The Beatles - Ukulele Chord Songbook Hal Leonard

By turns impassioned and irreverent, The Beatles by Ear is a collection of essays on each Beatles album, song, chord, key change, and songwriting technique. Song fragments like those of the Abbey Road medley and Sgt. Pepper are examined first as individual songs and then as larger suites. The essays focus on fresh musical insights and avoid the backstories and anecdotes about each song (the "standard talking points") that are common knowledge among even the most casual Beatles fans. The Beatles by Ear is written for musically inclined readers who-like the Beatles-have never learned to read or write music, but can play a few chords and are drawn to understand the creative processes behind the popular song. A central premise of the book is that the Beatles' lack of formal training helped rather than hindered the expression of their natural talent. Whenever possible, theoretical terms and concepts are limited to those used by the Beatles themselves in the interview quotations sprinkled liberally throughout the book. The reader is expected to know two things: the names of the 12 notes (shown in the book

with letter names) how to play simple chords in the key of C on keyboard or guitar For those who don't know the names of notes and chords, a series of detailed tutorials is included in one of the appendices. Hundreds of page number references enable the book to be read from cover to cover, or used as a reference book for isolated studies of individual songs or composing techniques. In addition to the main chronological survey of albums and singles, there are separate sections for: each chord the Beatles used each key change vocal harmonies melodic basslines riffs the five rhythm tricks the Beatles used to manipulate the forms of their songs Beatles resources (a survey of the best books, films, podcasts, websites, and YouTube channels used by the author in the process of researching the book) The Beatles canon is contextualized against a backdrop of: predecessors: classical music, jazz, blues, rock 'n' roll and R&B contemporaries: Brian Wilson, Bob Dylan, Holland-Dozier-Holland, Burt Bacharach, Carole King, and the Motown and Stax house bands.

This inspiring picture book tells the story of the friendship between Ringo, Paul, George, and John, and how their unique talents came together to make something brilliant. In 1957, a boy named Paul met a boy named John. John was funny and confident, while Paul was quiet and steady, but one thing they had in common was a love and talent for songwriting. When they were joined by George and Ringo, they formed the band whose name would soon be known across the world: The Beatles. Together, the Fab Four became the world's best-loved band, drawing huge crowds to packed-out stadiums. But even they got

nervous sometimes, and in those times they knew they could rely on each other. Through the power of friendship, The Beatles made their biggest dreams come true and still bring joy to the lives of millions. Friends Change the World is a series of picture books that celebrates the power of friendship. From musical greats to sports champions, scientists and explorers to artists and

activists, these are the true stories of real friends who achieved amazing things. Whether best friends since school or thrown together by a chance encounter, they supported and inspired each other to make their shared dreams come true. This charming series shows 4- to 7-year-olds how togetherness, respect, and friendship can make the world a better place.
