Strain imaging (also known as speckle-tracking echocardiography or STE) is a rapidly growing, affordable, and versatile cardiac imaging technology of great interest to clinicians in both inpatient and outpatient settings. ASE's Comprehensive Strain Imaging is the first reference designed to help you master a wide range of strain imaging/STE applications, including screening, diagnosis, treatment, and follow up. Written and edited by a team of international experts from the American Society of Echocardiography (ASE), this new resource provides the information you need to optimize imaging acquisition and analysis using this important new echocardiography method. Covers step-by-step techniques on how to use strain imaging with expert tips on nuances, pitfalls, and clinical decision making. Discusses the growing range of strain imaging applications for assessing diastolic function, atrial function, heart failure, arterial disease, valve disease, hypertrophy, and other common cardiovascular conditions. Provides up-to-date information on screening and follow up of patients who receive cardio-toxic oncologic agents during cancer treatment and evaluation of patients with cardiomyopathy, heart failure, arterial disease, valve disease, implantable pacemakers, pericardial disease, hypertrophy, ischemic disease, and chest radiation. Includes more than 150 images using the latest strain imaging technology, as well as videos that depict evaluation and monitoring of patients with cardiomyopathies. Addresses future applications, including elastography.

A genealogist's practical guide to researching family history online while avoiding inaccurate, incomplete, or misleading information. The internet has revolutionized family history research—every day new records and resources are placed online and new methods of sharing research and communicating become available. Never before has it been so easy to research family history and to gain a better understanding of who we are and where we came from. But, as British genealogist Chris Paton demonstrates in this straightforward, practical guide, while the internet is an enormous asset, it is also something to be wary of. Researchers need to take a cautious approach to the information they acquire on the web. Where did the original material come from? Has it been accurately reproduced? Why was it put online? What has been left out and what is still to come? As he leads researchers through the multitude of resources that are now accessible online with an emphasis on UK and Ireland sites, Chris Paton helps to answer these questions. He shows what the internet can and cannot do—and he warns against the various traps researchers can fall into along the way.

Global Tourist Behavior contains travel and marketing research that explores the integral global nature of tourism. The globalization of tourism has resulted in more culturally diverse travelers with different preferences, motivations, expectations, and needs, while at the same time worldwide movements toward democracy have made some locations more accessible than ever before. New diversity in global tourist behavior and the reciprocal interaction between travelers and destinations will pose new challenges and create new opportunities for tourism professionals. *Global Tourist Behavior* helps readers meet these challenges by providing unique and invaluable new research on global travel behavior as an integral component of travel and tourism marketing research. It features original, empirical research by tourism scholars representing a variety of locations worldwide, including North America, the Caribbean, Eastern Europe, Germany, Indonesia, Korea, the Netherlands, the United Kingdom, and Zambia. The geographically diverse chapters in *Global Tourist Behavior* present research on: marketing places to tourists tourists' knowledge of culture issues in

cross-cultural tourism tourism channels and distribution systems international tourism and marketing expert systems in tourism marketing management the impact of mega events health tourism. Tourism promoters, decisionmakers, and students will find the information on international travelers' preferences, expectations, motivations, images, attitudes, and choices of tour packages extremely helpful. The book can also be used as a guide for attracting international tourist business and developing appropriate marketing and management strategies for specific destinations.

The LGBT Casebook Routledge

Almost no one in the West had heard of the Hmong before National Geographic ran a cover story on the Southeast Asian ethnic group that had allied with the United States in the Vietnam War, and few knew of them before their arrival in the U.S. and other Western nations in 1975. Originating in China centuries ago, they have been known by various names—Miao, Meo, Miaozi, Meng or San Miao—some of them derogatory. The Hmong in the West are war-displaced refugees from China and Laos, though they have been misidentified as belonging to other ethnic groups. This mislabeling has caused confusion about the Hmong and their history. This book details the history of the Hmong and their journey from Eastern to Western countries, providing a clear understanding of an immigrant culture little understood by the American public. Instructors considering this book for use in a course may request an examination copy here.

Packards International Motor Car Club Czech Institute of Academic Education z.s. Transnational business people, international aid workers, and diplomats are all actors on the international stage working for organizations and groups often scrutinized by the public eye. But the very lives of these global middlemen and women are relatively unstudied. Mediating the Global takes up the challenge, uncovering the day-to-day experiences of elite foreign workers and their families living in Nepal, and the policies and practices that determine their daily lives. In this book, Heather Hindman calls for a consideration of the complex role that global middlemen and women play, not merely in implementing policies, but as objects of policy. Examining the lives of expatriate professionals working in Kathmandu, Nepal and the families that accompany them, Hindman unveils intimate stories of the everyday life of global mediators. Mediating the Global focuses on expatriate employees and families who are affiliated with international development bodies, multinational corporations, and the foreign service of various countries. The author investigates the life of expatriates while they visit recreational clubs and international schools and also examines how the

practices of international human resources management, cross-cultural communication, and promotion of flexible careers are transforming the world of elite overseas workers.

