Dieses Buch geht der Frage nach: Was ist der Unterschied zwischen einer Luxusmarke und einer Premiummarke? Verena König erklärt erstmals die unterschiedlichen Markenprinzipien von Luxus- und Premiummarken an Hand ihres DIVA-Konzepts für Luxusmarken und ihres STAR-Konzepts für Premiummarken. Dabei geht sie auf die Besonderheiten der strategischen und der operativen Führung von Luxus- und Premiummarken ein. Zur Unterstützung gibt sie zahlreiche Tipps, wie man eine Luxusmarke oder eine Premiummarke aufbauen kann. Zur Veranschaulichung tragen verschiedene Fallbeispiele (z. B. Farrow & Ball, DURAVIT, Rolex, Land Rover) bei. Der Inhalt - Strategische Grundlagen und Positionierung - Produktmanagement - Preismanagement - Online- und Offline-Vertrieb und Verkaufsförderung - Kommunikation (Werbung, PR, Event Management, Social Media) - Controlling Power: Die 48 Gesetze der Macht Jones & Bartlett Learning Bildung auf einen Blick - OECD-Indikatoren ist die maßgebliche Quelle für Informationen zum Stand der Bildung weltweit. Die Publikation bietet Daten zu den Strukturen, der Finanzierung und der Leistungsfähigkeit der Bildungssysteme der einzelnen OECD-Länder sowie einer Reihe von Partnerländern. Bildung auf einen Blick 2020 hat u. a. einen Schwerpunkt auf der beruflichen Ausbildung. Untersucht werden die Teilnahme an beruflicher Bildung in den verschiedenen Bildungsbereichen, die Arbeitsmarktergebnisse und sozialen Auswirkungen für Absolventen beruflicher Ausbildungsgänge sowie die in berufsbildende Bildungseinrichtungen investierten Human- und Finanzressourcen.

Utilitarismus The Nuts and Bolts of Cardiac Pacing

With contributions from leading authorities, this is the definitive guide to current criminological theory, research, and policy. The Oxford Handbook of Criminology provides a comprehensive collection of chapters covering the core and emerging topics studied on criminology courses, indispensable to students,

academics, and professionals alike. 43 chapters written by over 85 leading academics exploring relevant theory, cutting-edge research, policy developments, and current debates, encouraging students to appreciate the diverse and interdisciplinary nature of criminological discourse. Includes detailed references to aid further research. Chapters updated to reflect recent cases, statistics, and scholarship, as well as significant current events such as Covid-19 and social justice movements. New chapters added presenting research on topical issues including victimology, hate crime, desistance, cybercrime, atrocity crimes, convict criminology, security and smart cities, prison abolitionism, comparative criminology, sex offending, and network criminology. Digital formats and resources The seventh edition is available for students and institutions to purchase in a variety of formats, and is supported by online resources. The book offers a mobile experience and convenient access along with functionality tools, navigation features and links that offer extra learning support: www.oxfordtextbooks.co.uk/ebooks The accompanying online resources include essay questions and links to useful websites for each chapter, along with guidance on answering essay questions and access to chapters from previous editions.

Bildung auf einen Blick 2019 OECD-Indikatoren Carl Hanser Verlag GmbH Co KG

This book combines multidisciplinary studies on the environmental consequences of intensified use of land and water, and the fusion of land to provide food for a growing population. Studies on water, vegetation, and soil are addressed from an environmental management perspective with a special focus on the relation between natural elements and humans. This book considers the essential dynamics of humans and the natural environment, which is especially important in areas with shallow water-table that influence directly on agricultural activities (crops, livestock, and forests), land management, flooding, droughts, waterlogging, salt-affected soils (saline and sodic) and variation in obtained water quality in wells where these processes as related to the local and regional geomorphology control. The studies present hydrological processes towards the definition of an adequate use of soil and water with consequences of its

management on the environment. Also, water study procedures are presented as well as their relation to other elements of the landscape. Methodologies such as the Tóthian flow system concept are recognized by different authors to provide the reader with solid interdisciplinary analyses of related environmental components such as soils, vegetation, surface water, geomorphology, geological framework and groundwater physical-chemical composition.

