The Big Book of EVEN MORE Therapeutic Activity Ideas for Children and Teens Teaching and Learning Company
 Every class includes students who lag behind the rest of the class or race ahead of everyone when working on activities. This packet provides creative solutions to that problem. The teacher provides each student with drawing paper, a pencil, crayons and a copy of the activity sheet. Then the student reads and follows the directions, step-by-step, or listens to the teacher read them aloud. The activities encourage students to follow directions, enhance their creativity and increase their motivation in fun-filled, productive ways.
Following Directions, Gr. 5-6, eBook Lorenz Educational Press
 Learn to Draw all the different tool used by carpenter and handymen. This book is ideal for kids to develop their untrained hand while learning to draw various tools. Practice the simple technique explained in the beginning of the book to break down complex shapes into small lines. This will help you to train your hand for drawing complex figures easily. Follow the simple step by step instructions to draw each tool. All the steps in the book are self

explanatory and hence no written instructions are required. Hope you have fun drawing. We would really love to get your feedback. So don't forget to leave a review. It will really help us to improve our work. If you like this book, please check our other books on our website: www.sketchbuddies.com

How to Draw for Kids : Carpenter Tools Teaching and Learning Company

This innovative learning tool gives students a chance to express themselves, learn about the creative process first-hand, and share ideas about the world around them. Drawing Is Basic is specifically designed for the classroom teacher -- not the art specialist. The Teacher Resource Books include easy-to-follow instructions, daily lessons, ideas for extended drawing activities, and student samples. The fifteen-minute daily "drawing and writing breaks" help boost students' confidence as well as their verbal and written communication skills. These daily "breaks" can be easily integrated into a

math, social studies, language arts, or science lesson. Students do all their drawings in a 64-page student sketchbook, which is great for both at-home and classroom use. This innovative tool motivates budding artists to take risks in a non-threatening, creative environment.

A great way to help students learn your content is to have them write about it. Writing is a way for students to review their own learning, organize their thinking and evaluate how well they understand what has been taught. Use the 81 tools in this binder to help students in every grade and subject become actively engaged in their own learning. The binder contains everything teachers need to begin using these strategies immediately. Each strategy includes complete how-to-use instructions, teacher materials for classroom use, classroom examples, and a template for student assignments.
