Warning: This erotica contains scenes and elements that may be disturbing to some readers. Please review the full content warning below. Jessica Martin is not a nice

girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The "freak," Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? This book contains intense fantasy scenes of hard kinks/edgeplay, graphic sex, and harsh language. It is intended only for an adult audience. Beware: this is a dark, weird, kinky read. The activities depicted therein are dangerous and are not meant to be an example of realistic BDSM. Reader discretion is advised. Kinks/Fetishes within: erotic humiliation, fearplay, painplay,

knifeplay, consensual non-consent (CNC), orgasm denial, boot worship, spanking, crying, blowjobs, clowns, group sexual activities, spit, bondage, public play, bloodplay.

Dietary supplements are widely available through a rapidly expanding market of products commonly advertised as beneficial for health, performance enhancement, and disease prevention. Given the importance and frequent evaluation of physical performance and health as a criteria to join and remain in the military, the use of these products by military personnel has raised concern regarding over-all and long-term efficacy and safety. This evaluation is especially difficult, as many of these supplements

contain multiple ingredients, have a changing composition over time, or are used intermittently at doses difficult to measure. This book analyzes the patterns of dietary supplement use among military personnel, examines published reviews of the scientific evidence, and identifies those dietary supplements that are beneficial and/or warrant concern due to risks to health or performance. The book also recommends a system to monitor adverse health effects and a framework to identify the need for active management of dietary supplements by military personnel. Military policy makers, personnel, and recruits will find this book useful, as will nutritionists, athletes, and others working in strenuous environments.

The disproportionate criminalisation and incarceration of particular minority ethnic groups has long been observed, though much of the work in criminology has been dominated by a somewhat narrow debate. This debate has concerned itself with explaining this disproportionality in terms of structural inequalities and socio-economic disadvantage or discriminatory criminal justice processing. This book offers an accessible and innovative approach, including chapters on anti-Semitism, social cohesion in London, Bradford and Glasgow, as well as an exploration of policing Traveller communities. Incorporating current empirical research and new departures in methodology and theory, this book also draws on a range of contemporary issues such as policing terrorism, immigration detention and youth gangs. In offering minority perspectives on race, crime and justice and white inmate perspectives from the multicultural prison, the book emphasises contrasting and distinctive influences on constructing ethnic identities. It will be of interest to students studying courses in ethnicity, crime and

justice.

"The second edition of *Race, Ethnicity, Crime, and Justice* presents the latest research on studies of race, ethnicity, and justice practices at the juvenile and adult levels. With a focus on intersectionality, the text shows how these extralegal factors interact with others to help understand outcomes such as disparities in excessive use of force by the police and court sentencing, as well as

disproportionate minority confinement in corrections. Designed to be brief yet thorough, the text covers the most important issues related to race and

ethnicity as they pertain to the law, crime and delinquency, policing, courts, and corrections. Race, Ethnicity, Crime, and

Justice is highly readable and classroom friendly while also making a meaningful contribution to the literature on the topic"-
