Experience Christ's work on the cross and know that your sins are pardoned and your death is defeated. The runaway bestseller with more than four million copies in print! You too can change your life with the priceless wisdom of ten ancient scrolls handed down for thousands of years. “Every sales manager should read *The Greatest Salesman in the World*. It is a book to keep at the bedside, or on the living room table—a book to dip into as needed, to browse in now and then, to enjoy in small stimulating portions. It is a book for the hours and for the years, a book to turn to over and over again, as to a friend, a book of moral, spiritual and ethical guidance, an unfailing source of comfort and inspiration.”—Lester J. Bradshaw, Jr., Former Dean, Dale Carnegie Institute of Effective Speaking & Human Relations “I have read almost every book that has ever been written on salesmanship, but I think Og Mandino has captured all of them in *The Greatest Salesman in the World*. No one who follows these principles will ever fail as a salesman, and no one will ever be truly great without them; but, the author has done more than present the principles—he has woven them into the fabric of one of the most fascinating stories I have ever read.”—Paul J. Meyer, President of Success Motivation Institute, Inc. “I was overwhelmed by *The Greatest Salesman in the World*. It is, without doubt, the greatest and the most touching story I have ever read. It is so good that there are two musts that I would attach to it: First, you must not lay it down until you have finished it; and secondly, every individual who sells anything, and that includes us all, must read it.”—Robert B. Hensley, President, Life Insurance Co. of Kentucky

Reveals the precise correspondences between specific emotional and mental tensions and the illnesses and traumas of the body • Explains how physical complaints--energetic disturbances that lead to ailments or chronic conditions--are your soul speaking to you • Shows how the body part affected as well as which side it is on pinpoints what your soul is trying to tell you and what you need to work through emotionally • Explains the Yin-Yang energetic correspondences of the body: the Yang axis of the shoulders, the Yin axis of the hips, and the Yin-Yang maternal/paternal connections Our body speaks. Physical complaints--allergies, fever, sore throat, inflammation, cysts, backache, migraines, sinus problems, sciatica, dizzy spells, and even cancer--are all signs of deep tensions inside of us are seeking expression. This is why, given the same genetic foundation, one individual develops a specific illness while another remains in good health. Drawing on 20 years of experience and several thousand individual consultations with patients, Michel Odoul shows the “proof” of this lies in the clear correspondences between emotional and mental tensions

and specific ailments. The author reveals how every illness or trauma is a signal of incredible precision: The part of the body affected pinpoints what your inner being is trying to tell you and what you need to work through emotionally. Providing a reference grid of body-mind connections, he explains, for example, how skin conditions reflect difficulties with aggression from the outside world and knee problems indicate inflexibility or tension in relationships. He shows not only how each side of the body has specific meanings and connections to emotions, relationships, and family but also how the upper and lower halves of the body have specific connections--together forming four quadrants with unique Yin-Yang balances, where Yin represents emotional issues and Yang represents action/inaction. He also explores the role of the meridians of Chinese medicine in distributing emotional and mental energy throughout the body. Offering keys to decipher what the body is trying to tell us, the author shows that we can learn to see physical ailments not as something caused by chance or fate but as a message from our heart and soul. By releasing the energies and patterns they point to, we can return to a state of health and forward movement on our path through life.

James Joyce was an Irish, modernist writer who wrote in a ground-breaking style that was known both for its complexity and explicit content. He also participated in the early days of poetic modernism in the English language, being considered by Ezra Pound one of the most eminent poets of imagism. Although Joyce has lived outside his native Irish island for most of adult life, his Irish identity was essential to his work and provide him with all the ambiance and much of the theme of his work. His fictional universe is rooted heavily in Dublin and reflects his family life and events, friendships and enmities from school and college times. In this way, he is at the same time one of the most cosmopolitan and one of the most particularists of the modernist authors of English language. In this anthology the critic August Nemo presents seven short stories that bring the most emblematic elements of the style of this important author: *The Sisters* *Eveline* *Araby* *A Painful Case* *The Dead* *Two Gallants* *After the Race*

The Age of Surveillance Capitalism Penguin Books

The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new "behavioral futures markets," where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new "means of behavioral modification." The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a "Big Other" operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled "hive" of total connection that seduces with promises of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.

Things You Think About When You Bite Your Nails Simon and Schuster

INTERNATIONAL BESTSELLER "For anyone who wants to understand capitalism not as economists or politicians have pictured it but as it actually operates, this book will be invaluable."-Observer (UK) If you've wondered how we did not see the economic collapse coming, Ha-Joon Chang knows the answer: We didn't ask what they didn't tell us about capitalism. This is a lighthearted book with a serious purpose: to question the assumptions behind the dogma and sheer hype that the dominant school of neoliberal economists-the apostles of the freemarket-have spun since the Age of Reagan. Chang, the author of the international bestseller *Bad Samaritans*, is one of the world's most respected economists, a voice of sanity-and wit-in the tradition of John Kenneth Galbraith and Joseph Stiglitz. *23 Things They Don't Tell You About Capitalism* equips readers with an understanding of how global capitalism works-and doesn't. In his final chapter, "How to Rebuild the World," Chang offers a vision of how we can shape capitalism to humane ends, instead of becoming slaves of the market.