Bildung auf einen Blick 2020: OECD-Indikatoren Bushra Arshad

Mein Kampf ist eine politisch-ideologische Programmschrift Adolf Hitlers. Sie erschien in zwei Teilen. Hitler stellte darin seinen Werdegang zum Politiker und seine Weltanschauung dar. Das Buch enthält Hitlers Autobiografie, ist in der Hauptsache aber eine Kampf- und Propagandaschrift, die zum Neuaufbau der NSDAP als zentral gelenkter Partei unter Hitlers Führung dienen sollte. Der erste Band entstand nach dem gescheiterten Putsch am 9. November 1923 gegen die Weimarer Republik während der folgenden Festungshaft Hitlers 1924 und wurde erstmals am 18. Juli 1925, der zweite am 11. Dezember 1926 veröffentlicht.[1] Vor allem der erste Band wurde bis 1932 zu einem viel diskutierten Bestseller.

Schwerverletztenversorgung OECD Publishing

The scope of this book is to map China's city clusters and their individual directions for the national-level strategies in line with the 2060 carbon neutrality plan. Since China announced the carbon neutrality plan in autumn 2020, no study has looked at the role of city clusters in achieving this long-term plan. Hence, this study is believed to be the first attempt to explore this important topic from the city cluster perspective. It explores the challenges, opportunities, and directions of all 19 city clusters, allowing readers to have a clear picture of China's historical and ongoing progress, as well as the challenges and opportunities that lie ahead. In a short time, China's city clusters have helped boost regional economic development, infrastructure development, trade and business, and better urban-rural integration. With enhanced coordination of connection and transport networks in and between the city clusters, we see a growing number of initiatives beyond just the initial economic strategies. The dual approach of top-down policies and infrastructure systems and

bottom-up governance and investments has helped China consider urban-rural development strategies and regional sustainable development. These factors are essential to be explored from the city cluster perspective and in line with China's sustainable development and carbon neutrality directions. Hence, the book covers these points holistically, ensuring that regional planning and development are favored in the face of uneven urbanization trends. We anticipate this book to be a valuable resource for local governments and authorities, urban planners and practitioners, developers, and urban researchers. While the focus is on China's city clusters, we believe there are similar examples elsewhere. Hence, lessons learnt from this book could apply to other countries, regions, and subregions. Lastly, the book aims to put regional sustainable development at the heart of longer-term strategies and plans, such as the case of China's carbon neutrality plan.

The Book O Level Biology Lecture Notes PDF Download (IGCSE/GCSE Biology eBook 2023-24): Textbook Notes Chapter 1-20 & Class Questions and Answers (Class 9-10 Biology PDF Notes & Online Books Download) includes worksheets to solve problems with hundreds of class questions. "O Level Biology Lecture Notes Chapter 1-20" PDF book covers basic concepts and analytical assessment tests. O Level Biology Notes PDF book helps to practice workbook questions from exam prep notes. O Level Biology Textbook PDF Notes with answers key includes study material with verbal, quantitative, and analytical past papers quiz questions. O Level Biology Questions and Answers PDF Download, a book to review practice questions and answers on chapters: Biotechnology, co-ordination and response, animal receptor organs, hormones and endocrine glands, nervous system in mammals, drugs, ecology, effects of human activity on ecosystem, excretion, homeostasis, microorganisms and applications in biotechnology, nutrition in general, nutrition in mammals, nutrition in plants, reproduction in plants, respiration, sexual reproduction in animals, transport in mammals, transport of materials in flowering plants, enzymes and what is biology tests for school and college revision guide. O Level Biology Notes PDF Download, free eBook's sample covers beginner's questions, textbook's study notes to practice worksheets. The eBook IGCSE GCSE Biology Notes Chapter 1-20 PDF includes high school

