Winner of the 2011 George Orwell Award. One of The Atlantic's top psychology books of 2011. As human beings, we've always told stories: stories about who we are, where we come from, and where we're going. Now imagine that one of those stories is taking over the others, narrowing our diversity and creating a monoculture. Because of the rise of the economic story, six areas of your world - your work, your relationships with others and the environment, your community, your physical and spiritual health, your education, and your creativity - are changing, or have already changed, in subtle and not-so-subtle ways. And because how you think shapes how you act, the monoculture isn't just changing your mind - it's changing your life. In *Monoculture*, F.S. Michaels draws on extensive research and makes surprising connections among disciplines to take a big-picture look at how one story is changing everything. Her research and writing have been supported by the Social Sciences and Humanities Research Council of Canada, the Killam Trusts, and regional and municipal arts councils. Michaels has an MBA, and lives and writes in British Columbia.

Described by Virginia Woolf herself as 'easily the best of my books', and by her husband Leonard as a 'masterpiece', *To the Lighthouse*, first published in 1927, is one of the milestones of Modernism. Set on the Isle of Skye, over a decade spanning the First World War, the narrative centres on the Ramsay family, and is framed by Mrs Ramsay's promise to take a trip to the lighthouse the next day - a promise which isn't to be fulfilled for a decade. Flowing from character to character and from year to year, the novel paints a moving portrait of love, loss and perception. Bearing all the hallmarks of Woolf's prose, with her delicate handling of the complexities of human relationships, *To the Lighthouse* has earned its reputation - frequently appearing in lists of the best novels of the twentieth century, it has lost not an iota of brilliance.

“Know Thy Enemy” Sun Tsu, The Art of War Understanding what your opponent is planning to do or trying to accomplish is one of the core skills required to take your game to the next level. Viktor Kortchnoi once wrote, Well, if you do not check what your opponent is doing, you will end up complaining about bad luck after every game. This book consists of four chapters, all associated with the ability to think not only for yourself, but also for your opponent, to put yourself in his place. In this book, renowned author and chess trainer Mark Dvoretsky supplies the reader with high-quality material for independent training. Each chapter starts with a short theoretical section. Then dozens of exercises are given, from easy, even elementary, to difficult. Training your skills in searching for a move and calculating variations will help you at all stages of the game - which is why among the almost 500 exercises, there are opening, middlegame and endgame positions. Finally, the comments in the Solutions are quite detailed. Throughout the book, the author has tried to set forth the logic of the search for a solution, to show how a player can come to the right conclusions at the board. Recognizing Your Opponent’s Resources is virtually unique in chess literature. And Sun Tsu would surely have approved...

NATIONAL BESTSELLER • Provocative and illuminating essays from women at the forefront of the climate movement who are harnessing truth, courage, and solutions to lead humanity forward. “A powerful read that fills one with, dare I say . . . hope?”—The New York Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SMITHSONIAN MAGAZINE There is a renaissance blooming in the climate movement: leadership that is more characteristically feminine and more faithfully feminist, rooted in compassion, connection, creativity, and collaboration. While it’s clear that women and girls are vital voices and agents of change for this planet, they are too often missing from the proverbial table. More than a problem of bias, it’s a dynamic that sets us up for failure. To change everything, we need everyone. All We Can Save illuminates the expertise and insights of dozens of diverse women leading on climate in the United States—scientists, journalists, farmers, lawyers, teachers, activists, innovators, wonks, and designers, across generations, geographies, and race—and aims to advance a more representative, nuanced, and solution-oriented public conversation on the climate crisis. These women offer a spectrum of ideas and insights for how we can rapidly, radically reshape society. Intermixing essays with poetry and art, this book is both a balm and a guide for knowing and holding what has been done to the world, while bolstering our resolve never to give up on one another or our collective future. We must summon truth, courage, and solutions to turn away from the brink and toward life-giving possibility. Curated by two climate leaders, the book is a collection and celebration of visionaries who are leading us on a path toward all we can save. In the Shadow of Man Flatiron Books

Considered as one of the greatest short stories in the Western Canon, James Joyce’s complex narrative "The Dead", explores the intricate issues of identity and power through the lens of language, patriarchy, and imperialism. These issues are directly tied to the longstanding political turmoil of his native Ireland and the social questions of his day. Joyce’s story reveals that we often achieve what we tried to avoid by pretending to be what we are not. At 15,672 words The Dead is often considered a novella and the best of Joyce’s shorter works. James Joyce (1882–1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for Ulysses (1922), a landmark work in which the episodes of Homer’s Odyssey are paralleled in an array of contrasting literary styles, perhaps most prominent among these the stream of consciousness technique he perfected. Other major works are the short-story collection Dubliners (1914), and the novels A Portrait of the Artist as a Young Man (1916) and Finnegans Wake (1939). His complete oeuvre also includes three books of poetry, a play, occasional journalism, and his published letters.
