Firegirl Felice Stevens In A Daughter of Isis, Nawal El Saadawi painted a beautifully textured portrait of the childhood that moulded her into a novelist and fearless campaigner for freedom and the rights of women. *Walking through Fire* takes up the story of her extraordinary life. Famous for her novels, short stories and writings on women, Saadawi is known as the first Arab woman to have written about sex and its relation to economics and politics. Imprisoned under Sadat for her opinions, she has continued to fight against all forms of discrimination based on class, gender, nationality, race or religion. This autobiography shows the passion for justice that has shaped her life and her writing. We read about her as a rural doctor, trying to help a young girl escape from a terrible fate imposed on her by a brutal male tyranny. We follow her attempts to set up women's organizations and to publish magazines later banned by the authorities or endangered

by fundamentalist threats. We travel with her into exile after the publication of her name on a death list. We witness her first marriage to a freedom fighter hounded into drug addiction by a system that has no mercy. We share her struggle against her 'false self' and a second husband who offers her financial security and comfort - provided she stops writing. We live the beautiful moments of her third marriage with a man released after fourteen years of imprisonment and hard labour - their love, companionship and shared struggle. Nawal El Saadawi has carved a place for herself in the universal struggle against oppression. 'Words should not seek to please, to hide the wounds in our bodies, or the shameful moments in our lives', she says. 'They may hurt, give us pain, but they can also provoke us to question what we have accepted for thousands of years.' *Walking through Fire* Createspace Independent Publishing Platform Totally frustrated and over burdened, I asked God, "Why am I always putting out fires?" Through biblical examples and the personal accounts of people from all walks of life, you will learn to: Reduce the duration of every fire that comes your way In some instances, avoid them all together Clothe yourself with the necessary armor to walk through every fire unscathed Live your destiny fearlessly and with victory! AI is revolutionizing the world. Here's how democracies can come

out on top. Artificial intelligence is revolutionizing the modern world. It is ubiquitous—in our homes and offices, in the present and most certainly in the future. Today, we encounter AI as our distant ancestors once encountered fire. If we manage AI well, it will become a force for good, lighting the way to many transformative inventions. If we deploy it thoughtlessly, it will advance beyond our control. If we wield it for destruction, it will fan the flames of a new kind of war, one that holds democracy in the balance. As AI policy experts Ben Buchanan and Andrew Imbrie show in *The New Fire*, few choices are more urgent—or more fascinating—than how we harness this technology and for what purpose. The new fire has three sparks: data, algorithms, and computing power. These components fuel viral disinformation campaigns, new hacking tools, and military weapons that once seemed like science fiction. To autocrats, AI offers the prospect of centralized control at home and asymmetric advantages in combat. It is easy to assume that democracies, bound by

ethical constraints and disjointed in their approach, will be unable to keep up. But such a dystopia is hardly preordained. Combining an incisive understanding of technology with shrewd geopolitical analysis, Buchanan and Imbrie show how AI can work for democracy. With the right approach, technology need not favor tyranny.

Carter Haywood lives for the weekends—specifically the one weekend every month when he escapes real life, with all the pressures of work and caring for his special needs brother, to do whatever he wants, with whomever he wants. Sex is only a release; he's not looking for love, a relationship or even a second night with the same man, until he walks into a bar and finds someone who makes leaving it all behind impossible. After one incredibly passionate encounter, he breaks his rule and goes back. He needs to see this man again. And again. Damaged goods. That's all Reed Kincaide sees and

hears when he looks in the mirror. Anxiety and ADHD define his life and he's learned to keep people at a distance, never letting them get close enough to know who he really is. When Carter proposes a monthly weekend of sex without strings, it's the ideal arrangement for him. Or so he thinks. Every month, leaving Carter proves to be more and more difficult. It's not only the intensely hot sex they have in their hotel suite; Reed wonders about the secret life Carter refuses to share. As months pass and they grow closer Reed finds himself falling for Carter, but he needs more than hurried hugs and farewell kisses. He wants it all. Letting Reed into his carefully constructed family life could upset Carter's whole world, but it might be the risk he's finally willing to take, if it means keeping Reed. Once bodies are engaged, the heart is sure to follow, and Carter and Reed discover that holding on to each other is the first step in letting go of the past.

At the age of twenty-three, Deanne Burch accompanied her

husband, Ernest "Tiger" Burch to the Inuit village of Kivalina, Alaska, a barrier island 23 miles above the Arctic Circle. Tiger was conducting a participant study of the natives, whereas Deanne was a city girl - ethnocentric, naïve, and completely unprepared for the journey she was about to embark on. In Kivalina, she lived on the edge of two worlds - the one she left behind and the one where she reluctantly participated in all aspects of the women's lives. Skinning seals, cleaning and drying fish, cutting beluga and caribou to store became her way of life. Plumbing, running water and electricity were not available. Loneliness was a constant companion, although she tried to be accepted by the Inuit women who were suspicious of all white women. Gradually Deanne adapted to living in a culture she knew nothing about. The midnight sun was followed by relentless darkness and brutal weather. With this came a journey into the unknown. First was a fateful camping trip where they nearly lost their lives, followed six days later by a fire in their house, an event that left Tiger badly

burned. During the three months Tiger spent in the hospital, his only wish was to return to Kivalina and finish what he had started. Despite horrific burns on his face and hands and seared lungs from which he never recuperated, Tiger and Deanne returned to the village to complete the study. Instead of believing in fairy tales and happy endings, Deanne became a woman of strength ready to face the next challenge. Over fifty years later she remembers the young girl who left on an unknown journey. A journey that will live in her heart forever.

Finding Hope in the Hard Places Vintage

Just two weeks after winning reelection to his ninth term in Congress, Steve King was stunned to learn the "Swamp" was poised to unleash a treacherous media blitzkrieg designed to kill his Congressional political career on the spot. The words, "They believe they can force you to resign" ring in his ears yet today. I knew Democrats and the media would pile on. Unfortunately, the threat was from within his party and it was far more dangerous. The Republican establishment, RINOs, elitists, globalists, and NeverTrumpers needed me out of the way. The astonishing, Job-like story of how an existence filled with loss, suffering, questioning, and anger became a life filled with shocking and incomprehensible peace and joy. Vaneetha Risner contracted polio as an infant, was misdiagnosed, and lived with widespread paralysis. She lived in and out of the hospital for ten years and, after each stay, would return to a life filled with bullying. When she became a Christian, though, she thought things would get easier, and they did: carefree college days, a dream job in Boston, and an MBA from Stanford where she met and married a classmate. But life unraveled. Again. She had four miscarriages. Her son died because of a doctor's mistake. And Vaneetha was diagnosed with post-polio syndrome, meaning she would likely become a quadriplegic. And then her husband betrayed her and moved out, leaving her to raise two adolescent daughters alone. This was not the abundant life she thought God had promised her. But, as Vaneetha discovered, everything she experienced was designed to draw her closer to Christ as she discovered

"that intimacy with God in suffering can be breathtakingly beautiful." *War, Peace, and Democracy in the Age of AI* MIT Press
 NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are

sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. *City on Fire* Felice Stevens
 "After nine years together, Kathryn and Chris have the sort of relationship most would envy. They speak in the shorthand they have invented, complete one another's sentences, and help each other through every daily and existential dilemma. When Chris tells Kathryn about his feelings for Emily, a vivacious young woman he sees often at the Laundromat, Kathryn encourages her boyfriend to pursue this other woman--certain that her bond with Chris is strong enough to weather a little side dalliance. As Kathryn and Chris stumble into polyamory, [this book] tracks the tumultuous, revelatory, and often very funny year that follows"--
