 Growing from tiny tadpoles to massive master jumpers, frogs and their life cycles are fascinating. How far can frogs jump? Why do their eggs look slimy? Answer these questions and many more in this illustrated introduction to amphibians. With her signature bright, well-labeled diagrams and simple text, Gail Gibbons introduces the habitat and life cycles of frogs and gives an overview of common frog behaviors. Important biology vocabulary is introduced, defined, and reinforced with kid-friendly language and clear illustrations--plus a page of intriguing frog trivia and clear diagrams that show how frogs are different from toads. Bonus material is included about the unique role frogs play in the environment.

Macroeconomic research on human capital - the stock of human capabilities and knowledge - has been extensively published but to date the literature has lacked a comprehensive analysis of human capital within the organization. The *Oxford Handbook of Human Capital* has been designed to fill that gap,

providing an authoritative, inter-disciplinary, and up to date survey of relevant concepts, research areas, and applications. Specially commissioned contributions from over 40 authors reveal the importance of human capital for contemporary organizations, exploring its conceptual underpinnings, relevance to theories of the firm, implications for organizational effectiveness, interdependencies with other resources, and role in the future economy. Unlike neoclassical macroeconomic concepts of human capital, human capital in organizations is shown to be dynamic and heterogeneous, requiring new theories and management frameworks. The systemic role of human capital is explored, revealing it as the lynchpin of social, structural and other forms of intangible and tangible capital. Connections between human capital and organizational performance are investigated from HR management, procurement, alignment, value appropriation, and accounting perspectives. Links between micro and macro perspectives are provided through analyses of inter firm human capital mobility, national and regional human capital formation regimes and industry employment relations practices. This Handbook is designed for scholars and graduate students of organization and management theory, strategy, entrepreneurship, knowledge and intellectual capital, accounting, IT, HR, IR, economic sociology and cultural studies. For policy makers and practitioners it should provide an up to date guide to the nature and role of human capital in contemporary organizations and the roles that government, industry and other extra firm institutions can play in facilitating

its development.

As an infant, James Clyde was deposited at a children's home by his wounded, blood-soaked grandfather. As a result, he grows up under a cloud of mystery. Eleven years later when he hears about his strange past, he vows to uncover the truth. But before he can, his grandfather hands him a magical and mysterious diamond of Orchestra. With the aid of his friends, Ben and Mary Forester, James must protect the diamond from evil forces. Soon, however, their lives are in grave danger. They are being hunted by a sinister man dressed in black and his blood-thirsty army. Outnumbered, James finds he must use the power of the diamond to escape their clutches - or become another victim of their murderous quest. So begins a journey that will transport them to an alternative world where they must confront the mysterious man in black for a final, winner-takes-all battle... James Clyde and the Diamonds of Orchestra will appeal to children aged 12-15 that are fans of fantasy fiction. Colm is inspired by a number of authors, including J. K. Rowling, C. S. Lewis, Brian Keane and Charles Dickens. James Clyde and the Diamonds of Orchestra won the Bronze award in the 9-12 year-old category of the Wishing Shelf Independent Book Awards 2012.

"Major Jim Gant, a man seen by many of

us as the 'perfect insurgent,'--an inspiring, gifted, courageous leader... -- GENERAL DAVID H. PETRAEUS (U.S. Army, Ret.) THE PAPER THAT ROCKED OSAMA BIN LADEN Team members during the May 2, 2011 U.S. military raid that killed Osama Bin Laden seized piles of Al Qaeda intelligence. One piece of evidence found in Bin Laden's personal sleeping quarters was an English language copy of Jim Gant's One Tribe at a Time. It contained notes in the margins consistent with others identified as written by Osama Bin Laden. A directive from Osama Bin Laden to his intelligence chief was also discovered. It identified Jim Gant by name as an impediment to Al Qaeda's operational objectives for eastern Afghanistan. Bin Laden ordered that Gant be assassinated. "[One Tribe at a Time] was hugely important...at a time when I was looking for ideas on Afghanistan...[Gant] was the first to write it down, in a very coherent fashion, very readable, very encouraging frankly...and there is enormous power in that." --General David H. Petraeus (U.S. Army, Ret.) quoted in American Spartan: The Promise, The Mission, and The Betrayal of Special Forces Major Jim Gant by Ann Scott Tyson Washington Post reporter Ann Scott Tyson read "One Tribe at a Time," and - informed by her combat experience in Afghanistan and Iraq and her eight years as a reporter in China - she realized that Jim's paper made sense. She decided to write a story about Jim entitled, "Jim Gant, the Green Beret who could win the war in Afghanistan." After the article appeared in January 2010, as Jim was in Washington, D.C., attending Pashto language training, he met Ann and the two fell in love. She followed his mission in Afghanistan and wrote AMERICAN SPARTAN: The Promise, the Mission, and

