 7 5/8" and contains color and black and white photos, drawings, charts, and catalog facsimiles. Each classic model is presented in its historic and developmental aspects.

Vintage Campers, Trailers & Teardrops Walter de Gruyter GmbH & Co KG
From the late 19th century the progress of the movies has paralleled that of the motorcar. Now, for the first time, these developments are chronicled through the medium of the Movie Poster. The book celebrates the progression from the simple and crude, through the functional, the ambitious, the barking

mad, right up to today's high-tech, computer generated, often soulless examples of both cinema and automobile. By charting the poster art of the movies chronologically, the book takes you on a journey through the 20th Century in black and white, sepia, hand coloring, stone-litho, and glorious Technicolor. The book shows the obsessively accurate, the artist's impression, the photographic and the wildly imaginative depictions of the automobile. The

development of product placement in marketing is well-illustrated. Why did the Mustang appear in so little publicity for Bullitt? Where was the Mini in most of the world's publicity for The Italian Job? Why wasn't the Alfa Romeo Romeo Dueto prominent in the advertising of The Graduate? The book doesn't provide intricate plot lines or vast cast lists; there are many reference works, both in books and on-line that supply this detail. Instead it shows how different countries promoted the

same movie and give a brief guide to buying posters of movies safely. Primarily this is a book to wallow in, beautifully photographed artwork is guaranteed to bring memories favorite cars in movies and gives a fascinating insight into the evolution of cinema, marketing and the automobile. With 250 color photos, this book is a fascinating feast in all respects. With 250 pictures of rare and original posters and a star rating system for rarity, this is a beautiful book to

browse and a valuable investment guide.

This first volume of essays includes widely read pieces depicting a garden and gardener in Rougemont, North Carolina, in the larger context of life in the twenty-first century and wide-ranging book reviews that are "less evaluative and more plainly thoughtful." A

major essay, "Genomes and Words," relates the emergence of genome sciences with a much older, and now rather quaint, "science" -- philology. This book is (as one person put it) "an intersection of ideas and Rougemont" which, perhaps, humbles ideas and elevates the little hamlet that is Rougemont. But often ideas made plainer become stronger, and the state-of-mind that is Rougemont is made richer with them. In together seeks to find a middle

ground for thoughtful people to read and to think in a world that seems to leave little room for either of those.

Oldtimer erfreuen sich in den letzten Jahren immer größerer Beliebtheit. Dabei ist es längst nicht mehr nur die Leidenschaft, die Autofans dazu bringt, sich so einen Wagen anzuschaffen – oft spielen heute eine Vielzahl an Überlegungen eine Rolle, die sorgsam abgewogen sein mögen. Damit man beim Kauf seines »Traumautos« keine »Rostbeule« ersteht, hat Matthias Mangold – der sich seit über 30 Jahren mit der

Materie befasst – diesen Leitfaden verfasst. Der Leser erfährt darin neben zahlreichen, wissenswerten Fakten und hilfreichen Praxisbeispielen auch Antworten auf Fragen wie:

- Wo und wie kann man überhaupt einen Oldtimer erstehen?
- Wann ist ein angesetzter Preis angemessen und wann überhöht?
- Woran erkenne ich den Wert eines Wagens und dessen Qualität?
- Wie kann man den technischen Zustand einschätzen?
- Welche weiteren Investitionen

werden notwendig sein für den künftigen Unterhalt? • Wie sind die gesetzlichen Vorgaben und wie gestaltet man den Kaufvertrag? Damit die Fahrt im neu erworbenen Oldtimer ohne Panne verläuft!

cars, convertibles, and city compacts. The ebook also features virtual photographic tours of some of the most iconic cars from each era, such as the Rolls Royce Silver Ghost, Ford Model T, Lamborghini Countach, and McLaren Speedtail, while cross-sections of key engines explore the driving force behind them. Lavishly illustrated feature spreads detail the stories of the individuals, machines, and visionary ideas that helped create the car world's most famous marques and

made brands such as Porsche, Mercedes-Benz, Aston Martin, and Cadillac household names. If you love cars, then you'll love The Car Book. It is simply a must-have title for all motoring enthusiasts. Jaguar E-type Six-cylinder Restoration & Originality Guide Veloce Publishing Ltd DieCast X covers the entire spectrum of automotive diecast from customizing to collecting. it takes an insider's look at the history behind popular diecast cars and trucks, as well as how

each model has helped shape the automotive industry and motor sports Car-tastrophes Dorling Kindersley Ltd In 1935, when a small company in Coventry, England, launched a sporting saloon (i.e., sedan) called the Jaguar SS, it set in motion an inexorable process that would lead to Britain's most beloved line of high-performance automobiles. The Complete Book of Jaguar covers the SS and all of the Jaguar's subsequent production models, from the original

