"Die Grenzen meiner Sprache bedeuten die Grenzen meiner Welt" – diese Erkenntnis Ludwig Wittgensteins begründet besonders hinsichtlich der Zunahme von interdisziplinären Forschungs- und Entwicklungsprojekten und den damit sprachlich zu überwindenden Disziplinengrenzen, die Notwendigkeit forcierter Terminologiearbeit. Exemplarisch wird für den Anwendungskontext der Verlässlichkeit technischer Systeme ein mehrdimensionales Terminologiegebäude durch verschränkte Kombination von Präzisierungsmethoden aufgebaut: Begriffe werden durch Ausdifferenzierung ihrer Binnenstruktur intensional hierarchisiert; zudem wird die Interpretationsfreiheit von Bezeichnungen und damit die Begriffsunschärfe durch vertikale Generalisierungs- und Spezialisierungsbeziehungen, sowie durch horizontale Vernetzung auf Grundlage der Zustands-Ereignis-Dualität, eingeschränkt. Im Ergebnis entsteht ein konsistentes und präzises Terminologiegebäude der Verlässlichkeit technischer Systeme. Die Anwendung auf diese Domäne hat dabei exemplarischen Charakter: Der verschränkt-kombinierten Anwendung der hier verwendeten Beschreibungssprachen, sowie strukturgebenden Konzepte auf andere Domänen steht nichts im Wege.

A working guide for students conducting theological writing and research on theology and biblical studies courses, this book integrates the disciplines of writing, rhetoric, and theology, to provide a standard text for the teaching and mentoring of writing across the theological curriculum. As a theological rhetoric, it also encourages excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers, preachers, and communicators in a variety of ministerial and professional contexts. This 2nd Edition includes new chapters on 'Writing Theology in a New Language', which explores the linguistic and cultural challenges of writing theology well in a non-native language, and 'Writing and Learning Theology in an Electronic Age', addressed to distance learning students learning to write theology well from online courses, and dealing with the technologies necessary to do so.

English Studies from Archives to Prospects OUP Oxford

Idioms carry an aura of mystery for all speakers, owing to the discrepancy between their literal and non-literal meanings. This book clears up some of these ambiguities, by examining a series of expressions that have derived from the most instinctive and essential of all human behaviour: eating and drinking. The quantity and quality of 276 food and drink idioms are explored, investigating two

hundred and fifty years of English monolingual lexicography and forty years of usage as attested by contemporary linguistic corpora. The examination of these idioms' syntactic, semantic, pragmatic, historical, social and cultural characteristics will foster in speakers a whole new approach to idiom comprehension and usage, and will constitute thought-provoking ground for further research in other idiom domains.

Are you looking for an exciting opportunity to travel and work abroad? Teaching English as a foreign language is a fun and rewarding career choice if you want to see the world. Whether you're a trained teacher, newly qualified or want to travel the globe, Teaching English Abroad is the most comprehensive guide to finding and securing a teaching job abroad. Packed with hundreds of different schools and placements across 90 countries from South Korea to Australia, there are a huge range of opportunities to choose from, including both long and short-term placements. Teaching English Abroad provides all the essential information you need, region by region, so you have a safe and successful trip. Inside find out: How valuable qualifications are to teaching abroad Which ELT courses available, lasting from a weekend to 3 years Where to search for jobs from recruitment organisations to websites How to prepare for your trip abroad and overcome any issues How other teachers found their work from personal accounts Now in its 16th edition, this new edition includes more than 50 new employer listings - from Switzerland to Taiwan, Georgia to Kenya, and Hungary to Bolivia.

Policing Corruption John Benjamins Publishing Company

Das Lernen bzw. der Erwerb des Wortschatzes ist die größte Hürde, welche ein Lernender in der Fremdsprache nehmen muss. Als Hilfsmittel stehen ihm dabei Lernerwörterbücher zur Seite, von denen immer wieder behauptet wird, sie tragen zum Wortschatzerwerb bei. Welche Voraussetzungen müssen jedoch gegeben sein, damit Lerner- zu Lernwörterbüchern werden? In der Studie wird die Eignung aktueller DaF-Lernerwörterbücher zum systematischen Wortschatzerwerb untersucht. Basierend auf den Erkenntnissen der für diese Frage wichtigsten Bezugsdisziplinen - Wortschatzdidaktik und Lernpsychologie - wird geprüft, welche makro- und mikrostrukturellen Merkmale das Lernen fördern. Auf dieser Grundlage werden sechs Konsequenzen für die Konzeption von Lernerwörterbüchern formuliert. Anschließend wird eine der aus den lernpsychologischen Erkenntnissen abgeleiteten Konsequenzen exemplarisch umgesetzt und mittels Eye-Tracking überprüft, wie die neu gestalteten Artikel von Lernenden wahrgenommen werden und ob die Form der Gestaltung zum (inzidentellen) Wortschatzerwerb beitragen kann. Damit wird eine Möglichkeit aufgezeigt, wie in der Lexikographie neue, benutzeradäquate Konzepte mit wortschatzdidaktischen

Ansätzen verbunden werden können.

