### Russian-English Dictionary of Proverbs and Sayings SIAM

An essential book for anyone using Russian mathematical and scientific literature Russian-English Dictionary of Mathematics embraces all major branches of mathematics from elementary topics to advanced studies in topology and discrete mathematics. Terms from the newest branches of mathematics, such as the theories of games, trees, knots, and braids, are included as well. Containing more than 27,000 entries, Russian-English Dictionary of Mathematics is larger and provides a broader scope than any other bilingual mathematics dictionary now in use. Many adjectives and verbs are included, and a copious amount of synonyms are provided for various terms.

Secondary terms are grouped under principal terms for easier reference. Russian-English Dictionary of Mathematics provides the most comprehensive vocabulary aid available for translators, readers, and writers of Russian mathematical and scientific literature.

### Callaham's Russian-English Dictionary of Science and Technology Yale University Press

This is the most innovative, comprehensive, and scholarly bilingual dictionary of Russian idioms available today. It includes close to 14,000 idioms, set expressions, and sayings found in contemporary colloquial Russian and in literature from the nineteenth century to the present. The Russian idioms are provided with many English equivalents to render idioms in various contexts. Illustrative examples are cited to show how the idioms are used in context. Each entry also contains a grammatical

description of the idiom, a definition—an innovative feature for a bilingual dictionary—and stylistic and usage information. A most notable part of the work is the alphanumeric index that makes finding the right expression very easy.

Multi Linguis offers you a frequency-thematic learner's dictionary of the Russian language. It includes up to 9000 essential words and phrases belonging to the levels from Beginner to Upper Intermediate II (A1 - B2.2 CEFR). The entries are divided into 150 vocabulary themes as well as 6 learning steps. They are arranged by parts of speech and then by themes, not by the alphabet. The book is intended to help you revise this language by another way but can also be applied for translating or entertaining. You may use it separately or as an additional tool for any suited educational course. The Multi Linguis Project is based on the Wiktionary corpus and created by one person. The database of the Learner's Dictionaries includes 9 000 lemmas (words and phrases), their translations in many languages as well as transcriptions, transliterations and grammar information. All these lemmas are divided into 6

learning steps of 1500 entries each and also 150 vocabulary themes grouped in 30 super themes. They can be arranged by themes, steps, parts of speech or keywords, but never by the alphabet. Different types of dictionaries are offered for the same language. They are designed in an original way to be convenient and efficient. All of them are available in epub format. Multi Linguis is presently able to publish such books for more than 70 languages. It's planned to improve them and increase their number. You can find more dictionaries in this store.