question papers to review workbook for exams. O Level Biology Study Guide, a textbook revision guide with chapters' notes for IGCSE/NEET/MCAT/MDCAT/SAT/ACT competitive exam. O Level Biology Class Notes PDF digital edition eBook to review problem solving exam tests from biology practical and textbook's chapters as: Chapter 1: Biotechnology Notes Chapter 2: Animal Receptor Organs Notes Chapter 3: Hormones and Endocrine Glands Notes Chapter 4: Nervous System in Mammals Notes Chapter 5: Drugs Notes Chapter 6: Ecology Notes Chapter 7: Effects of Human Activity on Ecosystem Notes Chapter 8: Excretion Notes Chapter 9: Homeostasis Notes Chapter 10: Microorganisms and Applications in Biotechnology Notes Chapter 11: Nutrition in General Notes Chapter 12: Nutrition in Mammals Notes Chapter 13: Nutrition in Plants Notes Chapter 14: Reproduction in Plants Notes Chapter 15: Respiration Notes Chapter 16: Sexual Reproduction in Animals Notes Chapter 17: Transport in Mammals Notes Chapter 18: Transport of Materials in Flowering Plants Notes Chapter 19: Enzymes Notes Chapter 20: What is Biology Notes Study Biotechnology Notes PDF, book chapter 1 lecture notes with class questions: Branches of biotechnology and introduction to biotechnology. Study Animal Receptor Organs Notes PDF, book chapter 2 lecture notes with class questions: Controlling entry of light, internal structure of eye, and mammalian eye. Study Hormones and Endocrine Glands Notes PDF, book chapter 3 lecture notes with class questions: Glycogen, hormones, and endocrine glands thyroxin function. Study Nervous System in Mammals Notes PDF, book chapter 4 lecture notes with class questions: Brain of mammal, forebrain, hindbrain, central nervous system, meningitis, nervous tissue, sensitivity, sensory neurons, spinal cord, nerves, spinal nerves, voluntary, and reflex actions. Study Drugs Notes PDF, book chapter 5 lecture notes with class questions: Anesthetics and analgesics, cell biology, drugs of abuse, effects of alcohol, heroin effects, medical drugs, antibiotics, pollution, carbon monoxide, poppies, opium and heroin, smoking related diseases, lung cancer, tea, coffee, and types of drugs. Study Ecology Notes PDF, book chapter 6 lecture notes with class questions: Biological science, biotic and abiotic environment, biotic and abiotic in ecology, carbon cycle, fossil fuels, decomposition, ecology and environment, energy types in ecological pyramids, food chain and web, glucose formation, habitat specialization due to salinity, mineral salts, nutrients,

parasite diseases, parasitism, malarial pathogen, physical environment, ecology, water, and pyramid of energy. Study Effects of Human Activity on Ecosystem Notes PDF, book chapter 7 lecture notes with class questions: Atmospheric pollution, carboxyhemoglobin, conservation, fishing grounds, forests and renewable resources, deforestation and pollution, air and water pollution, eutrophication, herbicides, human biology, molecular biology, pesticides, pollution causes, bod and eutrophication, carbon monoxide, causes of pollution, inorganic wastes as cause, pesticides and DDT, sewage, smog, recycling, waste disposal, and soil erosion. Study Excretion Notes PDF, book chapter 8 lecture notes with class questions: Body muscles, excretion, egestion, formation of urine, function of ADH, human biology, kidneys as osmoregulators, mammalian urinary system, size and position of kidneys, structure of nephron, and ultrafiltration. Study Homeostasis Notes PDF, book chapter 9 lecture notes with class questions: Diabetes, epidermis and homeostasis, examples of homeostasis in man, heat loss prevention, layers of epidermis, mammalian skin, protein sources, structure of mammalian skin and nephron, ultrafiltration, and selective reabsorption. Study Microorganisms and Applications in Biotechnology Notes PDF, book chapter 10 lecture notes with class questions: Biotechnology and fermentation products, microorganisms, antibiotics: penicillin production, fungi: mode of life, decomposers in nature, parasite diseases, genetic engineering, viruses, and biochemical parasites. Study Nutrition in General Notes PDF, book chapter 11 lecture notes with class questions: Amino acid, anemia and minerals, average daily mineral intake, balanced diet and food values, basal metabolism, biological molecules, biological science, fats, body muscles, carbohydrates, cellulose digestion, characteristics of energy, condensation reaction, daily energy requirements, disaccharides and complex sugars, disadvantages of excess vitamins, disease caused by protein deficiency, energy requirements, energy units, fat rich foods, fats and health, fructose and disaccharides, functions and composition, general nutrition, glucose formation, glycerol, glycogen, health pyramid, heat loss prevention, human heart, hydrolysis, internal skeleton, lactose, liver, mineral nutrition in plants, molecular biology, mucus, nutrients, nutrition vitamins, glycogen, nutrition, protein sources, proteins, red blood cells and hemoglobin, simple carbohydrates, starch, starvation and muscle waste, structure

