The traditional understandings that structure the relationships between public servants and the wider political system are said to have undergone considerable change. But what are these formalized and implicit understandings? What are the key dimensions of such bargains? In what conditions do bargains rise and fall? And has there been a universal and uniform change in these bargains? The Politics of Public Service Bargains develops a distinct perspective to answer these questions. It develops a unique analytical perspective to account for diverse bargains within systems of executive government. Drawing on comparative experiences from different state traditions, this study examines ideas and contemporary developments along three key dimensions of any Public Service Bargain - reward, competency and loyalty and responsibility. The Politics of Public Service Bargains points to diverse and differentiated developments across national systems of executive government and suggests how different 'bargains' are prone to cheating by their constituent parties. This study explores the context in which managerial bargains - widely seen to be at the heart of contemporary administrative reform movements - are likely to catch on and considers how cheating is likely to destabilize such bargains.

Verkeerstheorie The O'Brien Press This innovative introduction to literary studies takes 'the life of texts' as its overarching frame. It provides a conceptual and methodological toolbox for analysing novels, poems, and all sorts of other texts as they circulate in oral, print, and digital form. It shows how

texts inspire each other, and how stories migrate across media. It explains why literature has been interpreted in different ways across time. Finally, it asks why some texts fascinate people so much that they are reproduced and passed on to others in the form of new editions, in adaptations to film and theatre, and, last but not least, in the ways we look at the world and act out our lives. The Life of Texts is designed around particular issues rather than the history of the discipline as such. Each chapter concentrates on a different aspect of 'the life of texts' and introduces the key debates and concepts relevant to its study. The issues discussed range from aesthetics and narrative to intertextuality and intermediality, from reading practices to hermeneutics and semiotics, popular culture to literary canonisation, postcolonial criticism to cultural memory. Key concepts and schools in the field have been highlighted in the text and then collected in a glossary for ease of reference. All chapters are richly illustrated with examples from different language areas.

The 10 Step Guide to Developing and Producing a Fashion Collection Penguin Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product.

The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated. Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
