Two strangely-detached astronauts orbit Earth while a third world war rages on. A primatologist's lover suspects her of obsession with one of her simian charges. The horrors of trench warfare dovetail with the theoretical

Secret Life MCD

A mythmaker of the highest order, China Miéville has emblazoned the fantasy novel with fresh language, startling images, and stunning originality. Set in the same

sprawling world of Miéville's Arthur C. Clarke Award-winning novel, *Perdido Street Station*, this latest epic introduces a whole new cast of intriguing characters and dazzling creations. Aboard a vast seafaring vessel, a band of prisoners and slaves, their bodies remade into grotesque biological oddities, is being transported to the fledgling colony of New Crobuzon. But the journey is not theirs alone. They are joined by a handful of travelers, each with a reason for fleeing the city. Among them is Bellis Coldwine, a renowned linguist whose services as an interpreter grant her passage—and escape from horrific punishment. For she is linked to Isaac Dan der Grimnebulin, the brilliant renegade scientist who has unwittingly unleashed a nightmare upon New Crobuzon. For Bellis, the plan is clear: live among the new frontiersmen of the colony until it is safe to return home. But when the ship is besieged by pirates on the Swollen Ocean, the senior officers are summarily executed. The surviving passengers are brought to Armada, a city constructed from the hulls of pirated ships, a floating, landless mass ruled by the bizarre duality called the Lovers. On Armada, everyone is

given work, and even Remades live as equals to humans, Cactae, and Cray. Yet no one may ever leave. Lonely and embittered in her captivity, Bellis knows that to show dissent is a death sentence. Instead, she must furtively seek information about Armada's agenda. The answer lies in the dark, amorphous shapes that float undetected miles below the waters—terrifying entities with a singular, chilling mission. . . . China Miéville is a writer for a new era—and *The Scar* is a luminous, brilliantly imagined novel that is nothing short of spectacular. **BONUS:** This edition contains an excerpt from China Miéville's *Embassytown*.

Annihilation Chizine Publications

In a world where mysterious underground dwellers rule the state with random acts of terror, John Finch and his partner must solve a double murder while trying to make contact with the scattered rebel resistance.

The Kosher Guide to Imaginary Animals
Del Rey

Bizarre weather. Unprecedented economic disparity. Artists employed by corporations. And the ultimate work of art: Oval, a pill that increases generosity. This

unforgettable debut novel asks questions of empathy and power on every scale—from bodies to bureaucracies—to create an unsettling portrait of the future. In the near future, Berlin's real estate is being flipped in the name of "sustainability," only to make the city even more unaffordable; artists are employed by corporations as consultants, and the weather is acting strange. When Anja and Louis are offered a rent-free home on an artificial mountain—yet another eco-friendly initiative run by a corporation—they seize the opportunity, but it isn't long before the experimental house begins malfunctioning. After Louis's mother dies, Anja is convinced he has changed. At work, Louis has become obsessed with a secret project: a pill called Oval that temporarily rewires the user's brain to be more generous. While Anja is horrified, Louis believes he has found the solution to Berlin's income inequality. Oval is a fascinating portrait of the unbalanced relationships that shape our world, as well as a prescient warning of what the future may hold. "A fascinating near-future exploration of relationships, sustainability, and power. An extraordinarily

accomplished debut novel." —Jeff VanderMeer, author of *Borne* and *Annihilation* "Elvia Wilk's *Oval* is a marvel. At the core of this seductive, acute, superbly-contemporary update of mid-period J.G. Ballard lies a deep-beating, deep-dreaming heart." —Jonathan Lethem *This World Is Full of Monsters* FSG

The Third Bear Catapult

"Cunningly crafted stories full of wonder and intelligence. VanderMeer proves again why he is so essential and why everybody should be reading him." —Junot Diaz, Pulitzer Prize-winning author of *The Brief Wondrous Life of Oscar Wao* Featuring "The Situation," a story set in the universe of VanderMeer's bestseller, *Borne*.

Compared by critics to Borges, Nabokov, and Kafka, contemporary fantasist Jeff VanderMeer (*The Southern Reach* Trilogy) continues to amaze with this surreal, innovative, and absurdist gathering of award-winning short fiction. Exotic beasts and improbable travelers roam restlessly through these darkly diverting and finely honed tales. In "The Situation," a beleaguered office worker creates a child-swallowing manta-ray to be used for educational purposes (once described as *Dilbert meets Gormenghast*). In "Three Days in a Border Town," a sharpshooter seeks the truth about her husband in an elusive floating city beyond a far-future horizon; "Errata" follows an oddly familiar writer who has marshaled a penguin, a shaman, and two pearl-handled pistols

with which to plot the end of the world. Also included are two stories original to this collection, including "The Quickening," in which a lonely child is torn between familial obligation and loyalty to a maligned talking rabbit. Chimerical and hypnotic, VanderMeer leads readers into a new literature of the imagination.

The New Weird Wildside Press LLC

A Peculiar Peril is a head-spinning epic about three friends on a quest to protect the world from a threat as unknowable as it is terrifying, from the Nebula Award-winning and New York Times bestselling author of *Annihilation*, Jeff VanderMeer. Jonathan Lambshead stands to inherit his deceased grandfather's overstuffed mansion—a veritable cabinet of curiosities—once he and two schoolmates catalog its contents. But the three soon discover that the house is filled with far more than just oddities: It holds clues linking to an alt-Earth called Aurora, where the notorious English occultist Aleister Crowley has stormed back to life on a magic-fueled rampage across a surreal, through-the-looking-glass version of Europe replete with talking animals (and vegetables). Swept into encounters with allies more unpredictable than

enemies, Jonathan pieces together his destiny as a member of a secret society devoted to keeping our world separate from Aurora. But as the ground shifts and allegiances change with every step, he and his friends sink ever deeper into a deadly pursuit of the profound evil that is also chasing after them.
