The Late Great Planet  
Earth Zondervan  
From Anger to Action  
tells the stories of the

citizens' movements  
charting new paths to  
tackle the big global  
challenges that lie  
behind the political  
upheavals of our times.  
Drawing on candid  
insights from citizens,  
activists, and  
innovators, and their  
own experiences as  
leaders of  
internationally  
recognized advocacy  
organizations, the  
authors give an insider  
account of the battle  
for change and how it  
can be won – as well as  
trenchant criticism of  
where traditional civil  
society has lost its way  
and needs renewal.  
While unflinching on  
the dangers of the  
current political crises,  
the book offers hard-  
edged hope and a  
vision for citizen-led  
change to reshape our  
fractured politics. We  
meet communities in

economically-battered towns welcoming refugees and Syrian peacebuilders reaching across impossible divides, go behind the scenes with Fairtrade banana farmers and hear of frenzied climate campaigners pushing divestment from oil companies and using social media to drive change. Lamb and Jackson explore how citizens' movements are transforming our global politics, refashioning internationalism and fighting back against narrow nationalism. The book analyses why some movements secure lasting change - and others fail. And they show how these insights could shape a wider strategy for grassroots-up transformation. From Anger to Action will be

of interest to social activists and anyone interested in social movements, global change, and civil society.

[All About The Ozone Layer : Effects on Human, Animal and Plant Health - Environment Books | Children's Environment Books](#) Ten Speed Press

This series of books will introduce man in person with his maker, God Almighty. God will meet and work with government representatives from the planet Ares to seek help in finding peace throughout his entire universe. God uses these meetings as a method to allow mankind to seek peace on his own terms. This story begins here on a beautiful country farm overlooking the Piankatank River in

Middlesex County in the state of Virginia, USA. Retired police officer John James is reluctantly drafted into the Planet Ares Secret Peace Corps. This secret peace corps was founded and formed thousands of years ago on the planet Ares. The main mission of this secret peace corps as ordered by God is to find and promote a peaceful coexistence throughout our universe. Captain Joshua Christian from the planet Ares confronts John at his home in secret and hopefully persuades him to join and become a full-time member and agent of the secret peace corps. Using planet Ares advanced knowledge, training, and weapons, John's story unfolds as he joins and receives his

first unusual assignment to start supporting this peace mission here on planet Earth.

Vision for Peace, Justice, and Earth Care: My Life and Thought at Age 96 Strategic Book Publishing

The impact of The Late Great Planet Earth cannot be overstated. The New York Times called it the "no. 1 non-fiction bestseller of the decade." For Christians and non-Christians of the 1970s, Hal Lindsey's blockbuster served as a wake-up call on events soon to come and events already unfolding -- all leading up to the greatest event of all: the return of Jesus Christ. The years since have confirmed Lindsey's insights into what biblical prophecy says about the times

we live in. Whether you're a church-going believer or someone who wouldn't darken the door of a Christian institution, the Bible has much to tell you about the imminent future of this planet. In the midst of an out-of-control generation, it reveals a grand design that's unfolding exactly according to plan. The rebirth of Israel. The threat of war in the Middle East. An increase in natural catastrophes. The revival of Satanism and witchcraft. These and other signs, foreseen by prophets from Moses to Jesus, portend the coming of an antichrist . . . of a war which will bring humanity to the brink of destruction . . . and of incredible deliverance for a desperate, dying

planet.

Corporation

Transform yourself and transform the world.

The steps you can take to positively shape your reality and then pay it forward . . . Our Peaceful Planet

contains extraordinary ideas that have the power to transform lives and the planet. It is unique because it provides a practical healing framework for the whole world,

starting at how people can change the beliefs that cause them to be destructive in their own lives and in their own world, to the actions that they can take to create global peace and environmental and economic sustainability. Our Peaceful Planet shows

how when each part of one person's world—beliefs, governance, environment, industries, economy—dynamically interacts, it affects the entire planet. It contains big ideas for world leaders and little ideas for everyday people, because everyone has the power to make a difference, to themselves and others, and to the world. Our Peaceful Planet is a blueprint for the future in which everyone can play a role.

Uniting Elders and Youth for the Love of OUR Planet

CreateSpace

A nation's capability of self-sustainability is seen as the foremost marker for it to be considered a developed nation. Its

self-sufficiency in agriculture, economy, health and education facilities for its citizens builds its sustainability. An ideal nation should be able to fulfil the basic needs for each of its citizen on its own. To achieve this level of self-sufficiency was one of India's former President Dr. A.P.J. Abdul Kalam's major aspirations for the country. Creating A Livable Planet is a volume especially compiled with an aim to preserve and spread Dr. Kalam's enlightening and informative ideas on the usage of right technology to benefit and improve India's agriculture, economy, atmosphere and health of citizens. He, through these articles, educates the citizens, both young and old, on

how using inexpensive, conventional and nature-friendly techniques can help us enrich our agriculture, environment and health. He also advocates the adoption of necessary modern technologies that could help our society evolve.