and function, formation and test, thyroxin function, vitamin deficiency, vitamins, minerals, vitamin D, weight reduction program, and nutrition. Study Nutrition in Mammals Notes PDF, book chapter 12 lecture notes with class questions: Adaptations in small intestine, amino acid, bile, origination and functions, biological molecules, fats, caecum and chyle, cell biology, digestion process, function of assimilation, pepsin, trypsinogen, function of enzymes, functions and composition, functions of liver, functions of stomach, gastric juice, glycerol, holozoic nutrition, liver, mammalian digestive system, molecular biology, mouth and buccal cavity, esophagus, proteins, red blood cells and hemoglobin, stomach and pancreas, structure and function and nutrition. Study Nutrition in Plants Notes PDF, book chapter 13 lecture notes with class questions: Amino acid, carbohydrate, conditions essential for photosynthesis, digestion process, function of enzyme, pepsin, function of enzymes, glycerol, holozoic nutrition, leaf adaptations for photosynthesis, limiting factors, mineral nutrition in plants, mineral salts, molecular biology, photolysis, photons in photosynthesis, photosynthesis in plants, photosynthesis, starch, stomata and functions, storage of excess amino acids, structure and function, structure of lamina, formation and test, vitamins and minerals, water transport in plants, and nutrition. Study Reproduction in Plants Notes PDF, book chapter 14 lecture notes with class questions: Transport in flowering plants, artificial methods of vegetative reproduction, asexual reproduction, dormancy and seed germination, epigeal and hypogeal germination, fertilization and post fertilization changes, insect pollination, natural vegetative propagation in flowering plants, ovary and pistil, parts of flower, pollination in flowers, pollination, seed dispersal, dispersal by animals, seed dispersal, sexual and asexual reproduction, structure of a wind pollinated flower, structure of an insect pollinated flower, types of flowers, vegetative reproduction in plants, wind dispersed fruits and seeds, and wind pollination. Study Respiration Notes PDF, book chapter 15 lecture notes with class questions: Aerobic respiration and waste, biological science, human biology, human respiration, molecular biology, oxidation and respiration, oxygen debt, tissue respiration, gas exchange, breathing, and respiration. Study Sexual Reproduction in Animals Notes PDF, book chapter 16 lecture notes with class questions: Features of sexual reproduction in animals, and male reproductive system. Study

Transport in Mammals Notes PDF, book chapter 17 lecture notes with class questions: Acclimatization to high attitudes, anemia and minerals, blood and plasma, blood clotting, blood platelets, blood pressure testing, blood pressures, carboxyhemoglobin, circulatory system, double circulation in mammals, function and shape of RBCS, heart, human biology, human heart, main arteries of body, main veins of body, mode of action of heart, organ transplantation and rejection, production of antibodies, red blood cells, hemoglobin, red blood cells in mammals, role of blood in transportation, fibrinogen, and white blood cells. Study Transport of Materials in Flowering Plants Notes PDF, book chapter 18 lecture notes with class questions: Transport in flowering plants, cell biology, cell structure and function, epidermis and homeostasis, functions and composition, herbaceous and woody plants, mineral salts, molecular biology, piliferous layer, stomata and functions, structure of root, sugar types, formation and test, water transport in plants, and transpiration. Study Enzymes Notes PDF, book chapter 19 lecture notes with class questions: Amino acid, biological science, characteristics of enzymes, classification of enzymes, denaturation of enzymes, digestion process, digestion, catalyzed process, effects of pH, effects of temperature, enzymes, factors affecting enzymes, hydrolysis, rate of reaction, enzyme activity, and specificity of enzymes. Study What is Biology Notes PDF, book chapter 20 lecture notes with class questions: Biology basics, cell biology, cell structure, cell structure and function, cells, building blocks of life, tissues, excretion, human respiration, red blood cells and hemoglobin, sensitivity, structure of cell and protoplasm, centrioles, mitochondrion, nucleus, protoplasm, vacuoles, system of classification, vitamins, minerals and nutrition.

