As a journalist, historian and novelist born into a family that included two past presidents of the United States, Henry Adams was constantly focused on the American experiment. The Education of Henry Adams (1918) recounts his own and the country's education from 1838, the year of his birth, to 1905, exploring America as both a success and a failure and voicing his deep scepticism about mankind's power to control the direction of history. Written with immense wit and irony, reassembling the past while glimpsing the future, Adams's vision expresses what Henry James declared the 'complex fate' to be an American, and remains one of the most compelling works of American autobiography today.

An extraordinary memoir about finding wonder in everyday life, from magician Nate Staniforth. Nate Staniforth has spent most of his life and all of his professional career trying to understand wonder--what it is, where to find it, and how to share it with others. He became a magician because he learned at a young age that magic tricks don't have to be frivolous. Magic doesn't have to be about sequins and smoke machines--rather, it can create a moment of genuine astonishment. But after years on the road as a professional magician, crisscrossing the country and performing four or five nights a week, every week, Nate was disillusioned, burned out, and ready to quit. Instead, he went to India in search of magic. Here Is Real Magic follows Nate Staniforth's evolution from an obsessed young magician to a broken wanderer and back again. It tells the story of his rediscovery of astonishment--and the importance of wonder in everyday life--

during his trip to the slums of India, where he infiltrated a three-thousand-year-old clan of street magicians. Here Is Real Magic is a call to all of us--to welcome awe back into our lives, to marvel in the everyday, and to seek magic all around us.

Data is at the center of many challenges in system design today. Difficult issues need to be figured out, such as scalability, consistency, reliability, efficiency, and maintainability. In addition, we have an overwhelming variety of tools, including relational databases, NoSQL datastores, stream or batch processors, and message brokers. What are the right choices for your application? How do you make sense of all these buzzwords? In this practical and comprehensive guide, author Martin Kleppmann helps you navigate this diverse landscape by examining the pros and cons of various technologies for processing and storing data. Software keeps changing, but the fundamental principles remain the same. With this book, software engineers and architects will learn how to apply those ideas in practice, and how to make full use of data in modern applications. Peer under the hood of the systems you already use, and learn how to use and operate them more effectively. Make informed decisions by identifying the strengths and weaknesses of different tools. Navigate

the trade-offs around consistency, scalability, fault tolerance, and complexity Understand the distributed systems research upon which modern databases are built Peek behind the scenes of major online services, and learn from their architectures

Jag, short for Jaguar, was orphaned when her environmentalist parents died in the jungle saving animals' lives. Although she was put into a care home, she ran away two years to live on the streets where she was adopted into a street gang who have now become her family. Danny, the trickster and street magician and Tiger, whose animal instincts run close to the surface, and a few others are all animal activists at heart. Although they go one night to an animal sanctuary in the country to tag the walls with graffiti, Jag gets caught in an enclosure. However, it ends up for the best as the keeper takes a shine to her and offers a part time job when she hears Jag's affinity with the Jaguar spirit. With Jag working at the sanctuary, her gang start spending more time there to see the great Cat Man Do perform his animal magic – until one day when a tiger is let out its cage. And that is only the beginning as a villainous Cat Man begins to stalk the streets with two pet

panthers out for blood, seemingly appearing and disappearing at will. With newspapers reporting maulings and deaths and Sergeant Dickins not sure what's going on, the kids are intrigued by the reports. After witnessing an attack, the kids get sucked into this mysterious Cat Man's idea of a theatrical villain performance – but even if they have animal instincts and spirits with them and even if the big cats are swaying to their side, should they run before they too turn prey?