*Nu Mentality in a Nu Age* Speedy Publishing LLC

This Coloring series is to help our planet. Every day, one day at a time, the human family and the community of life on Earth moves into the future. More than at any time in human history, what we do today will affect generations to come. What will the world be like when our grandchildren are grown, with children of their own? Each year,

We, the World celebrates 11 Days of Global Unity starting on September 11 and ending on September 21, the International Day of Peace. In 2019, we celebrate the 15th Anniversary with a musical journey through 11 Gardens of Global Unity. In each Garden, grandparents will find tools and resources to help them take their place as the Elders of this generation, to help guide children and youth through tumultuous changes in the transition to a world that works for all. We are sowing and growing a Culture of Peace. It all starts with a vision of what we want to see. Let's take a moment to quiet our minds, look into our hearts and imagine a world that works for all

life on Earth. Can you see it? Take a few minutes to wander around in this environmentally sustainable, spiritually fulfilling, socially just human presence on this planet. Feel the peace in your own heart. How far in the future does that vision seem to you? What would have to happen in order for that vision to become a reality? As we prepare ourselves to take our next steps into the future, we hold that vision in our hearts to guide our choices day by day. These closing words of the Earth Charter summarize the statement of ethical values and principles for a global society. Let ours be a time remembered for the awakening of a new reverence for life, the

firm resolve to achieve sustainability, the quickening of the struggle for justice and peace, and the joyful celebration of life. Launched in the year 2000, the Earth Charter now inspires a global movement of organizations and individuals that use its 16 principles to guide the transition towards a more just, sustainable, and peaceful world.<https://earthcharter.org/>You can read the full Earth Charter at <https://earthcharter.org/discover/the-earth-charter/>. As we walk on the Road to 2020 and Beyond, we will meet people who believe that a sustainable, just and peaceful world is not only possible, it is inevitable. We will see what they are doing

today for a better tomorrow.

Independent Pub Shortlisted for the FT/McKinsey Business Book of the Year award A renowned climate scientist shows how fossil fuel companies have waged a thirty-year campaign to deflect blame and responsibility and delay action on climate change, and offers a battle plan for how we can save the planet. Recycle. Fly less. Eat less meat. These are some of the ways that we've been told can slow climate change. But the inordinate emphasis on individual behavior is the result of a marketing campaign that has succeeded in placing the responsibility for fixing climate change squarely on the shoulders of individuals. Fossil fuel companies have

followed the example of other industries deflecting blame (think "guns don't kill people, people kill people") or greenwashing (think of the beverage industry's "Crying Indian" commercials of the 1970s). Meanwhile, they've blocked efforts to regulate or price carbon emissions, run PR campaigns aimed at discrediting viable alternatives, and have abdicated their responsibility in fixing the problem they've created. The result has been disastrous for our planet. In *The New Climate War*, Mann argues that all is not lost. He draws the battle lines between the people and the polluters-fossil fuel companies, right-wing plutocrats, and petrostates. And he outlines a plan for

forcing our governments and corporations to wake up and make real change, including: A common-sense, attainable approach to carbon pricing- and a revision of the well-intentioned but flawed currently proposed version of the Green New Deal; Allowing renewable energy to compete fairly against fossil fuels Debunking the false narratives and arguments that have worked their way into the climate debate and driven a wedge between even those who support climate change solutions Combatting climate doomism and despair-mongering With immensely powerful vested interests aligned in defense of the fossil fuel status quo, the societal

tipping point won't happen without the active participation of citizens everywhere aiding in the collective push forward. This book will reach, inform, and enable citizens everywhere to join this battle for our planet.

Things that Make for Peace Lexington Books

This book tells the story of a new historical dialectic in the world between two parallel processes- construction and destruction. The author proposes that a constructive global collective consciousness emerged in the nineteenth century, and humanity has since progressed toward the achievement of a more just and peaceful world. Outworn and destructive mindsets

that have constituted the root causes of war for millennia-such as racism, nationalism, religious strife, gender inequality and extremes of wealth and poverty-have now been fully exposed and delegitimized. Those who have profited from these divisive attitudes, however, are bound to take a last stand. Amidst the blinding haze generated by the accelerating collapse of outworn mindsets and institutions, this book brings into focus the forward march of the constructive process toward peace, and the powerful role each of us can play in its realization.