Modern Management of Cancer of the Rectum Springer-Verlag

Modern Management of Cancer of the Rectum provides a comprehensive overview of all aspects of rectal neoplasms. It addresses such topics as epidemiology, biology, screening and chemoprevention, the role of imaging in diagnosis, staging and prognosis, radiation therapy, medical and surgical treatment, as well as new modalities of therapy, including laparoscopy, and transanal endoscopic surgery. A greater understanding of prognostic factors, patterns of spread and natural history has occurred during the past decade; together with new diagnostic

modalities, this has led to significant changes in the management of patients with rectal cancer.

Atlas of Human Anatomy Lippincott Williams & Wilkins

Als Amerika noch höflich war Was der erste amerikanische Präsident als Dreizehnjähriger schon wusste: Höflichkeit kommt nie aus der Mode. In diesem Fundstück aus dem 18. Jahrhundert kombiniert er auf originelle Weise Benimmratgeber mit philosophischen Lebensweisheiten. Washington, der in jungen Jahren noch mit der Rechtschreibung kämpfte, schrieb über Tischmanieren, das Verhalten im Gespräch und persönliche Charakterpflege. Nicht zuletzt dem einen oder anderen amtierenden Präsidenten würde dieses Buch guttun! »In der Gegenwart anderer sollst du nicht vor dich hin summen, mit den Fingern trommeln oder mit den Füßen den Takt schlagen.« (Nr. 4) »Entledige dich nicht deiner Kleidung, wenn andere dabei sind, und verlasse die Garderobe nicht nur halb bekleidet.« (Nr. 7) »Deine Miene sei angenehm, sollte aber den nötigen Ernst zeigen, wenn es um ernste Dinge geht.« (Nr. 19)

Lecture Notes: Class 8-12 Biology PDF Book (Grade 8-12 Biology eBook Download) Simon and Schuster

The ultimate challenge for the truly fearless crossword aficionado, this puzzle book presents 225 crosswords selected from Simon & Schuster's prestigious crossword puzzle series.

The Oxford Handbook of Criminology Deutscher Taschenbuch Verlag

MRI of the Upper Extremity is a complete guide to MRI evaluation of shoulder, elbow, wrist, hand, and finger disorders. This highly illustrated text/atlas presents a practical approach to MRI interpretation, emphasizing the clinical correlations of imaging findings. More than 1,100 MRI scans show normal anatomy and pathologic findings, and a full-color cadaveric atlas familiarizes readers with anatomic structures seen on MR images. Coverage of each joint begins with a review of MRI anatomy with cadaveric correlation and proceeds to technical MR imaging considerations and clinical assessment. Subsequent chapters thoroughly describe and illustrate MRI findings for specific disorders, including rotator cuff disease, nerve entrapment syndromes, osteochondral bodies, and triangular fibrocartilage disorders. Katechismus der Katholischen Kirche History Books

There has been a recent surge of interest within the world of endocrine surgery in the US and worldwide with resultant

significant changes on the way surgery is performed. Where before a 5-7 year period was taken for a general surgeon, after which the medic would take a 1 year residency then a fellowship, now they are looking at 3 years core surgery and then going straight to specialise, opening up the discipline to more people. The book is a valuable tool for those revising for board examinations and Fellowship examinations. The text, compiled by expert authors from the USA, Europe and Asia, provides an international perspective on the basic knowledge and clinical management.

