**LEONIDAS MOONEY**

*A Revisionist History of*

*Footbinding*  
 Simon and Schuster  
 Discusses the basic psychological principles of interpersonal relationships.  
*All the Ever Afters*  
 Houghton Mifflin Harcourt  
 Blending memoir,

literary exposition, and revealing case studies, *Unrequited* is a powerful, surprising, and empathetic cultural and psychological exploration of one-sided romantic obsession. The summer Lisa A. Phillips turned thirty, she fell in love with someone who didn't return her feelings. She soon became obsessed. She followed him around, called him compulsively, and talked about him endlessly. One

desperate morning, after she snuck into his apartment building, he picked up a baseball bat to protect himself and began to dial 911. Her unrequited love had changed her from a sane, conscientious college teacher and radio reporter into someone she barely recognized—someone who was taking her yearning much too far. In *Unrequited*, Phillips explores the tremendous force of obsessive love

in women's lives. She argues that it needs to be understood, respected, and channeled for personal growth—yet it also has the potential to go terribly awry. Interweaving her own story with frank interviews and in-depth research in science, psychology, cultural history, and literature, Phillips describes how romantic obsession takes root, grows, and strongly influences our thoughts and

behaviors. Going beyond images of creepy, fatally attracted psychos, male fantasies of unbridled female desire, and the platitudes of self-help books, Phillips reveals a powerful, troubling, and surprisingly common phenomenon. As she illuminates this mysterious psychological experience, placing it in a rich and nuanced context, she offers compelling insights to

help any woman who has experienced unrequited obsessive love and been mystified and troubled by its grip.

*Enchanted*

Harlequin

The story of how women's lives, loves, and dreams have been re-shaped since 1950, the year of Walt Disney's Cinderella and a time when teenage girls dreamed of marriage, Mr Right, and happy endings... Cinderella stories

captured the imagination of girls in the 1950s, when dreams of meeting the right man could seem like a happy ending, a solution to life's problems. But over the next fifty years women's lives were transformed, not by the magic wand of a fairy godmother, nor by marrying princes, but by education, work, birth control - and feminism. However, while widening

opportunities for women were seen as progress, feminists were regularly caricatured as man-haters, cast in the role of ugly sisters, witches or wicked fairies in the fairy-tale. This book is about the reshaping of women's lives, loves and dreams since 1950, the year in which Walt Disney's film Cinderella gave expression to popular ideas of romance, and at a time when marriage was a major

determinant of female life chances and teenage girls dreamed of Mr Right and happy endings. It ends with the runaway success of Disney's Frozen, in 2013 - a film with relevance to very different times. Along the way, it illuminates how women's expectations and emotional landscapes have shifted, asking bold questions about how women's lives have been transformed since 1950.

How have women's changing life experiences been mirrored in new expectations about marriage, intimacy, and family life? How have new forms of independence through education and work, and greater control over childbearing, altered women's life ambitions? And were feminists right to believe that sexual equality would improve relationships between men and women?

Stealing  
Cinderella

Notion Press  
In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of

those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive

thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

**Cinderella's Sisters** Regal Books  
Footbinding is widely condemned as perverse & as symbolic of male domination over women. This study offers a more complex explanation of a thousand year practice, contending that the binding of women's feet in China was sustained by the interests of both women and men.

Carrie Penguin  
In the vein of *Wicked, The Woodcutter, and Boy,*

*Snow, Bird, a luminous reimagining of a classic tale, told from the perspective of Agnes, Cinderella's "evil" stepmother. We all know the story of Cinderella. Or do we? As rumors about the cruel upbringing of beautiful newlywed Princess Cinderella roil the kingdom, her stepmother, Agnes, who knows all too well about hardship, privately records the true story. . . .*  
A peasant

born into serfdom, Agnes is separated from her family and forced into servitude as a laundress's apprentice when she is only ten years old. Using her wits and ingenuity, she escapes her tyrannical matron and makes her way toward a hopeful future. When teenaged Agnes is seduced by an older man and becomes pregnant, she is transformed by love for her child. Once again left

penniless, Agnes has no choice but to return to servitude at the manor she thought she had left behind. Her new position is nursemaid to Ella, an otherworldly infant. She struggles to love the child who in time becomes her stepdaughter and, eventually, the celebrated princess who embodies everyone's unattainable fantasies. The story of their relationship reveals that nothing is what it seems,

that beauty is not always desirable, and that love can take on many guises. Lyrically told, emotionally evocative, and brilliantly perceptive, *All the Ever Afters* explores the hidden complexities that lie beneath classic tales of good and evil, all the while showing us that how we confront adversity reveals a more profound, and ultimately more important, truth than the