A POCKET MANUAL TO  
SAVE THE PLANET

offers a series of specific and practical proposals for dealing with the three most important issues that threaten to destroy our national and international societies to one extent or another: GLOBAL DEPRESSION: This possibility will be triggered if and when our government defaults on its mountain of debts and essentially declares bankruptcy, which will be followed by a global depression. This is predicted by many of our best economists to happen sometime between roughly 2014 and 2016. GLOBAL WARMING: This peril is presently melting our ice caps and mountain glaciers, slowly raising the level of our oceans

until they potentially flood the low-lying areas of our global civilization; that is where about 50% of our global population lives within about 50 miles of our coast lines. This is variously predicted by our best environmental scientists to happen by about the end of the 21st century with about 3-6 feet of water, so it requires action now to prevent it because it is already set in place to happen; and many scientists say we have already passed the point where we can prevent it from happening. GLOBAL ARMAMENTS: We now spend, as a planet, approximately \$1.75 trillion a year on armaments and wars of one kind or another. If we continue to spend our scarce resources

on killing each other rather than preventing global depressions and defeating global warming, we will be hopelessly unable to create peace on our planet, and therefore we may allow the destruction of our global civilization at the hands of global warming. This inability to live in peace rather than war already resulted in our killing 300 million human beings during the 20th century. That figure is about equal to the total population of the United States. GLOBAL PEACE. So we are a doomed global civilization if we do not prevent a global depression, defeat global warming, and achieve global disarmament. We can ignore all of the warning signs of our

coming devastation, but it is our futures that we are gambling away by our lethargy, as well as the futures of our children and grandchildren. This is because, in order to prevent the invasion of these ocean waters, we need to become a completely coordinated global unit, that acts according to a single, global, heartbeat. This is a level of global cooperation that we will never be able to achieve in the middle of the social chaos of a global depression or continuous military conflicts, so we could never defeat global warming before it invades our coastal civilizations with 3-6 feet of water. Therefore: If we don't create a stable, global economy; if we don't achieve global

disarmament; then we won't be able to defeat global warming and prevent the invasion of our coastal areas with 3-6 feet of water; so we can kiss our global civilization good-bye. But if we start soon enough; if we lay down our arms together; if we work together with each other all over the world to prevent a global depression and to defeat global warming; then we will be able to live in global peace. "They shall beat their swords into plowshares, and their spears into pruning hooks. Nation shall not lift up sword against nation, neither shall they learn war anymore." (Isaiah 2:4) We can finally fulfill Isaiah's prophesy if we will take it to heart and live in peace rather than in war. These

goals are within our grasp, if we will take these necessary steps. From Anger to Action Fernwood Publishing World Peace and the very survival of humanity depends on understanding the concepts in this book! The "New Game" is a movement to shift a paradigm. From "Monetary Consumerism" to "Great Life Experience." Please Click "About" Description 2012 Is a scary time! There is more social unrest, financial instability and concern about our future than ever around the globe. The concepts in this book will help you to understand why we are experiencing life the way that we are, how we can achieve World Peace and have a great

life! - It all begins with you right now! Like the game Monopoly, the goal in the game of life that the world is playing is: To acquire as much money and material wealth as possible. The result of humanity playing this game is going to be our own extinction! The NEW GAME is a paradigm where the goal is for everyone to have a great life experience! The New Game life experience is built on first understanding that Monetary Consumerism is at the root of most of the worlds problems. It is a game that enslaves humanity, stifles progress and benefits only a few. We fight wars because of this paradigm, we starve millions of people around the world every

month, we waste limited resources, pollute our planet and destroy hope! What we need to realize is that this "game" of monetary consumerism really is just a game and we don't have to play this game. Humanity can simply change the game! Money is made up! You have only to look around you to see that the monetary consumerism system is not working very well even for those who cannot imagine any other way. Banks are collapsing, virtually every country on earth is experiencing social unrest and most countries are so indebted that they have no hope of ever being financially sound again. Meanwhile, the earth itself is under severe climatic stress

and we just keep consuming as if our resources will never run out. There is only one word that describes our current way of life and that word is INSANE! Humanity is at a crossroad and there is great HOPE! We now have the opportunity to play a whole New Game!

*God Is Love* Routledge  
Making Peace with the Earth outlines how a paradigm shift to earth-centred politics and economics is our only chance of survival and how collective resistance to corporate exploitation can open the way to a new environmentalism."--  
pub. desc.

**Peace for Our Planet**  
Wipf and Stock  
Publishers  
Incorporating systems theory, teachings from

mythology and religions, and the human sciences, *The World Peace Diet* presents the outlines of a more empowering understanding of our world, based on a comprehension of the far-reaching implications of our food choices and the worldview those choices reflect and mandate. The author offers a set of universal principles for all people of conscience, from any religious tradition, that they can follow to reconnect with what we are eating, what was required to get it on our plate, and what happens after it leaves our plates.