Lecture Notes: O Level Biology PDF Book (IGCSE/GCSE Biology eBook Download) Georg Thieme Verlag

In seiner 1861 zunächst in Frazer's Magazine publizierten und zu seinen Lebzeiten in weiteren vier Auflagen vorgelegten Schrift »Utilitarianism« verteidigt John Stuart Mill das Nützlichkeitsprinzip als das grundlegende Kriterium für die Beurteilung der Moralität aller Handlungen, sei es der freien Handlungen der Individuen, sei es der Einschränkungen dieser Freiheit durch von Gesellschaft und Staat vorgegebene Regeln. Dabei geht es ihm vor allem darum, den Utilitarismus vor dem Einwand zu retten, er gebe dem hedonistischen Eigennutz Vorrang vor der ethischen Maxime einer gerechten Verteilung der Güter. So glaubt er, aus dem Prinzip des »größten Glücks der größten Zahl« ein Modell der Verteilungsgerechtigkeit ableiten zu können, das das Nützlichkeitsprinzip als das erste Prinzip der Moral erweist. Die hier in neuer deutscher Übersetzung vorgelegte Schrift gilt als das Hauptwerk der klassischen utilitaristischen Ethik.

Politik Elsevier Health Sciences

The present Dictionary is designed to meet the long-felt need of the English knowing reader, who is interested in the study of classical as well as modern Sanskrit. It covers a very large field—epics such as the Ramayana and Mahabharata, Puranas and Upapuranas, Smṛti and Niti literature, Darśanas or Systems of Philosophy, such as Nyaya, Vedānta, Mīmāṃsā, Sāṅkhya and Yoga, Grammar, Rhetoric, Poetry in all its branches, Dramatic and Narrative literature, Mathematics, Medicine, Botany, Astronomy Music and other technical or scientific branches of learning. Thus it embraces all words occurring in the general post-Vedic literature. It includes most of the important terms in Grammar. It gives quotations and references to the peculiar and remarkable meaning of words, especially such as occur in books prescribed

for study in the Indian and foreign universities. It also renders explanation of important technical terms occurring in different branches of Sanskrit learning. To add to its usefulness,

Chess Life Springer Nature

Die gesammelten Beiträge von Werner Eck erörtern unter sehr verschiedenen sachlichen Gesichtspunkten die Frage, wie die zahlreichen regionalen Gesellschaften und einzelne reichsweite Personengruppen im Imperium Romanum durch die kaiserzeitliche Politik in Religion, Sprache, Familie, Recht oder auch bei den Begräbnissitten beeinflusst wurden. Erörtert werden etwa Folgen für die Stellung und öffentliche Präsentation von Frauen, für die rechtliche und reale Lage der Soldaten römischen und peregrinen Rechts sowie für den reichsweit rekrutierten Senatorenstand. Diese Veränderungen sind engstens mit der Gestaltung und Ausweitung der kaiserlichen Administration in den Provinzen, aber auch in der Stadt Rom selbst verbunden, wobei besonderes Gewicht auf die Funktionen des Heeres gelegt wird. Eingeschlossen ist auch die Frage des Euergetismus für das Funktionieren der Städte, dem gegenüber die Leistung der Gemeinden allzu oft unterschätzt wird. Die Beiträge sind unter Berücksichtigung neuer Quellen soweit nötig und möglich auf neuen Stand gebracht worden.

lecture notes with class questions: excretion in mammals, what is excretion. Study Transport in Mammals Notes PDF, book chapter 20 lecture notes with class questions: blood, circulatory system, double circulation in mammals, double circulations in mammals, sat study guide.

Saunders W.B.

A acupuntura é o conjunto de conhecimentos da medicina chinesa tradicional que visa o restabelecimento da saúde por meio da aplicação de agulhas e de moxas, além do uso de outras técnicas. Surgida na China há aproximadamente 4.500 anos, a acupuntura continua sendo um campo aberto à pesquisa e a novos conhecimentos, embora as descobertas mais recentes demonstrem que suas antigas fórmulas e princípios ainda não foram superados. Desse modo, aqueles que a praticam devem compenetrar-se da sua importância e estudar e assimilar perfeitamente seus ensinamentos. Nessa obra de extrema importância na bibliografia sobre o assunto, o dr. Tom Sintan Wen - médico formado nas medicinas ocidental e oriental, dedicado à pesquisa e à prática nos campos da neurocirurgia, fisioterapia e acupuntura, e com experiência acumulada nesses dois tipos de medicina, - disponibiliza as milenares técnicas dessa arte de cura, bem como a aplicação as vantagens do seu uso, tendo sempre em vista as atuais conquistas da medicina tradicional. Um manual que preencherá uma importante lacuna na bibliografia sobre o tema publicada no Brasil.