ideal of "happily ever after." [And Getting Better All the Time](#) Zondervan The Cinderella tale you think you know gets a magical retelling in Cameron Dokey's swoony *Before Midnight*. Etienne de Brabant is brokenhearted . His wife has died in childbirth, leaving him alone with an infant daughter he cannot bear to name. But before he abandons her for king and court, he

brings a second child to be raised alongside her, a boy whose identity he does not reveal. The girl, La Cendrillon, and the boy, Raoul, pass sixteen years in the servants' care until one day a very fine lady arrives with her two daughters. The lady has married La Cendrillon's father, and her arrival changes their lives. When an invitation to a great ball reaches the family, La Cendrillon's

new stepmother will make a decision with far-reaching effects. Her choice will lead La Cendrillon and Raoul toward their destiny—a choice that will challenge their understanding of family, test their loyalty and courage, and, ultimately, teach them who they are. *The Cinderella Moment* Broadview Press In the Five Hundred Kingdoms, if you can't carry out your

legendary role, life is no fairy tale.... Elena Klovis was supposed to be her kingdom's Cinderella—until fate took that future away from her, and she set out to make a new life for herself. But breaking with "The Tradition" that guides the kingdoms comes with a cost—one that could leave her powerless and destitute. Until, that is, her fairy godmother intervenes and offers her a most unexpected

job... to become her apprentice, and learn the ways of magic. Now, instead of sleeping in the chimney, Elena must guide others along their own fated paths. And, of course, deal with arrogant, stuffed-shirt princes who keep trying to rise above their place. But when she finds herself falling for someone completely unexpected, she begins to question where her own path will lead her—and

whether she's willing to take fate into her own hands. Sometimes a fairy godmother's work is never done... Read the Tale of Five Hundred Kingdoms Series by Mercedes Lackey: Book 1: The Fairy Godmother Book 2: One Good Knight Book 3: Fortune's Fool Book 4: The Snow Queen Book 5: The Sleeping Beauty Book 6: Beauty and the Werewolf Prince Charming Createspace Independent

Publishing Platform In 1969, the world was shocked by a series of murders committed by Charles Manson and his "family" of followers. Although the defendants were sentenced to death in 1971, their sentences were commuted to life with parole in 1972; since 1978, they have been regularly attending parole hearings. Today all of the living defendants

remain behind bars. Relying on nearly fifty years of parole hearing transcripts, as well as interviews and archival materials, Hadar Aviram invites readers into the opaque world of the California parole process—a realm of almost unfettered administrative discretion, prison programming inadequacies, high-pitched emotions, and political pressures. Yesterday's Monsters

offers a fresh longitudinal perspective on extreme punishment. Young Women, Self Esteem, and the Confidence Gap Dangerous Press This beloved Newbery Honor-winning story about a feisty heroine is sure to enchant readers new and old. At her birth, Ella of Frell receives a foolish fairy's gift—the “gift” of obedience. Ella must obey any order, whether it's to hop on one

foot for a day and a half, or to chop off her own head! But strong-willed Ella does not accept her fate... Against a bold backdrop of princes, ogres, giants, wicked stepsisters, and fairy godmothers, Ella goes on a quest to break the curse forever.

*The Psychosocial Implications of Disney Movies* Anchor Cinderella - The story is always the same: a girl - hated and abused by her step-family - meets her

prince at a ball. There is involvement with a glass shoe, a bit of magic, and in the end, they all live happily ever after. You've heard it before - but you've never heard it like this: In early America, at a time when dealings with dead bodies is considered taboo, Cindy's father is a mortician. She, for one, is fascinated by the controversial work, until her mother dies and her father marries Anna van Burren, who brings

two new sisters into the family. Cindy's misery only grows from there. Following her father's untimely death, Cindy's life spirals into darkness as she is forced to become a servant in her own home, to wait on her hated siblings and stepmother. She has become so sequestered that she can't even let the one man she continues to think about know that she is alive. She met him once in the

mortuary years ago - a handsome, curious boy who had been a surprise to her - until she'd discovered who he was. Now a man, Christian is a perfect specimen, and also the object of her step-sisters' affections. According to a stipulation of his inheritance, he must marry before age twenty-one. That day is fast approaching. Any hope Cindy had of seeing him again - or of

salvaging anything that should have been left of her life - seems lost. Cindy's world is filled with misfortune. She believes she must be cursed. It takes the appearance of a strange woman who brings a wicked prophecy before Cindy can see how blessed she could become - and to see what sacrifices were made to give her hope once again. *A Cinderella Story* Tor Books

