This requires us to introduce our children to our beloved Prophet Muhammad PBUH, the role model that Allah sent down for us to emulate and follow, so that we will succeed in this world and the next. Social media and digital technologies have changed our lives and there is no indication that things will slow down. As Muslims, we believe that Islam contains the most perfect guidance for all of mankind to follow. How do we implement that timeless advice in our unprecedented times? That is the focus of the *Fiqh of Social Media*. "I am grateful and appreciative of my friend, Omar Usman, for exhausting available resources; Islamic, psychological, secular, and business, to develop the work you see before you. We have had long discussions pertaining to many of the topics covered in this book. I am confident that you will find this book to be beneficial, and I pray that it inspires more contributions on this topic." -Shaykh AbdulNasir Jangda, Qalam Institute
"With the time we spend on social media, being mindful of how we use it is crucial. This is a wonderful resource based in prophetic guidance on

how to practically use social media in wise and beneficial ways." -Dr. Omar Suleiman, Yaqeen Institute
"Reading *Fiqh of Social Media* is like sitting with your best friend from Sunday school and having an intellectual & spiritual conversation about the impact of social media on your life. Omar distills years of research, experience, and thought leadership in an easily digestible book that you can enjoy with a good cup of coffee (and your phone off!)" -Mohammed Faris, The Productive Muslim Company
"Having followed Omar Usman's extensive work on the #FiqhOfSocialMedia and attended the seminar by him in person, I'm thrilled to hear about this being released in book form. Behavioral experts often demarcate an addiction by its rendering of a person dysfunctional; it sabotages his/her career, relationships, health, or any other fundamental facet of one's life. Therefore, considering what the digital age is undeniably crippling in our lives, I cannot overstate the importance of availing oneself this sobering critique of social media's true costs, its pragmatic course for rehabilitation, and its

showcasing of the renewed relevance of Islam's timeless principles for self-care in the most comprehensive sense of the word." - Shaykh Mohammad Elshinawy, Mishkah University
"The Prophet (s) said, "Whoever believes in Allah and the Last Day should say something good or keep silent." The ability to control our tongues, how we communicate with others, is an expression of our faith. Communication has evolved and changed so much that one of the primary ways many of us communicate with others is through social media; hashtags and 280 characters. This is a long-awaited work from my good friend and Hajj companion Omar Usman who has been writing, tweeting, speaking, and teaching about the *Fiqh of Social Media* for years. This is a valuable work providing guidance on how to use and benefit from social media in a way that conforms to our principles and values." - Shaykh Furhan Zubairi, Institute of Knowledge
"Ulama of the past have written on the adaab of speech and social interaction. Connecting those guidelines with the modern world of social

media has been the need of our time. May Allah reward Omar for taking this task on!" -Mufti Hussain Kamani, Qalam Institute "This is a must-read for Muslims around the globe. I can't thank Omar enough for this work which forces Muslims to look in the mirror and answer tough questions about how social media has impacted our lives. It questions why we desire to share the most intimate aspects of our lives with strangers from around the world and provides action items to implement. These discussions need to be had within the Muslim community. We have to question how our quality of life has been impacted by the age of hyper-connectivity. Due to the fact that Social Media is the tool for creating social capital, we need to realize that speaking about the harms of constant connectivity takes a lot of courage. Thank you, Omar, for this work." - Shaykh Mikaeel Smith, Qalam Institute

The indiscriminate exportation of Western psychology to Muslim and third world countries can pose serious cultural and ideological dilemmas. When the exported commodity from North to South is physical in nature, the harm done can easily be identified; for example the quick detection of the life threatening birth defects caused by the drug thalidomide when taken during pregnancy or the flaws in the breaking system of a Japanese car. However, when the exported product is ideas and beliefs and ways of life, the indirect and sneaky damage, is often much more malevolent and long-lasting because it attacks the worldview of the recipients and it shakes their cherished beliefs. Because of its technological supremacy Islamic and developing countries got used to wholeheartedly accepting any information coming from the West if it is under the tag of

"science". By presenting itself under this prestigious 'mantra' of science, students in Muslim countries swallow the kernel of psychology with its nutshell; the baby with its filthy water. The danger of this approach is greatly augmented by the shortcomings of our educational systems that discourages critical thinking and encourages the submissive acceptance of the words of the teacher and that of printed material.

The dictionary focuses primarily on the 19th and 20th centuries, stressing topics of most interest to Westerners. What emerges is a highly informative look at the religious, political, and social spheres of the modern Islamic world. Naturally, readers will find many entries on topics of intense current interest, such as terrorism and the Taliban, Osama bin Laden and al-Qaida, the PLO and HAMAS. But the coverage goes well beyond recent headlines. There are biographical profiles, ranging from Naguib Mahfouz (the Nobel Prize winner from Egypt) to Malcolm X, including political leaders,

influential thinkers, poets, scientists, and writers. Other entries cover major political movements, militant groups, and religious sects as well as terms from Islamic law, culture, and religion, key historical events, and important landmarks (such as Mecca and Medina). A series of entries looks at Islam in individual nations, such as Afghanistan, the West Bank and Gaza, Bosnia-Herzegovina, and the United States, and the *A Medieval Arabic Study Manual* by 'Abd al-'Azīz al-Sulamī Pearson Education India

How can people belong simultaneously to two cultures, originating in two different places and expressed in two different languages, without alienating themselves from either? Muslims have lived in the Chinese culture area for 1400 years, and the intellectuals among them have long wrestled with this problem. Unlike Persian, Turkish, Urdu, or Malay, the Chinese language never adopted vocabulary from Arabic to enable a precise understanding of Islam's religious and philosophical foundations. Islam thus had to be translated into Chinese, which lacks words and arguments to justify monotheism, exclusivity, and other features of this Middle Eastern religion. Even in the 21st century, Muslims who are culturally Chinese must still justify their devotion to a single God, avoidance of pork, and their communities' distinctiveness, among other things, to sceptical non-Muslim neighbours

and an increasingly intrusive state. a a The essays in this collection narrate the continuing translations and adaptations of Islam and Muslims in Chinese culture and society through the writings of Sino-Muslim intellectuals. Progressing chronologically and interlocking thematically, they help the reader develop a coherent understanding of the intellectual issues at stake.