The Nuts and Bolts of Cardiac Pacing Saint-Paul

A scientific publication system needs to provide two basic services: access and evaluation. The traditional publication system restricts the access to papers by requiring payment, and it restricts the evaluation of papers by relying on just 2-4 pre-publication peer reviews and by keeping the reviews secret. As a result, the current system suffers from a lack of quality and transparency of the peer-review evaluation process, and the only immediately available indication of a new paper's quality is the prestige of the journal it appeared in. Open access is now widely accepted as desirable and is slowly beginning to become a reality. However, the second essential element, evaluation, has received less attention. Open evaluation, an ongoing post-publication process of transparent peer review and rating of papers, promises to address the problems of the current system. However, it is unclear how exactly such a system should be designed. The

evaluation system steers the attention of the scientific community and, thus, the very course of science. For better or worse, the most visible papers determine the direction of each field and guide funding and public policy decisions. Evaluation, therefore, is at the heart of the entire endeavor of science. As the number of scientific publications explodes, evaluation and selection will only gain importance. A grand challenge of our time, therefore, is to design the future system, by which we evaluate papers and decide which ones deserve broad attention. So far scientists have left the design of the evaluation process to journals and publishing companies. However, the steering mechanism of science should be designed by scientists. The cognitive, computational, and brain sciences are best prepared to take on this task, which will involve social and psychological considerations, software design, and modeling of the network of scientific papers and their interrelationships. This Research Topic in *Frontiers in Computational Neuroscience* collects visions for a future system of open evaluation. Because critical arguments about the current system abound, these papers will focus on constructive ideas and comprehensive designs for open evaluation systems. Design decisions include: Should the reviews and ratings be entirely transparent, or should some aspects be kept secret? Should other information, such as paper downloads be included in the evaluation? How can scientific objectivity be strengthened and political motivations weakened in the future system? Should the system include signed and authenticated reviews and ratings? Should the evaluation be an ongoing process, such that promising papers are more deeply evaluated? How can we bring science and statistics to the evaluation process (e.g. should rating averages come with error bars)? How should the evaluative information about each paper (e.g. peer ratings) be combined to prioritize the literature? Should different individuals and organizations be able to define their own evaluation formulae (e.g. weighting ratings according to different criteria)? How can we efficiently transition toward the future system? Ideally, the future system will derive its authority from a scientific literature on community-based open evaluation. We hope that these papers will provide a starting point.

Beyond open access: visions for open evaluation of scientific papers by post-publication peer review Felix Meiner Verlag
Dieses Grundlagenwerk der Schwertkunst ist eine klassische

Anleitung für strategisches Handeln: Entscheidend für eine erfolgreiche Umsetzung von Miyamoto Musashis Weisheiten ist nicht die Technik, sondern die innere Haltung, geprägt durch Entspannung, Offenheit und Klugheit des Herzens. Musashi zeigt in zahlreichen anschaulichen Beispielen und Geschichten, wie kluges strategisches Handeln auch in der heutigen Berufs- und

Arbeitswelt zum Erfolg führt.

Biblische Dogmatik Walter de Gruyter GmbH & Co KG
Als im Jahr 1993 der "Weltkatechismus" in deutscher Sprache erschien, stand er bald im Mittelpunkt des Interesses der Medien und einer breiten Öffentlichkeit. Die vorliegende Neuauflage beruht nunmehr auf der lateinischen Fassung und ist künftig der maßgebende Text. Dieser bietet einige redaktionelle Änderungen

inhaltlicher Art. Sie betreffen unter anderem die Reichweite des kirchlichen Lehramts, den Begriff der lässlichen Sünde, die Heiligung des Sonntags, Homosexualität, Unauflöslichkeit der Ehe, Organverpflanzung und Todesstrafe. Zudem wurden die Quellenhinweise, das Register der zitierten Stellen und das Sachregister stark erweitert.
