 There is great interest in recent scholarship in the study of metropolitan cultures in India as
 evident from the number of books that have appeared on cities such as Delhi, Mumbai, Chennai
 and Kolkata. Though Hyderabad has a rich archive of history scattered in many languages, very
 few attempts have been made to bring this scholarship together. The papers in this volume bring
 together this scholarship at one place. They trace the contribution of different languages and
 literary cultures to the multicultural mosaic that is the city of Hyderabad How it has acquired this
 uniqueness and how it has been sustained is the subject matter of literary cultures in Hyderabad.
 This work attempts to trace some aspects of the history of major languages practiced in the city. It
 also reviews the contribution of the various linguistic groups that have added to the development

not just of varied literary cultures, but also to the evolution of an inclusive Hyderabad culture. The
 present volume, it is hoped, will enthuse both younger and senior scholars and students to take a
 fresh look at the study of languages and literary cultures as they have evolved in India's cities and
 add to the growing scholarship of metropolitan cultures in India.

In our current era of helicopter parenting and stranger danger, an unaccompanied child wandering
 through the city might commonly be viewed as a victim of abuse and neglect. However, from the
 early twentieth century to the present day, countless books and films have portrayed the solitary
 exploration of urban spaces as a source of empowerment and delight for children. Fantasies of
 Neglect explains how this trope of the self-sufficient, mobile urban child originated and considers
 why it persists, even as it goes against the grain of social reality. Drawing from a wide range of

films, children's books, adult novels, and sociological texts, Pamela Robertson Wojcik investigates how cities have simultaneously been demonized as dangerous spaces unfit for children and romanticized as wondrous playgrounds that foster a kid's independence and imagination. Charting the development of free-range urban child characters from Little Orphan Annie to Harriet the Spy to Hugo Cabret, and from Shirley Temple to the Dead End Kids, she considers the ongoing dialogue between these fictional representations and shifting discourses on the freedom and neglect of children. While tracking the general concerns Americans have expressed regarding the abstract figure of the child, the book also examines the varied attitudes toward specific types of urban children—girls and boys, blacks and whites, rich kids and poor ones, loners and neighborhood gangs. Through this diverse selection of sources, *Fantasies of Neglect* presents a nuanced chronicle of how notions of American urbanism and American childhood have grown up together. *Masti* Taylor & Francis

Considered to be the father of the Kannada short story, Masti's direct narration and sympathetic understanding of human nature make his stories evergreen. U R Anantha Murthy describes this Sahitya Akademi Awardee as one who has a gentle and profound insight into what lasts in India, and what elements inherent in human nature threaten it ... the best in traditions of the East and the West have gone into the making of his liberal humanist philosophy.

One film out of every five made anywhere on earth comes from India. From its beginnings under colonial rule through to the heights of Bollywood, Indian Cinema has challenged social injustices such as caste, the oppression of Indian women, religious intolerance, rural poverty, and the pressures of life in the burgeoning cities. And yet, the Indian movie industry makes only about five percent of Hollywood's annual revenue. In this Very Short Introduction Ashish Rajadhyaksha delves into the political, social, and economic factors which, over time, have shaped Indian Cinema into a fascinating counterculture. Covering everything from silent cinema through to the digital era, Rajadhyaksha examines how the industry reflects the complexity and variety of Indian society through the dramatic changes of the 20th century, and into the beginnings of the 21st. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. This book studies the hitherto overlooked genre of horror cinema in India. It uncovers some unique and diverse themes that these films deal with, including the fear of the unknown, the supernatural,

occult practices, communication with spirits of the deceased, ghosts, reincarnation, figures of vampires, zombies, witches and transmutations of human beings into non-human forms such as werewolves. It focusses on the construction of feminine and masculine subjectivities in select horror films across seven major languages - Hindi, Tamil, Telugu, Kannada, Bangla, Marathi and Malayalam. The author shows that the alienation of the body and bodily functions through the medium of the horror film serves to deconstruct stereotypes of caste, class, gender and anthropocentrism. Some riveting insights emerge thus, such as the masculinist undertow of the possession narrative and how complex structures of resistance accompany the anxieties of culture via the dread of laughter. This original account of Indian cinematic history is accessible yet strongly analytical and includes an exhaustive filmography. The book will interest scholars and researchers in film studies, media and cultural studies, art, popular culture and performance, literature, gender, sociology, South Asian studies, practitioners, filmmakers as well as cinephiles.

India is the largest film producing country in the world and its output has a global reach. After years of marginalisation by academics in the Western world, Indian cinemas have moved from the periphery to the centre of the world cinema in a comparatively short space of time. Bringing together contributions from leading scholars in the field, this Handbook looks at the complex reasons for this remarkable journey. Combining a historical and thematic approach, the Handbook discusses how Indian cinemas need to be understood in their historical unfolding as well as their complex relationships to social, economic, cultural, political, ideological, aesthetic, technical and institutional discourses. The thematic section provides an up-to-date critical narrative on diverse topics such as audience, censorship, film distribution, film industry, diaspora, sexuality, film music and nationalism. The Handbook provides a comprehensive and cutting edge survey of Indian cinemas, discussing Popular, Parallel/New Wave and Regional cinemas as well as the spectacular rise of Bollywood. It is an invaluable resource for students and academics of South Asian Studies, Film Studies and Cultural Studies.

How do videos, movies and documentaries dedicated to indigenous communities transform the media landscape of South Asia? Based on extensive original research, this book examines how in South Asia popular music videos, activist political clips, movies and documentaries about, by and for indigenous communities take on radically new significances. Media, Indigeneity and Nation in South Asia shows how in the portrayal of indigenous groups by both 'insiders' and 'outsiders' imaginations of indigeneity and nation become increasingly interlinked. Indigenous groups, typically marginal to the nation, are at the same time part of mainstream politics and cultures. Drawing on perspectives from media studies and visual anthropology, this book compares and contrasts the situation in South Asia with indigeneity globally.
