This collection was taken at a time just prior to major changes in the boarding house conditions and the general modernisation of facilities at many of the schools, brought about by a more competitive market, plus the introduction of girls into these once male dominated institutions. This title is a unique insight into the life within 25 of Britain's leading boy's public schools just before they changed forever.

'A great read and a fascinating insight into performance.' Sir Clive Woodward We all want to discover our hidden talents and make an impact with them. But how? Rasmus

Ankersen, an ex-footballer and performance specialist, quit his job and for six intense months lived with the world's best athletes in an attempt to answer this question. Why have the best middle distance runners grown up in the same Ethiopian village? Why are the leading female golfers from South Korea? How did one athletic club in Kingston, Jamaica, succeed in producing so many world-class sprinters? Ankersen presents his surprising conclusions in seven lessons on how anyone - or any business, organisation or team - can defy the many misconceptions of high performance and learn to build their own gold mine of real talent.

Italia '90 was the best and worst of World Cups. It made a global star of England's inspirational Paul Gascoigne and gave fresh confidence to English football but it was also the lowest-scoring of all World Cups, leading directly to the back-pass ban that transformed the sport. World In Motion travels from Africa to South America, via Europe and the Middle East, to hear from the protagonists of Italia '90 and find out why it is still seen as a special and transformative moment, not just in English eyes but in

other countries far and wide. It was a World Cup of firsts - from Cameroon's quarter-final trail-blazers via the feats of newcomers like the Republic of Ireland and Costa Rica - but a tournament too which marked the last hurrah of the old footballing powers of the Eastern Bloc amid the collapse of the Iron Curtain. It began with the biggest shock of any opening game, as nine-man Cameroon beat Argentina, and it ended with the worst final of all, as West Germany beat nine-man Argentina with a much-disputed penalty. In between it gave us a big spectacle, a winning soundtrack and some unforgettable storylines. World In Motion speaks to players and coaches,

referees and administrators, reporters and fans to gauge the full impact of football's dramatic Italian summer – including meeting Roger Milla at his home in Cameroon and Totò Schillaci at his football school in Sicily. In the process it rediscovers a time when the game stood on the brink of change, with the Premier League and Champions League on the horizon, yet the World Cup remained a thrilling voyage of discovery – a land of novelties, from Fair Play flags to fan embassies to that first-ever penalty shoot-out heartbreak for England ...

“An outstanding work ... the [soccer] book of the decade.” —Sunday Business Post  
Inverting the Pyramid is a pioneering soccer book that chronicles the evolution of soccer tactics and the lives of the itinerant coaching geniuses who have spread their distinctive styles across the globe.

Through Jonathan Wilson's brilliant historical detective work we learn how the South Americans shrugged off the British colonial order to add their own finesse to the game; how the Europeans harnessed individual technique and built it into a team structure; how the game once featured five forwards up front, while now a lone striker is not uncommon. Inverting the Pyramid provides a definitive understanding of the tactical genius of modern-day Barcelona, for the first time showing how their style of play developed from Dutch “Total Football,” which itself was an evolution of the Scottish passing game invented by Queens Park in the 1870s and

taken on by Tottenham Hotspur in the 1930s. Inverting the Pyramid has been called the “Big Daddy” (Zonal Marking) of soccer tactics books; it is essential for any coach, fan, player, or fantasy manager of the beautiful game

“A beautiful story, expertly told.” —Per Mertesacker, Arsenal defender and member of the German national team, winners of the 2014 World Cup

Estádio do Maracanã, July 13, 2014, the last ten minutes of extra time in the World Cup Final: German forward Mario Götze jumps to meet a floated pass from André Schürrle, cushions the ball with his chest, and in one

fluid motion volleys the ball past the onrushing Argentine goalkeeper into the far corner of the net. The goal wins Germany the World Cup for the first time in almost thirty years. As the crowd roars, Götze looks dazed, unable to comprehend what he has done. In *Das Reboot*, Raphael Honigstein charts the return of German soccer from the dreary functionality of the late 1990s to Götze's moment of sublime, balletic genius and asks: How did this come about? The answer takes him from California to Stuttgart, from Munich to the Maracanã, via Dortmund and Amsterdam. Packed with exclusive interviews with key figures, including Jürgen Klinsmann,

Thomas Müller, Oliver Bierhoff, and many more, Honigstein's book reveals the secrets of German soccer's success.