The Packages iUniverse

"A thorough and informative guide . . . with as many references to websites for Northern Irish genealogy as for the Republic of Ireland." —Who Do You Think You Are Magazine Ireland has experienced considerably more tragedy when it comes to the preservation of resources for family historians than its close neighbor Britain. Many of the nation's primary records were lost during the civil war in 1922 and through other equally tragic means. But in this new book Chris Paton, the Northern-Irish-born author of the bestselling *Tracing Your Family History on the Internet*, shows that not only has a great deal of information survived, it is also increasingly being made available online. Thanks to the pioneering efforts of the Public Record Office of Northern Ireland, the National Archives of Ireland, organizations such as FindmyPast Ireland, Ancestry.co.uk and RootsIreland, and the massive volunteer genealogical community, more and more of Ireland's historical resources are accessible from afar. As well as exploring the various categories of records that the family historian can turn to, Chris Paton illustrates their use with fascinating case studies. He fully explores the online records available from both the north and the south from the earliest times to the present day. Many overseas collections are also included, and he looks at social networking in an Irish context where many exciting projects are currently underway. His book is an essential introduction and source of reference for anyone who is keen to trace their Irish roots. "Chris Paton has produced this much-needed book for researchers tracing Irish roots, pulling together all the current online resources and expert advice into one handy guide." —Family Tree Magazine

Die Plantagen am Cooper River Courier Corporation

Colloquial Basque Specially written by an experienced teacher for self-study or class use, the course offers you a step-by-step approach to written and spoken Basque. No prior knowledge of the language is required. What makes Colloquial Basque your best choice in personal language learning? * interactive - lots of exercises for regular practice * clear - concise grammar notes * practical - useful vocabulary and pronunciation guide * complete - including answer key and special reference section. This pack contains the paperback and audio material recorded on CDs. By the end of this rewarding course you will be able to communicate confidently and effectively in a broad range of situations. These compliment the book and will help you with your pronunciation and listening skills. For the eBook and MP3 pack, please find instructions on how to access the supplementary content for this title in the Prelims section.

Antimicrobial resistance and antimicrobial alternatives Penguin

Even in today's more enlightened society, it takes courage for many lesbian, gay, bisexual, and transgender (LGBT) individuals to "come out of the closet" and embrace their sexual orientation and identity. Coming out, or facing internal and societal conflicts related to sexuality, involves a great deal of anxiety that can permeate other aspects of an LGBT individual's life -- particularly when seeking psychiatric treatment. The goal of *The LGBT Casebook* is to help clinicians, trainees, and other mental health professionals address the mental health needs of LGBT people in the context of problems these individuals face in their everyday lives, including homophobia and discrimination. *The LGBT Casebook* begins with five chapters devoted to basic concerns that affect LGBT populations, including coming out, heterosexist attitudes, the "don't ask, don't tell" mentality, legal issues, gay parenting, and sexual identity in patient-therapist relationships. In the rest of the book, clinician-authors present case studies of 20 patients with different DSM diagnoses, illuminating the impact of LGBT identity and illustrating a way of working with each presented patient. Features and benefits of *The LGBT Casebook* include: Insights into the unique problems LGBT people face in their everyday lives when compared with heterosexual individuals. Problems that are common to all LGBT individuals, such as the anxiety of being in the closet (hiding one's identity) or coming out (embracing one's identity). Practitioners with little experience in working with the LGBT population can gain a better understanding of psychiatric diagnoses within the context of an LGBT individual's everyday life. The book can be read cover-to-cover to gain insights into the full diversity of the LGBT population, or by specific chapters of interest to help with the diagnosis of a patient currently in treatment. A glossary at the back of the book defines both clinical and colloquial terms and phrases that clinicians and patients use to define themselves and their peers. While *The LGBT Casebook* is the ideal general overview and roadmap for the clinician new to treating LGBT patients, it also provides new pearls of wisdom and insights for psychiatrists, residents, medical students, nurses, and clinical social workers who are already familiar with working with the LGBT community. By introducing a diverse range of people, diagnoses, and presenting problems, it will serve as a valuable reference book for all mental health professionals when assessing and treating the mental health concerns of lesbian, gay, bisexual, and transgender patients.

Report Outskirts Press Parker, Colorado

The spellbinding account of the most complex and captivating manhunt in American history. "A true-crime masterpiece." -- Booklist (starred review) On April 3, 1996, a team of FBI agents closed in on an isolated cabin in remote Montana, marking the end of the longest and most expensive investigation in FBI history. The cabin's lone inhabitant was a former mathematics prodigy and professor who had abandoned society decades earlier. Few people knew his name, Theodore Kaczynski, but everyone knew the mayhem and death associated with his nickname: the Unabomber. For two decades, Kaczynski had masterminded a campaign of random terror, killing and maiming innocent people through bombs sent in untraceable packages. The FBI task force charged with finding the perpetrator of these horrifying crimes grew to 150 people, yet his identity remained a maddening mystery. Then, in 1995, a "manifesto" from the Unabomber was published in the *New York Times* and *Washington Post*, resulting in a cascade of tips--including the one that cracked the case. Hunting the Unabomber includes: Exclusive interviews with key law enforcement agents who attempted to track down Kaczynski, correcting the history distorted by earlier films and streaming series Never-before-told stories of inter-agency law enforcement conflicts that changed the course

of the investigation An in-depth, behind-the-scenes look at why the hunt for the Unabomber was almost shut down by the FBI *New York Times* bestselling author and former federal prosecutor Lis Wiehl meticulously reconstructs the white-knuckle, tension-filled hunt to identify and capture the mysterious killer. This is a can't-miss, true crime thriller of the years-long battle of wits between the FBI and the brilliant-but-criminally insane Ted Kaczynski. "A powerful dual narrative of the unfolding investigation and the life story of Ted Kaczynski...The action progresses with drama and nail-biting intensity, the conclusion foregone yet nonetheless compelling. A true-crime masterpiece." -- Booklist (starred review)