the Betrayal of Special Forces Major Jim Gant.

Advanced Calculus of Several Variables provides a conceptual treatment of multivariable calculus. This book emphasizes the interplay of geometry, analysis through linear algebra, and approximation of nonlinear mappings by linear ones. The classical applications and computational methods that are responsible for much of the interest and importance of calculus are also considered. This text is organized into six chapters. Chapter I deals with linear algebra and geometry of Euclidean n-space R_n . The multivariable differential calculus is treated in Chapters II and III, while multivariable integral calculus is covered in Chapters IV and V. The last chapter is devoted to venerable problems of the calculus of variations. This publication is intended for students

who have completed a standard introductory calculus sequence.

The Complete and Balanced Muscle-Toning Program for Renewed Vitality and a More Youthful Appearance Carole Maggio's Faceercise program has helped many thousands of women and men look younger and more vibrant without surgery, chemical peels, or Botox. Now, using the most advanced face technology, Carole has devised Ultimate Faceercise, a program that is even faster and more efficient than the original. By working the muscles with more intensity, using body posturing and precision movements, the results are even more dramatic. In just eight minutes, twice a day, you can open up your entire eye area, reduce puffiness and eliminate hollows, lift your eyebrows, define your cheeks, plump up your lips, turn up the corners of your mouth, smooth out lines, and firm your entire neck and jawline. Carole also gives advice on the most advanced (nonsurgical) beauty treatments and even describes how to get rid of the hard lumps left under the skin by collagen or fillers and how the Ultimate Faceercise program can help smooth out the effects of botched cosmetic surgery.

Read Josh Sundquist's posts on the Penguin Blog. One moment Josh Sundquist was your typical energetic and inquisitive nine year- old boy. The next, his entire life changed when he was diagnosed with Ewing's Sarcoma, a particularly virulent cancer strain that would eventually claim Josh's left leg. Told in a wide-eyed, winning, heartbreaking voice, *Just Don't Fall* is the story of the boy Josh was and of the young man he became. His story begins in a small, close-knit Southern town, where his father-an aspiring pastor

questioning his faith, and his mother--homeschooling an ever- growing brood of children-struggle to make ends meet. Josh journeys through a dizzying array of hospitals and eventually lands at a pivotal place: the nearby mountain, where he makes his first attempt to ski. It is on the slopes, and later, on the race course, that Josh's world bursts wide open in a way no one could have ever anticipated. The inspiration to ski, however, and to become a champion, is not all that Josh has to contend with--there is adolescence to navigate, the transition from homeschool to public high school, and girls. There is an increasingly turbulent and difficult home life, with another cancer scare, a wayward brother, and dwindling finances to pay for training. Finally, there is the wild, bumpy road to the Paralympics in Turin, with a misanthropic coach, training in the Rockies, and a timeless friendship with a charismatic, imposing Brooklyn homeboy named Ralph. Through it all, Josh is forced to question his abilities, his sanity, his will, his faith in himself, and his faith in God. Because of, not despite, these myriad obstacles in his path, Josh is able to achieve a genuine grace: the grace to risk failure and to succeed. It is the grace of a young boy becoming a man and of a champion realizing his greatest dream. Josh Sundquist shows us with charm, humility and remarkable strength that even if we fall, this inner grace can lift us up and carry us over the many mountains we all must face.