Worry and Anxiety Bloomsbury Publishing

English as a Lingua Franca: Theorizing and Teaching English examines the English used among non-native speakers around the world today and its relation to English as a native language, as well as the implications for English language teaching. Challenging and incisive, this book analyses positive and negative accounts of English as a lingua franca, and its linguistic features, within the context of native and World Englishes multilingualism and intercultural communication sociolinguistic issues including accent and identity classroom teaching and learning English as a Lingua Franca is a useful guide for teachers and trainee teachers, and will be essential reading for advanced students and linguists concerned with multilingualism, language contact, language learning, language change, and the place of English in the world today.

A - E Routledge

Good governance is an index of human development. What constitutes good governance is holistic and gender issues are key components in the formation and practice of governance. In pre-colonial Africa, governance is inclusive of men and women. In the pre-colonial era, it could be argued that women had spheres of power and powerlessness. In most post-colonial societies of Africa, it is a rarity to accord women positions in government. Yet, the United Nations Conferences held in Copenhagen (1980), Nairobi (1985), Beijing (1995) and New York (2000), all had drafts and resolutions to change inequalities and vulnerabilities women encounter in public and private spaces. What are the issues to understand in the inclusion or exclusion of women in governance of African states and societies? This book explicates the experiential issues in gender, politics and governance. The 'known' are the stereotypes accorded to women as weak and unfit to take strategic roles in public life. Scholars across disciplines have debunked this perception. The known constantly linger in perpetuity because the development plans of African states fail to understand what it takes to have women empowered in all ramifications.

Die Formalisierte Terminologie der Verlässlichkeit Technischer Systeme Walter de Gruyter
In Europe and the Americas: Transatlantic Approaches to Human Rights, leading scholars offers new insight into topical human rights in Europe and the Americas, providing a basis for debating human rights values across the Atlantic.

English as a Lingua Franca Routledge

This volume explores the complex relationship between language and identity from various critical perspectives and by means of different research methodologies. Following the earlier collection, *Languaging Diversity: Identities, Genres, Discourses*, this book provides further insights into the multifaceted process of identity construction through language. The choice of dealing with the broad concept of 'diversity' underlines the inclusiveness of this text, which was conceived to analyse how identities are linguistically and socially construed, maintained and challenged in a vast array of sociolinguistic contexts. The choice of collecting papers concerning the thorny issue of language and diversity is grounded on the idea that individual identities are dynamic and socially negotiated in interaction and discourse, with language choices being true acts of identity (Le Page and Tabouret-Keller, 1985) by means of which people's selves are performed and defined. To offer wide yet accurate descriptions of how identities are variously conveyed linguistically, this volume offers a

varied approach to diversity, by covering different fields of research, from the investigation of ethnic minorities' identities to the socio-linguistic and cultural status of Scots, to mention but two examples. The book consists of nine selected papers dealing with professional, cultural, ethnic and social identities, gender ideologies and national stereotypes built and negotiated in language practices and discourse. In particular, this work tackles a wide set of key topics: the construction and legitimation of ESOL teachers' identities in their community of practice, multidimensional research on Italian immigrants' distinctiveness, the negotiation of self in bilingual families, Scottish national belonging and attitudes towards the Scots language, the correlation between sexism and gender categories, and the development of a positive approach to diversity via enhanced critical awareness of culture-bound stereotypes.

Advances in Frame Semantics Oxford Advanced Learner's Dictionary, 8th Edition: Paperback

This book looks at current research and future directions in e-lexicography. Online dictionaries and reference tools are increasingly prevalent in a digitized and internet-led era in language study that has embraced computational linguistics. This book responds with theoretical and practical analysis of key topics, from a global range of contributors. Since COBUILD in the 1980s, lexicographers have found it essential to engage with and utilize electronic computational tools. Internet dictionaries, online reference tools and even search engine optimization demand a knowledge of electronic lexicography and force a reassessment of the field. This volume looks at, amongst other topics: • Polyfunctional versus monofunctional dictionary tools • Developing theories of lexicography for electronic mediums • Distinguishing between the database and the dictionary • Online dictionaries not as data repositories but as sophisticated search engines This volume will appeal to scholars in lexicography and to practicing lexicographers.

