The proclamation of the annexation of Punjab was made by the British Government on 30th March, 1849 and the Government of the Province was put under the Board of Administration. This Board, too, was abolished in February 1853 and its powers were vested in the Chief Commissioner who controlled the administration of the Provinces with the help of Judicial Commissioner and the Financial Commissioner. Matters relating to land-revenue settlements were regulated in accordance with Mr. Thomson's Directions initially which were put in the form of a handbook by Mr. Robert Cust for the first time and later on were revised by Mr. D. C. Barkley. The Present Manual, an independent work, was issued, after the examination by the Financial Commissioner and with the approval of the Government of the Punjab, on the said manuals becoming obsolete with a view to guiding Settlement Officers in the Province concerning assessments and the preparation of the record of

This book examines civil society empowerment during the EU enlargement process. Building on extensive fieldwork, it compares mobilisation around rule of law issues in Croatia, Montenegro, and Serbia. Moving beyond the traditional focus on the top-down impact of EU support, it demonstrates NGOs' agency and analyses their shifting strategies throughout the membership negotiations. Its approach and findings will appeal to scholars and advanced students of EU integration, social movements, and the politics of South East Europe.

Why are some parts of the world so rich and others so poor? Why did the Industrial Revolution--and the unprecedented economic growth that came with it--occur in eighteenth-century England, and

not at some other time, or in some other place? Why didn't industrialization make the whole world rich--and why did it make large parts of the world even poorer? In *A Farewell to Alms*, Gregory Clark tackles these profound questions and suggests a new and provocative way in which culture--not exploitation, geography, or resources--explains the wealth, and the poverty, of nations. Countering the prevailing theory that the Industrial Revolution was sparked by the sudden development of stable political, legal, and economic institutions in seventeenth-century Europe, Clark shows that such institutions existed long before industrialization. He argues instead that these institutions gradually led to deep cultural changes by encouraging people to abandon hunter-gatherer instincts--violence, impatience, and economy of effort--and adopt economic habits--hard work, rationality, and education. The problem, Clark says, is that only societies that have long histories of settlement and security seem to develop the cultural characteristics and effective workforces that enable economic growth. For the many societies that have not enjoyed long periods of stability, industrialization has not been a blessing. Clark also dissects the notion, championed by Jared Diamond in *Guns, Germs, and Steel*, that natural endowments such as geography account for differences in the wealth of nations. A brilliant and sobering challenge to the idea that poor societies can be economically developed through outside intervention, *A Farewell to Alms* may change the way global economic history is understood.

" An essential resource for scholars, students, and all lovers of the Mountaineer State. From bloody skirmishes with Indians on the early frontier to the Logan County mine war, the story of West Virginia is punctuated with episodes as colorful and rugged as the mountains that dominate its landscape. In this first modern comprehensive history, Otis Rice and Stephen Brown balance these episodes of mountaineer individualism against the complexities of industrial development and the growth of social institutions, analyzing the events and personalities that have shaped the state. To create this history, the authors weave together many strands from the past and present. Included among these are geological and geographical features; the prehistoric inhabitants; exploration and settlement; relations with the Indians; the land systems and patterns of ownership; the Civil War and the formation of the state from the western counties of Virginia; the legacy of Reconstruction; politics and government; industrial development; labor problems and advances; and cultural aspects such as folkways, education, religion, and national and ethnic influences. For this second edition, the authors have added a new chapter, bringing the original material up to date and carrying the West Virginia story through the presidential election of 1992. Otis K. Rice is professor emeritus of history and Stephen W. Brown is professor of history at West Virginia Institute of Technology.

Church History, Volume One offers a unique contextual view of how the Christian church spread and grew from its development in the days of Jesus to the years leading up to the Reformation. Looking closely at the integral link between the history of the world and that of the church, *Church History* paints a portrait of God's people within its setting of times, cultures, and events that both influenced and were influenced by the church. FEATURES: Maps, charts, and illustrations spanning the time from the first through the thirteenth centuries. Overviews of the Roman, Greek, and Jewish worlds

and how they developed or declined. Insights into the church's relationship to the Roman Empire, with glimpses into pagan attitudes toward Christians. Explanations of the role of art, architecture, literature, and philosophy—both sacred and secular—in the Church. Details on the major theological controversies of the periods. Each chapter also contains callout passages from Scripture to assist in understanding the narrative of the Church, even to the present day, as part of the greater narrative of the Bible. **AUTHOR'S PERSPECTIVE:** Scholar and writer Everett Ferguson wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known. It's a human story of a divinely called people who wanted to live by a divine revelation. It's a story of how they succeeded and how they failed or fell short of their calling. From the Apostle Paul to the apologists and martyrs of the second century to Martin Luther, the historical figures detailed are people who have struggled with the meaning of the greatest event in history—the coming of the Son of God—and with their role in that event and in the lives of God's people.

"A World in the Making is a kind of anthropological journey taken by four historians that assumes all societies are "hot," and all people make history and always have. We argue in our emphasis on lives and livelihoods for a world constructed, altered, renovated, remade by ordinary people even as we acknowledge the genius of individual innovators, disruptors who broke the mold or struck out in some new direction."--Provided by publisher.

Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.
