labor—and offers the kind of comprehensive understanding needed to discover workable solutions. *The Complete Works of Algernon Blackwood* Good Press In June of 1940, when Paris fell to the Nazis, Hitler spent a total of three hours in the City of Light—abruptly leaving, never to return. To this day, no one knows why. Kate Rees, a young American

markswoman, has been recruited by British intelligence to drop into Paris with a dangerous assignment: assassinate the Führer. Wrecked by grief after a Luftwaffe bombing killed her husband and infant daughter, she is armed with a rifle, a vendetta, and a fierce resolve. But other than rushed and rudimentary instruction, she has no formal spy training. Thrust into the red-hot center

of the war, a country girl from rural Oregon finds herself holding the fate of the world in her hands. When Kate misses her mark and the plan unravels, Kate is on the run for her life—all the time wrestling with the suspicion that the whole operation was a set-up. New York Times bestselling author Cara Black is at her best as she brings Occupation-era France to vivid life in this masterful, pulse-

pounding story about one young woman with the temerity—and drive—to take on Hitler himself.
 *Features an illustrated map of 1940s Paris as full color endpapers.

Play: Karma; a reincarnation play Algernon Blackwood (1869-1951) was an English short story writer and novelist, one of the most prolific writers of ghost stories in the history of the genre. Though Blackwood wrote a number of horror stories, his most typical work seeks less to frighten than	to induce a sense of awe. Good examples are the novels The Centaur, which climaxes with a traveler's sight of a herd of the mythical creatures; and Julius LeVallon and its sequel The Bright Messenger, which deal with reincarnation and the possibility of a new, mystical evolution in human consciousness . <u>Harper's</u> <u>Young People</u> Forgotten Books Welcome to

Pop Culture 2.0. In the 2000s, Generation eXposure, emerged from the marriage of new technology and the nation's obsession with celebrity. Social media technology, such as MySpace, YouTube, Facebook, and countless blogs, gave everyman a voice and a public persona that they could share with friends across the street or around the world. Suddenly, it was not enough to imitate Britney Spears or Paris Hilton, technology gave everyone a platform to launch their own 15 minutes of fame. The fixation on self and celebrity acted as a diversion from more serious challenges the nation faced, including President George W. Bush's War on Terror. The wars overseas sharply divided the country, after a moment of national unity after the terrorist attacks on 9/11, which took away one of the world's most recognizable buildings. The era witnessed interest rates dropping to historic lows, but later subprime became one of the most searched terms on Google as the nation teetered on recession. Big was in like never before and suddenly people nationwide could buy or build their own McMansion-a slice of the

American dream. While supersized homes and fast food meals became commonplace, the electronics and transportation advances proved that good things came in increasingly smaller packages. Apple's iPod reinvented how people interacted with music, hybrids changed thoughts on fuel efficiency as a gallon of gas topped \$3. Cell phones usage ballooned in our always on

society, while physically shrinking to the size of a deck of cards. Yes, me-centric Pop Culture 2.0, which the pundits predicted would some day arrive, burst onto the scene and ultimately transformed the way we interact with one another and the world around us. Chapters inside the latest volume in the American Popular Culture Through History series explore

various aspects of popular culture, including advertising, literature, leisure activities, music visual arts, and travel. Supplemental resources include a timeline of important events, cost comparisons, and an extensive bibliography for further reading. [Flying Rags for Glory](#) New Holland Publishers (AU) On the streets of Paris one day in July

1918, an American doughboy, Sgt. Jimmy Donovan, befriended a stray dog that he named Rags. No longer an unwanted street mutt, Rags became the mascot to the entire First Division of the American Expeditionary Force and a friend to the American troops who had crossed the Atlantic to fight. Rags was more than a scruffy face and a wagging tail, however. The little terrier mix was with

the division at the crucial battle of Soissons, at the Saint-Mihiel offensive, and finally in the blood-and-mud bath of the Meuse-Argonne, during which he and his guardian were wounded. Despite being surrounded by distraction and danger, Rags learned to carry messages through gunfire, locate broken communications wire for the Signal Corps to repair, and alert soldiers to incoming

shells, saving the lives of hundreds of American soldiers. Through it all, he brought inspiration to men with little to hope for, especially in the bitter last days of the war. From Stray Dog to World War I Hero covers Rags's entire life story, from the bomb-filled years of war through his secret journey to the United States that began his second life, one just as filled with drama and heartache. In years of

peace, Rags served as a reminder to human survivors of what held men together when pushed past their limits by the horrors of battle. Watch a book trailer.

Good Press AFTER September 11, 2001, emotions couldn't be clearly defined. There were no WORDS strong enough to justify, avenge, explain, or express the sheer magnitude of this horrifyingly unique moment in history. In this remarkable anthology, compiled by Salon.com's award-winning editorial team, Rick Moody, Janet Fitch, Caroline Knapp, and	Jeffrey Eugenides join many contemporary literary talents and reporters in giving a voice to the day that left a stunning roar of silence across America. Dread, fear, heroism, and dignity color these pages from eyewitness accounts of ordinary citizens turned rescue workers, to an escape from the World Trade Center, a report on everyday New Yorkers finding comfort in	"terror sex," and stories of miracles in the madness -- like that of a blind man led by his seeing- eye dog down eighty-seven flights of stairs to safety. Afterwords also probes the aftermath of the attacks on the nation and the world's cultural, political, and social fabric through writing ranging from an in-depth interview with controversial social critic Noam Chomsky, to a female Pakistani-

Prison officials considered him "one of the most

dangerous criminals in the United States." FBI agents hot on his trail found him "likable." At one time or another the South Africa-born soldier of fortune was a prisoner of war, explorer, African hunting adviser to Teddy Roosevelt, inventor, reporter, novelist, publicist for Joseph P. Kennedy's movie company, stockbroker, womanizer, spy, murderer, and certified lunatic.

Thanks to the classic 1945 movie *The House on 92nd Street*, he is best remembered as the central figure in a ring of thirty-three Nazi spies arrested in New York City in 1941. FBI director J. Edgar Hoover called their arrest "the greatest spy roundup in U.S. history," and their trial was one of the nation's longest and most celebrated. For Duquesne, it was the end of a forty-year adventure. *The New*

This book addresses three Roman

law principles and is based on them. It is presented in three forms, the first (Imprudencia —Dolus Malus) is a dialogue between a Caesar and his beloved praetor and is more an impressionist work on Roman legal reforms rather than a purist academic treatise. It expounds on the legal principle of Imprudencia and the consequences of unwise, injudicious, incautious, unwary, ill-considered, ill-

judged, ill-conceived, impolitic, misguided, ill-advised, thoughtless, unthinking, imprudent, shortsighted, foolish, careless, hasty, overhasty, rash, reckless, heedless, foolhardy actions in the judicial sphere. The second part is based on the Latin expression "casus belli," meaning an act or event that provokes or is used to justify war and literally that which makes a case for war.

A casus belli comes into play and involves direct offences against a nation, declaring the war. The poetical expressions explore the Indo-Greek myths, legends, thinking, and philosophies on a day-to-day basis in a normal Indo-Greek household, where Alexander the	Great is fondly known as Sikander the Great, a Sanskrit term. The final part of the book is an academic thesis presented against the death penalty in the United States of America under the Latin maxim "Jus cogens," a principle of compelling law, norm, or philosophy from which no derogation is	permitted. The paper presents the exhaustive philosophies of juris doctors (both classical, like the Roman Emperor Justinian, and modern) and why they the jurist doctors and legal scholars deem that the Death penalty must be abolished in the United States of America and the wider world.