SS Jaguar to today's F-Type sports cars, F-Pace SUV, X-Type sedans, as well as concept cars. As with other books in the Complete Book Series, author Nigel Thorley organizes the content chronologically with entries for each year. Narratives for each discuss the cars and technology, while spec tables highlight key technical and performance specifications. Originally begun by a couple of motorcycle enthusiasts—William

Lyons and William Walmsley—as a firm called the Swallow Sidecar Company, Jaguar would become one of the world's most celebrated automakers. In England's bleak postwar years, Jaguar became a shining star—first with its XK120, followed by the XK140 and XK150. Sporting sedans like the Mark 2 and Mark X set the bar for luxury four-door transport in the '50s and '60s. Then Jaguar stunned the world with the achingly beautiful E-Type in 1961, a genuine 150 mph super sports car.

Along the way, the company competed on road courses around the world, going head to head with greats like Ferrari and Aston Martin. Though Jaguar lost its way periodically in the modern era, it has bounded back stronger than ever in the twenty-first century with a strong lineup, including the new F-Type sports car and F-Pace SUV. The Complete Book of Jaguar is the essential guide to this important chapter in the history of sports and luxury automobiles.

Four decades after its launch, the Jaguar E-type is still at the top of most car enthusiasts' Christmas lists. An enduring example of design and

engineering excellence, it is instantly recognisable to people around the world. In production from 1961 to 1974, it was celebrated at the time as the most glamorous sports car of them all and is today one of the best-known icons of the '60s. If ever there was a deserving recipient of the title 'Great Car,' it's the classically elegant Jaguar E-type. In this fascinating, extensively illustrated book, Nigel Thorley describes the year by year history and development of the Jaguar

E-Type, including anecdotes and curiosities along the way. Together with a sumptuous collection of colour photographs, this adds up to a feast of nostalgia that will delight all admirers of this most sinuous of cats.

Runways and Racers concentrates on the short transitional period, 1952-1954, for sports car racing in America following the ban on public road racing in many of the States. The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay, head of Strategic Air Command, was having problems obtaining funds from Congress to improve

conditions on the many air bases located around the country. The solution was a marriage of convenience, whereby the SCCA was allowed access to active SAC air bases to hold its race programmes. In return, the SAC base would receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also adopted by non-SAC bases together with regional clubs, with the

same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to potential irregularities, and he ordered an audit to be conducted to ascertain precisely what it was costing the air bases to host the races. His findings led to the cessation of the races, ordered by Congress. The product of a long period of extensive research by the author, this book gives a fascinating insight into this two-year period, complemented by over 150 period pictures, many

previously unpublished. Jaguar Richard Truesdell From the Jupiter's inception and development, to its sporting successes, and its current status as a sought-after classic, 'Jowett Jupiter - the Car that Leaped to Fame' is a unique book by Edmund Nankivell, the world authority on the Jupiter, and is a complete study of the model. With its advanced chassis designed by Dr Eberan-Eberhorst, the noted Austrian engineer who was also responsible for

designing the Auto Union Type D Grand Prix car, the Jowett Jupiter was an instant hit. Its responsive handling and lively engine made the Jupiter a great sporting success from the off, with a record-breaking win at the Le Mans 24 Hours in 1950, and a class 1-2 win at the 1951 Monte Carlo International Rally. This book covers the Jupiter's success across

the board, revealing the full chronology of the model, its racing derivatives, and the special-bodied Jupiters from the likes of Stabilimenti Farina and Abbott of Farnham. With chapters detailing Jupiters in current use, historic racing, and concours events, this new edition includes more images and

updated information, and provides a comprehensive record of this fantastic, historic car. eBook ISBN: 978-1-787118-02-7 (9781787118027) Print ISBN: 9781845849122 (9781845849122)
