The Genius Code Thomas Nelson

No one knows more about corporate boards and effective governance than Bill Haeberle! This autobiography combines Bill's wry sense of humor with sage advice garnered from fifty-seven years of experience as an entrepreneur, sixty years on the Indiana University business faculty and forty years in a multitude of board rooms. It's must reading for every executive or anyone who serves or hopes to serve on a board of directors. John Mutz, former Lt. Governor, State of Indiana President, Lilly Endowment, Inc President, Public Service Indiana Currently Chairman, Lumina Foundation for Education, Inc "Bill raises questions about Indiana University, that are not often asked. His combined experience as an academic, entrepreneur, and corporate director, provide the platform for his thoughtful inquiry and commentary. He argues that cheerleading brings no value to our IU degrees. Get and keep the goals right...then-perform, perform, perform-will bring sustained IU brand equity value." As her loyal readership already knows: It's not about food, it's not about the cat. . . it's always been about love and how to live with it—and never live without it!

When students say that reading is boring, difficult, overwhelming, or they cannot find a good book, it is almost impossible to sell them on the idea that reading is fun and worthwhile. Sometimes *Reading is Hard* shows teachers how to develop the skills students need to be successful and how to cultivate passionate,

lifelong readers. An intriguing look at the science of reading, the book helps teachers understand the foundations upon which language and reading are learned so they can make their own good decisions about programs, resources, strategies, and activities. Classroom vignettes, promising practices, and step-by-step activities illustrate how teachers can weave teaching the skills of decoding, vocabulary, comprehension, and fluency with real reasons to read. This hands-on teacher resource shows what a comprehensive, research-based reading program looks like in action.

After attending Princeton and Harvard Law School, Henry Kennedy Jr. was appointed a United States magistrate when he was just twenty-eight. As the youngest federal judicial officer ever appointed, Kennedy handled many contentious proceedings for which he was ill prepared—all while enduring a short yet failed marriage. But it was not until he was preparing to lead a discussion at a judges' prayer breakfast that Kennedy ultimately plunged into the darkness of depression. In a fascinating retelling of his life story, Kennedy chronicles his experiences as an African American federal judge who successfully confronted the debilitating symptoms of clinical depression while presiding over consequential cases and issues of our time. While traveling back into his past and revealing his family's battles with racism and segregation, Kennedy leads others down an inspirational path that proves that positive change is not achieved in one day, but instead throughout a lifetime. Blessed with the guidance and example of his parents and supported by an unlikely cadre of friends, Judge Kennedy is living proof that there is hope for those suffering from depression that they too can overcome their challenges and reclaim their lives, just as he did. *My Life on the*

Courts is the candid memoir of an African American federal judge that chronicles his journey through the courts and out of the depths of depression.

Over the Edge and Back with My Dad, My Cat, and Me Springer Science & Business Media

This tenth-anniversary edition of *The Hole in Our Gospel* features a new chapter and updated statistics, along with full-color photo and infographic inserts, a study guide, a concordance of scripture on poverty and justice, and personal accounts from readers whose perspectives have been changed by *The Hole in Our Gospel*. Is our faith only about going to church, studying the Bible, and avoiding the most serious sins? Or does God expect more? Have we embraced the whole gospel or a gospel with a hole in it? More than twenty years ago, Rich Stearns came face-to-face with that question as he sat in a mud hut in Rakai, Uganda, listening to the heartbreaking story of an orphaned child. Stearns's journey took much more than a long flight to Africa. It took answering God's call on his life, a call that tore him out of his corner office at one of America's most prestigious corporations, to walk with the poorest of the poor in our world. Stearns's compelling story demonstrates that the whole gospel was always meant to be a world-changing social revolution, a revolution that begins with each one of us.

My unstructured upbringing, and cares to the wind attitude, led to my frequent incarceration, from childhood to adulthood, it's a disturbing story, which is primarily aimed at the adult reading audience, who enjoy reading about reality situations and crime. I have always been a reader, and to a large extent, that helped me become a self taught person. Born on the banks of the Colorado River in Arizona, and raised up in the Marcos De Niza barrio projects in South Phoenix, I experienced the injustices of the cotton fields, Maricopa County Juvenile Detention Home, and Arizona State Industrial School at Fort Grant, Arizona. I wandered the desperate streets of Los Angeles, and the forlorn railroad tracks, alone, like a lost person without a purpose in life. I was locked up in the jails of Phoenix, and Los Angeles, before winding up in the California State penitentiary system. Upon my release, I struggled to stay out of the pen, and took the jobs that society at large would never want to take. Through numerous personal tragedies, incarcerations, and unfortunate circumstances, I lost control of my life. No one was ever able to change my destructive behavior. The changes when they occurred came from within me, when I could no longer cope, with the situations I had cast my self into. Looking back, I can now see what I couldn't see, during those hopeless time periods. I was very fortunate, to finally be able to leave that life behind me, through relationships that believed in me, and successfully worked, and built myself a civil

service work career, from which I retired. I now spend my days enjoying life's simple pleasures, after all my previous tragic missteps. My objective in life now, is to become an accomplished writer.

This book covers a great deal of ground spiritually, philosophically, and emotionally. The subject matter is often weighty, yet it doesn't feel like that at all, no small feat when discussing the origins and cycles of life, birth and death, and everything in between. Moving from the particular to the universal, to that place where we are all one, the author uses moments from his life experience to help us better understand and appreciate our own journey. Often in an understated manner, he points out that just below the surface of the ordinary lies this other world where the truly meaningful and abiding realities of our lives frequently go unnoticed. He gently turns over the stones on our paths, looking for the meaning hidden underneath, often finding real gems. You will meet yourself more than once in these pages.

Unconventional and provocative, *My Life with Things* is Elizabeth Chin's meditation on her relationship with consumer goods and a critical statement on the politics and method of anthropology. Chin centers the book on diary entries that focus on everyday items—kitchen cabinet knobs, shoes, a piano—and uses them to intimately examine the ways consumption resonates with personal and social meaning: from writing love haikus about her favorite nail polish and discussing the racial implications of her tooth cap, to revealing how she used shopping to cope with a miscarriage and contemplating how her young daughter came to think that she needed Lunesta. Throughout, Chin keeps Karl Marx and his family's relationship to their possessions in mind, drawing parallels between Marx's napkins, the production of late nineteenth-century table linens, and Chin's own vintage linen collection. Unflinchingly and refreshingly honest, Chin unlocks the complexities of her attachments to, reliance on, and complicated relationships with her things. In so doing, she prompts readers to

reconsider their own consumption, as well as their assumptions about the possibilities for creative scholarship.