Sixteen-year-old Maggie Winters can't think of anything more exciting than junior year. There's her first prom to look forward to, she can drive, and most important Connor Prince has finally noticed her. But unfortunately so has the school snob, Katrina Melville, who goes out of her way to make Maggie's life a living hell. If that's not enough, Maggie's grandma has

decided to retire, which doesn't seem like such a big deal. That is until she finds out her grandma is a Fairy Godmother, and not just any Fairy Godmother. The Fairy Godmother, as in Cinderella, pumpkins, and mice. And she has informed Maggie that she's next in line to become the new Fairy Godmother. At first Maggie is excited, the whole getting wings, flying (or rather trying not to crash), and a wand that let's

her grant wishes. It's like being a superhero, without all the action, explosions, and spandex. Then she gets her first assignment, Katrina Melville, her nemesis. And if that doesn't make her want to poof herself into oblivion, she finds out that part of Katrina's happily-ever-after is Connor Prince. Life is so unfair. Even worse, she can't tell her two best friends about any of it and they're getting

sick of her disappearing acts. Then there are the dangerous creatures, called Grimms who will stop at nothing to keep the happy endings from being fulfilled, even if it means destroying the Fairy Godmother responsible. With time running out, Maggie has to make this wish come true or it will ruin the fates of everyone involved, and open the world to darkness beyond imagination.

Maggie will soon find out what it truly means to be a Fairy Godmother- and it isn't all about princes, gowns, and wings, but something much more. Why Do I  
Think I Am  
Nothing  
Without a  
Man?  
Boarding  
School  
Syndrome is  
an analysis of  
the trauma of  
the  
'privileged'  
child sent to  
boarding  
school at a  
young age.  
Innovative  
and  
challenging,  
Joy Schaverien  
offers a  
psychological  
analysis of the  
long-  
established  
British and

colonial preparatory and public boarding school tradition. Richly illustrated with pictures and the narratives of adult ex-boarders in psychotherapy, the book demonstrates how some forms of enduring distress in adult life may be traced back to the early losses of home and family. Developed from clinical research and informed by attachment and child

development theories 'Boarding School Syndrome' is a new term that offers a theoretical framework on which the psychotherapeutic treatment of ex-boarders may build. Divided into four parts, History: In the Name of Privilege; Exile and Healing; Broken Attachments: A Hidden Trauma, and The Boarding School Body, the book includes vivid case studies of ex-boarders in

psychotherapy. Their accounts reveal details of the suffering endured: loss, bereavement and captivity are sometimes compounded by physical, sexual and psychological abuse. Here, Joy Schaverien shows how many boarders adopt unconscious coping strategies including dissociative amnesia resulting in a psychological split between the 'home self' and the

'boarding school self'. This pattern may continue into adult life, causing difficulties in intimate relationships, generalized depression and separation anxiety amongst other forms of psychological distress. Boarding School Syndrome demonstrates how boarding school may damage those it is meant to be a reward and discusses the wider implications of this tradition. It will be

essential reading for psychoanalysts, Jungian analysts, psychotherapists, art psychotherapists, counsellors and others interested in the psychological, cultural and international legacy of this tradition including ex-boarders and their partners. *The Cinderella Complex* Harper Collins Kelroy, a nearly-forgotten 1812 novel by Rebecca Rush, combines the refinement of the novel of

manners with the Gothic novel's hidden evil to tell the story of the star-crossed lovers Emily Hammond and the romantic Kelroy, whose romance is doomed by the machinations of Emily's mother. Set in the elite world of Philadelphia's Atlantic Rim society, Kelroy transcends the genre of sentimental romance to expose the financial pressures that motivate Mrs. Hammond's gambles. As she sacrifices

her daughter to maintain the appearance of urbane wealth, Mrs. Hammond emerges as one of the most compellingly detestable figures in early American literature. Appendices include materials on gender, economics, and marriage; games and dancing; and gambling and the lottery in early urban America. A group of illustrations of early-nineteenth-

century Philadelphia is also included. *Schoolgirls* Bantam Stephen King's legendary debut, the bestselling smash hit that put him on the map as one of America's favorite writers "Gory and horrifying. . . . You can't put it down." —Chicago Tribune Unpopular at school and subjected to her mother's religious fanaticism at home, Carrie White does not have it easy. But while she may

be picked on by her classmates, she has a gift she's kept secret since she was a little girl: she can move things with her mind. Doors lock. Candles fall. Her ability has been both a power and a problem. And when she finds herself the recipient of a sudden act of kindness, Carrie feels like she's finally been given a chance to be normal. She hopes that the nightmare of her

classmates' vicious taunts is over . . . but an unexpected and cruel prank turns her gift into a weapon of horror so destructive that the town may never recover.