*The End of War*  
Rowman & Littlefield  
*Emissary of Peace* is a science fiction novel about an ambassador, named T'Lars. He is

also a scientist and a computer geek. The central government of the Varangian Confederacy sends him on an important mission, which is, in actuality, three missions in one. The mission lasts many months, since it involves travel for many thousands of light years to distant parts of the galaxy. He is assigned to travel with Commander L'Qwan, who commands the Confederate Star Ship L'Thor, and Subcommander T'Larissa, who is second in command. The L'Thor is named after the hero of an ancient interstellar battle from many centuries ago. The first assignment is to investigate a mysterious rogue

space ship, which entered the galaxy through a wormhole. During the course of the investigation, they get help from allies, called the Tivoli Republic. The Tivoli are intelligent cats, that assist the ambassador, by towing the rogue ship to the Tivoli-Varangian border. The investigation results in the uncovering of ancient mysteries, involving the origins of the Varangians. Historical facts are uncovered from archives found on that ship. These archives were left on that rogue ship by a people distantly related to the ancestors of the Varangians. This assignment results in having some ancient mysteries solved. At the same time, new mysteries emerge.

They are about to proceed with the second assignment of the mission, when, unexpectedly, advanced beings transport them to the Andromeda Galaxy. This results in deviations from the original mission plan. In the process, they learn about the fate of ancient allies of the Varangian ancestors, and how they ended up in the Andromeda Galaxy. These ancient allies are the Iripini, who were victims of a viral biological attack. They were an ill-fated people, who died off. The L'Thor was investigating the remains and artifacts of their civilization. During the course of the investigation, they encounter two alien species, and Ambassador T'Lars

ends up brokering a peace between those alien species. The result is good, where the former Iripini planet ends up in good hands of the two alien species, who agree to a joint and shared control of the planet. After the advanced beings transport the L'Thor back to the Milky Way Galaxy, they end up closer to Earth, where they are able to proceed with their assignment. They visit Earth as part of an assigned scientific team. On Earth, the year is 2042 AD. Without interfering in any of the political affairs of Earth at the time, as instructed, they collect voluminous amounts of botanical, zoological, geological, cultural, and historical information. This

assignment brings them to many countries on most continents around the world. They come into contact with many cultures around the world and even make several friends. They explore tropical rain forests, deserts, and other habitats. They learn about Earth's history. They also learn that the humans and Varangians share some genetic material, which opens up another mystery. The last assignment of this mission is to negotiate a peace treaty with another superpower in the galaxy, the Federation of Incorporated Planets. This part of the assignment is always problematic, because of the nature of how the Federation is run. It is run like a

corporation! He succeeds at drawing up the peace treaty, because of the \_convenient\_ nature of the trade agreements, linked to the stipulations of the treaty. Beyond that the Federation's central government seems to display a strong disinterest. In the end, all aspects of the mission result in overall success, but as some ancient mysteries are solved, other mysteries, and potential ancient threats, remain. Not all problems can be solved so easily! Various themes are expressed, involving issues of war and peace, environmental issues, philosophy, history, and political affairs. Various civilizations are introduced with a wide

spectrum of levels of advancement. Behind it all, Ambas War and Peace Createspace Independent Publishing Platform Dorothie and Martin Hellman reveal the secrets that allowed them to transform an almost failed marriage into one where they reclaimed the true love that they felt when they first met fifty years ago. Surprisingly, they found that working on interpersonal and international challenges at the same time accelerated progress on both. *Musical, Compassion, and Kindness Coloring Book* Molten Mango Pty Ltd

THE BALL DOCTRINE: "Creating Peace & Prosperity In Every Nation!" is a game

changer for the Nation & World. Author & 2016 American Party Presidential Candidate, Dennis Andrew Ball artfully addresses the problems & issues of our time with important solutions to cause a change for the betterment of the traditional family structure for the Nation & the World!

A New Approach PublicAffairs Epic historical novel by Leo Tolstoy, originally published as *Voyna i mir* in 1865-69. This panoramic study of early 19th-century Russian society, noted for its mastery of realistic detail and variety of psychological analysis, is generally regarded as one of the world's greatest novels. *War and Peace* is primarily concerned with the histories of

five aristocratic families--particularly the Bezukhovs, the Bolkonskys, and the Rostovs--the members of which are portrayed against a vivid background of Russian social life during the war against Napoleon (1805-14). The theme of war, however, is subordinate to the

story of family existence, which involves Tolstoy's optimistic belief in the life-asserting pattern of human existence. The novel also sets forth a theory of history, concluding that there is a minimum of free choice; all is ruled by an inexorable historical determinism. Includes unique illustrations.
