The 96th Pennsylvania Volunteers infantry regiment was formed in 1861--its ranks filled by nearly 1,200 Irish and German immigrants from Schuylkill County

responding to Lincoln's call for troops. The men saw action for three years with the Army of the Potomac's VI Corps, participating in engagements at Gaines' Mill, Crampton's Gap, Salem Church and Spotsylvania. Drawing on letters, diaries, memoirs and other accounts, this comprehensive history documents their combat service from the point of view of the rank-and-file soldier, along with their views on the war, slavery, emancipation and politics.

Few of us have been spared the agonies of intimate relationships. They come in many shapes: loving a man or a woman who will not commit to us, being heartbroken when we're abandoned by a lover, engaging in Sisyphean internet searches, coming back lonely from bars,

parties, or blind dates, feeling bored in a relationship that is so much less than we had envisaged - these are only some of the ways in which the search for love is a difficult and often painful experience. Despite the widespread and almost collective character of these experiences, our culture insists they are the result of faulty or insufficiently mature psyches. For many, the Freudian idea that the family designs the pattern of an individual's erotic career has been the main

explanation for why and how we fail to find or sustain love. Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives. The purpose of this book is to change our way of thinking about what is wrong in modern relationships. The problem is not dysfunctional childhoods or insufficiently self-aware psyches, but rather the

institutional forces shaping how we love. The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice. The samples from which men and women choose a partner, the modes of evaluating prospective partners, the very importance of choice and autonomy and what people imagine to be the spectrum of their choices: all these aspects of choice have transformed the

very core of the will, how we want a partner, the sense of worth bestowed by relationships, and the organization of desire. This book does to love what Marx did to commodities: it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors.

The classic novel of a small Minnesota town—and of one school teacher who calls it home
This utterly charming, deeply poignant debut remains perhaps the signature achievement of beloved novelist Jon Hassler—once hailed by The New York Times as “a writer good enough to restore your faith in

fiction.” It’s the story of a week in the life of Miles Pruitt, a thirty-five-year-old bachelor who teaches high school English in Staggerford, Minnesota. And though it is only a week, it’s an extraordinary week, filled with the poetry of living, the sweetness of expectation, and the glory of surprise that can change a life forever. Praise for Staggerford “Witty, intelligent, compassionate . . . an absolutely smashing first novel.”—The Plain Dealer “You’ll remember it for a

long time.”—The Minneapolis Tribune “One of the year’s truly freshly conceived and carried out novels, one whose not always so gentle ironies address themselves to a broader range of life than is to be found in Staggerford, Minnesota.”—The Kansas City Star “A thoroughly convincing X-ray vision of small-town life . . . so sincere, so true, so honest with itself, and so very, very funny that a reader often has to wipe the tears out of the corners of his eyes before he

can—as he must—read on.”—The Houston Post “Very entertaining . . . [Miles is] one of the most likable protagonists of modern fiction.”—The Pittsburgh Press “Staggerford, Minnesota, is a town out of control. It is as weird and convoluted as any lover of comic fiction could wish.”—Boston Herald American

From Thomas Jefferson to John Rawls, justice has been at the center of America's self-image and national creed. At the same time, for many of its peoples—from African slaves and European immigrants to women and the poor—the American experience has been defined by injustice: oppression, disenfranchisement,

violence, and prejudice. In *Identity and the Failure of America*, "John Michael explores the contradictions between a mythic national identity promising justice to all and the realities of a divided, hierarchical, and frequently iniquitous history and social order. Through a series of insightful readings, Michael analyzes such cultural moments as the epic dramatization of the tension between individual ambition and communal complicity in *Moby-Dick*, "attempts to

effect social change through sympathy in the novels of Lydia Marie Child and Harriet Beecher Stowe, Ralph Waldo Emerson's antislavery activism and Frederick Douglass's long fight for racial equity, and the divisive figures of John Brown and Nat Turner in American letters and memory. Focusing on exemplary instances when the nature of the United States as an essentially conflicted nation turned to force, Michael ultimately posits the development of a

more cosmopolitan American identity, one that is more fully and justly imagined in response to the nation's ethical failings at home and abroad. John Michael is professor of English and of visual and cultural studies at the University of Rochester. He is the author of *Anxious Intellectuals: Academic Professionals, Public Intellectuals, and Enlightenment Values and Emerson "and Skepticism: The Cipher of the World."*

Family and home are one word--jia--in the Chinese language. Family can be separated and home may be relocated, but jia remains intact. It signifies a system of mutual obligation, lasting

responsibility, and cultural values. This strong yet flexible sense of kinship has enabled many Chinese immigrant families to endure long physical separation and accommodate continuities and discontinuities in the process of social mobility. Based on an analysis of over three thousand family letters and other primary sources, including recently released immigration files from the National Archives and Records Administration, Haiming Liu presents a remarkable transnational

history of a Chinese family from the late nineteenth century to the 1970s. For three generations, the family lived between the two worlds. While the immigrant generation worked hard in an herbalist business and asparagus farming, the younger generation crossed back and forth between China and America, pursuing proper education, good careers, and a meaningful life during a difficult period of time for Chinese Americans. When social instability in China and

hostile racial environment in America prevented the family from being rooted in either side of the Pacific, transnational family life became a focal point of their social existence. This well-documented and illustrated family history makes it clear that, for many Chinese immigrant families, migration does not mean a break from the past but the beginning of a new life that incorporates and transcends dual national boundaries. It convincingly shows how

transnationalism has become a way of life for Chinese American families.