For: Stephen & Mary Perch.

Annual Report of the New York State Board of Social Welfare and the New York State Department of Social Services John Benjamins Publishing

"Metalanguage in Interaction" is about the crystallization of metalanguage employed throughout interaction into the discourse markers which permeate talk. Based on close analysis of naturally-occurring Hebrew conversation, it is a synchronic study of the grammaticization of discourse markers, a phenomenon until now mostly studied from a diachronic perspective. It constitutes the first monograph in the fields of Hebrew interactional linguistics and Hebrew discourse markers. The book first presents what is unique to the present approach to discourse markers and gives them an operational definition. Discourse markers are explored as a system, illuminating their patterning in terms of function, structure, and the moments in interaction at which they are employed. Next, detailed analysis of four Hebrew discourse markers illuminates not only the functions and grammaticization patterns of these markers, but also what they reveal about quintessential aspects of Israeli society, identity, and culture. The conclusion discusses commonalities and differences in the grammaticization patterns of the four markers, and relates the grammaticization of discourse markers from interaction to projectability in discourse.

The Triple Package Council of Europe

This is an open access book. The First International Conference on Innovation in information technology and business (ICITB) will be taking place in Muscat, Oman, on November 9th and 10th, 2022. The Conference will be carried out in a hybrid format, allowing world-scattered academicians, researchers, and industry professionals to participate in this unique Conference for Oman and the GCC region. The participants of the Conference will get an opportunity to contribute to the contemporary implementation of cutting-edge research and development in the area of artificial intelligence, data science, machine learning, and the IoT in the business environment. The participants will get a first-of-a-kind networking and knowledge sharing opportunity to be a part of an event in Oman, that will gather recognized researchers from the GCC, Europe, the USA, and other parts of the World. Select research papers will also be published in a Springer-published Conference proceedings.

Boys' Life Thomas Nelson

This pioneering study explores communication and powers of premonition among wild and domesticated animals. Based on a lifetime of field observations by a famous naturalist, it examines phenomena that will interest every animal lover — how pets can detect their owners' imminent return, how some creatures can foretell natural disasters, and more.

Annual Report Harlequin

International Academic Conference on Management, Economics and Marketing in Budapest, Hungary 2016 (IAC-MEM 2016), Friday - Saturday, April 15 - 16, 2016

Proceedings of IAC-MEM 2016 Random House

As the world enters a new year, the Covid-19 pandemic is still upsetting our daily lives. And as 75% of EU citizens live in urban areas, cities are the most prominent stage both for responding to the health crisis, and for seizing opportunities to recover and move forward. Meanwhile, in 2020, EU countries agreed to Next Generation EU, a €750 billion recovery package that represents a once-in-a-generation opportunity. This report argues that cities should be given more say over how post-pandemic national recovery plans pan out between here and 2026, when all projects are supposed to be wrapping up. Indeed, the success of the EU recovery plans will hinge upon what cities do, or they don't do over the next five years. How are cities rethinking their role within the "twin" green and digital transitions? How can they achieve gender parity, reduce inequalities, and preserve a vibrant cultural life?

Tracing Your Irish Family History on the Internet Tracing Your Family History on the Internet

It is easy to say "I have no prejudices", "I'm not racist, so it has nothing to do with me", "I didn't invite those refugees". It is hard to say "I may not be to blame for what happened in the past but I want to take responsibility for making sure it doesn't continue in the future". The Education Pack "all different - all equal" was originally produced in 1995 as an educational resource for the European youth campaign against racism, antisemitism, xenophobia and intolerance. Soon after its publication it became a reference work for those involved in intercultural education and training with young people across Europe and beyond. Translated into many languages, it remains today one of the most successful and most sought after publications of the Council of Europe. The usefulness of the pack stems from the variety and creativity of the methodologies proposed. More than twenty years after the "all different - all equal" campaign, the role plays, simulation exercises, case studies and cooperative group work that it proposes remain an inspiration to many youth workers, trainers, teachers and other people actively involved in intercultural education. European societies continue to suffer from a growth of racist hostility and intolerance towards minorities and foreigners; the necessity for intercultural youth work remains undiminished and the relevance of this pack remains unquestionable. Little bit has been changed in this new edition of the pack, apart from an updating of references. Most changes are visible and usable only in the online version, which offers relevant links with other resources for human rights education which continue the legacy of the campaign: equality in dignity and rights, respect for broader appreciation of diversity.
