 Algorithms Live Computer Science Decisions
 Algorithms to Live By: The Computer Science of Human Decisions by Brian Christian and Tom Griffiths
 There are predictably a number of readers who will look at this title and shy away, thinking that a book with "algorithms" in its title must be just for techies and computer scientists.
 Algorithms to Live By: The Computer Science of Human Decisions
 A fascinating exploration of how insights from computer algorithms can be applied to our everyday lives, helping to solve common decision-making

problems and illuminate the workings of the human mind
 All our lives are constrained by limited space and time, limits that give rise to...