Writing Theology Well 2nd Edition BookRix

Der internationale Bestseller des preisgekrönten Historikers Yuval Noah Harari Vor 100 000 Jahren war der Homo sapiens noch ein unbedeutendes Tier, das unauffällig in einem abgelegenen Winkel des afrikanischen Kontinents lebte. Unsere Vorfahren teilten sich den Planeten mit mindestens fünf weiteren menschlichen Spezies, und die Rolle, die sie im Ökosystem spielten, war nicht größer als die von Gorillas, Libellen oder Quallen. Vor 70 000 Jahren dann vollzog sich ein mysteriöser und rascher Wandel mit dem Homo sapiens, und es war vor allem die Beschaffenheit seines Gehirns, die ihn zum Herren des Planeten und zum Schrecken des Ökosystems werden ließ. Bis heute hat sich diese Vorherrschaft stetig zugespitzt: Der Mensch hat die Fähigkeit zu schöpferischem und zu zerstörerischem Handeln wie kein anderes Lebewesen. Anschaulich, unterhaltsam und stellenweise hochkomisch zeichnet Yuval Harari die Geschichte des Menschen nach und zeigt alle großen, aber auch alle ambivalenten Momente unserer Menschwerdung. Das E-Book beinhaltet ein exklusives und sehr persönliches Gespräch mit Yuval Noah Harari, in dem er verrät, warum er „Eine kurze Geschichte der Menschheit“ geschrieben hat, ob er an den Fortschritt glaubt und ob wir trotz der aktuellen Welle des Terrorismus wirklich im friedlichsten Zeitalter leben. Er erzählt von seiner jüdischen Herkunft und dem Einfluss seiner sexuellen Identität auf seine Forschung.

The Bloomsbury Companion To Lexicography John Benjamins Publishing Company

English lexicography and linguistics have always shared close ties, yet the potential of cognitive linguistics for lexicography has only been hesitantly acknowledged in the literature. This is what

cognitive lexicography attempts to change by using insights gained in cognitive semantic research for the development of new dictionary features. After a short survey of the history and practice of English monolingual learner lexicography, as well as an outline of the relationship between linguistics and lexicography, three new dictionary features are developed. They cover three different cognitive semantic theories as well as three different parts of the monolingual dictionary entry, each time for a new set of lexemes. Frame semantics, conceptual metaphor theory, as well as cognitive conceptions of polysemy, are used to create a new example section for agentive nouns, a new defining structure for emotion terms and a new microstructural arrangement for particle entries. Dictionary analyses on all, as well as user studies on two of the features, complement these suggestions. The monograph thus presents a new approach to lexicography that incorporates into its description of lexical items how humans perceive and conceptualise language.

"The Oxford Advanced Learner's Dictionary gives more help and more support than any other dictionary at this level. It focuses on learners' need to understand and use words correctly, and to develop their core language skills. The 8th edition features a new interactive Oxford iWriter and a new 32-page Oxford Writing Tutor, specifically designed to improve writing skills."--pub. desc.

Gender Politics and Governance in Africa OUP Oxford

This book investigates the theoretical, empirical and pedagogical issues to help us better understand what is happening with English as a Lingua Franca (ELF) communication and to activate this knowledge in respective communicative contexts. It focuses specifically on Japanese contexts and also includes theoretical and practical sections pertinent to all ELF researchers, practitioners and students, irrespective of their national or regional differences. It further attempts to connect this new field of research to established fields of linguistics and applied linguistics such as communication, assessment and multilingualism by exploring them from an ELF perspective, which is challenging but essential for the development of the field. Exploring ELF in Japanese Academic and Business Contexts: Conceptualisation, research and pedagogic implications includes chapters about: English in a Global Context Own-language use in academic discourse English as a lingua franca in international business contexts A linguistic soundscape/landscape analysis of ELF

information provision in public transport in Tokyo Using pragmatic strategies for effective ELF communication: Relevance to classroom practice This book will be of interest to scholars and post-graduate students working in the fields of Applied Linguistics/TESOL. It will also engage researchers studying the growing influence of English around the world.

Vocabulary Cambridge University Press

This volume presents some of the latest research in Frame Semantics, including work in computational lexicography as developed within the FrameNet project. Using varied material from English, Italian, and Japanese, the contributions collectively expand the theoretical, conceptual, and computational apparatus of Frame semantics, by studying a range of issues concerning not only lexical structure, associated with cognitive frames, but also the less studied interactional frames and their relationship to grammatical organization. While addressing a number of linguistic phenomena, such as verbs of visual perception, metaphoric language, subordinating connectives, paraphrasing, honorifics, certain pragmatic particles, basic speech acts, and the semantic structuring of legal texts, the analyses also highlight the broader question of integrating frames within rich lexical and grammatical descriptions, whether in the context of lexicon-building resources, models for knowledge representation, experimental modeling of language acquisition and processing, conceptual metaphor theory, paraphrase research, or the communicative grounding of linguistic structure. Originally published in *Constructions and Frames* Vol. 3:1 (2011) and Vol. 2:2 (2010).

Languaging Diversity Volume 2 Elsevier, Urban&FischerVerlag

The Bloomsbury Companion to Lexicography offers the definitive guide to a key area of linguistic study. Each companion is a comprehensive reference resource featuring an overview of key topics, research areas, new directions and a manageable guide to beginning or developing research in the field. Lexicography, as the practice of compiling dictionaries, has a long tradition that has been, for much of the time, largely independent of linguistics. The direct influence of linguistics on lexicography goes back around 50 years, though longer in the case of learners' dictionaries. The present volume aims to reflect on the research that has been and is being done in lexicography and to point the way forward. It tackles, among other topics, the critique of dictionaries in the electronic medium, the future of historical lexicography in the electronic mode with special reference to the online Oxford English Dictionary, and e-lexicography in general.