Are you ready for some magic? There are solo magicians today who are making over \$20,000 per performance, while those in the big leagues routinely bring in over \$20 million a year. How did they get there and what are the keys to their success? What skills and techniques do they possess and deploy that can be easily adapted for your own personal use? In this book, you will learn of the key attitudes and practices that propel their success, as well as the path they have paved for other magicians and performers hoping to gain an entry into this competitive yet lucrative industry. We look at the magic industry through the lens of two of its most celebrated performers, Penn and Teller, who are not just as magicians and entertainers, but smart entrepreneurs running a global entertainment business. In parallel, we look at how the field of modern magic has evolved since its inception, what the outlook is for its future in our global, interconnected, always-on economy. We consider the successful careers of legendary magicians like Jean Eugène Robert-Houdin, Harry Houdini, Dai Vernon, Doug Henning, and others, and how they have shaped the growing magic industry and made it a force to be reckoned with. Through shows like Penn and Teller Fool Us, America's Got Talent, Britain's Got Talent, and The World's Best, and through social media outlets like Facebook, Twitter, Instagram and Youtube, contemporary magicians have an unprecedented opportunity to make themselves known to a global audience. The success secrets followed by the likes of Penn and Teller, David Copperfield, David Blaine, Criss Angel, and newer stars like Shin Lim, Dynamo, and Ryan Hayashi, both as professional magicians and business owners, can be applied by entrepreneurs, business people and self starters everywhere who want to make a mark in their careers. Through constant efforts at design, experimentation, prototyping, and field testing with peers and live audiences, these performers have been fine tuning their craft for decades. With their passion, perseverance, commitment, and unique and creative ways of identifying and solving problems, these trailblazers show the way for a better - and more magical future. In this book, you will not only learn how these stars successfully overcame their challenges, but also how YOU can transform your approach to magic and business. ADVANCE PRAISE FOR MAGICAL A modern synthesis of magic that every conjurer should keep in their knowledge bag of tricks. - Ryan Hayashi, International Stage Magician, Motivational Speaker, Samurai Entertainer, and Winner of the FU Trophy, Penn & Teller Fool Us. Entertaining, fast-paced, and full of ideas that will challenge your assumptions and beliefs about magic, and it's connections to popular culture and business. - Laura Vanderkam, Bestselling Author of What the Most Successful People Do Before Breakfast and Off The Clock. A rollicking ride into the business of magic. The connections to innovation, creativity, persistence and service excellence are engaging and insightful. Every entrepreneur should own a copy. - Michael McGetrick, Founder and CEO, Spark 451.

The Master Key System is a personal development book by Charles F. Haanel. Originally a 24 week correspondence course released in 1912, it was published in this book form in 1917. Along with "The Science of Getting Rich", by Wallace D. Wattles, the Master Key System was a primary inspiration for Rhonda Byrne's book and film "The Secret". Charles F. Haanel was an American author, millionaire, entrepreneur, and businessman who belonged to the American Scientific League and several Masonic societies.

David Copperfield's Tales of the Impossible Armadillo

I immersed myself in magic. I read every book I could get my hands on and practised and practised, day after day and night after night. Magic became my world . . . some might say an obsession. When you're a kid life can seem tough; tougher for some than others. But the darkest of times can also be the most enlightening. When his late granddad showed him magic for the first time, Steven Frayne knew there was more to life than hiding from bullies. He had a destiny. A calling. In that moment Dynamo was born: the most exciting magician of the 21st century. Since then, Dynamo has shocked, thrilled and amazed men, women and children, from all walks of life, all over the world. With his mind-blowing illusions, he has catalysed a whole new era of magic. Now, in his very first book, Dynamo invites you to join him on a breathtaking journey across the globe. Be prepared to levitate Lindsay Lohan in Singapore, transform snow into diamonds in the Austrian mountains, and walk on water across the River Thames. Along the way, he reveals how to make the impossible possible, what it takes to pull off the greatest stunts man has seen, and why everyone needs magic in their lives. This is no illusion. This is the real story of the awe-inspiring Dynamo.

A poetry collection inspired by the poet's time in England, Japan and Spain.Eloquently written in an approachable style that will appeal to a wide range of readers.A thought-provoking collection that is insightful, surprising and compelling. Inspired by the poet's time in England, Japan and Spain, the poems in Dynamo Memory explore how memories interact with present day realities and shape them into a new perspective. The poems are triggered by sharply focused observation of the present and then are taken in new directions that reveal the extraordinary that underlies the ordinary. The myriad aspects of reality are thrown into sharp relief, celebrating their colourful and varied facets whilst at the same time not flinching from their darker side. Each poem is a voyage of discovery, opening a window onto a world that is at once familiar and strange. Dynamo Memory is a compelling collection full of revelations that are often deeply moving, but also leavened by a wry sense of humour, written in an immediate style that will appeal to a broad range of readers. "Lemons like lanterns in the trees, tired green leaves, darkening sky."

Chapters in this book include trick photography, chronophotography and the projection of motion pictures. We find here evidence of the popularity and connections between magic and photography at the turn of the century, which is depicted effectively in the recent movie The Illusionist. Of course, the first photographers, such as Louis Daguerre, were magicians and masters of stage illusions.
