From the Sunday Times bestselling author of *50 People Who Bugged Up Britain*, Quentin Letts, comes his blistering new book on how Britain's out-of-touch, illiberal elite fills its boots.

'HILARIOUS' Daily Mail 'With its vicious takedowns, Quentin Letts' laugh-out-loud *Patronising Bastards* will have the lefty-elite running scared' The Sun Not since Marie Antoinette said 'Let them eat cake' have the peasants been so revolting.

Western capitalism's elites are bemused: Brexit, Trump, and maybe more eruptions to follow. But their rulers were

so good to them! Hillary Clinton called the ingrates 'a basket of deplorables', Bob Geldof flicked them a V sign, Tony Blair thought voters too thick to understand the question. Wiggled judges stared down their legalistic noses at a surging, pongy populous. These people who know best, these snooterati with their faux-liberal ways, are the 'Patronising Bastards'. Their downfall is largely of their own making - their Sybaritic excesses, an obsession with political correctness, the prolonged rape of reason and rite. You'll find these self-indulgent show-ponys not just in politics and the cloistered old institutions but also in high fashion, football, among the clean-eating foodies and at the Baftas and Oscars, where celebritydom hires PR smoothies to massage reputations and mislead, distort, twist. Political columnist and bestselling author Quentin Letts identifies these condescending creeps and their networks, their methods and their dubious morals. Letts kebabs them like mutton. It's baaaahd. It's juicy. Richard Branson, Emma Thompson, Shami Chakrabarti, Jean-Claude Juncker and any head waiter who calls you 'young man' - this one's for you!

Blackstone Legacy Book #2)

This well-researched historical biography is the first on Dr. T. J. Macnamara, the first ex-elementary teacher to win a government post. Colleague and close friend of Lloyd George, and praised by Winston Churchill, Macnamara was an educationist, journalist and Cabinet Minister. This study of his life and career makes a major contribution to educational history as well as to the history of the Liberal Party, the National Union of Teachers (NUT) and British political history generally. Fascinating details of Macnamara's pre-Parliamentary career are provided and, alongside the biographical account, the book deals with a range of major issues with which Macnamara was involved. In education, government control of school funding and the curriculum in the 1890s is considered together with the emergence of elementary school teachers as powerful public figures, the operation and decline of London's first education system (the London School Board 1870-1904), and resistance (especially in Wales) to Balfour's 1902 Education Act. Defense issues feature: a view of the First World War arms race from inside the Admiralty; the Admiralty during the First World War from the standpoint of the only government minister who held the same office throughout the hostilities, working with, among others, Churchill and Balfour. Macnamara's establishment of the dole on response to the post-war economic slump, 1920-22, is also considered. Important analysis is included of the fragmentation of the Liberal Party in the 1920s, leaving Macnamara as one of the last of Lloyd George's supporters.

Her bond with Dimitri has flourished despite the miles between them, but when Dimitri goes unexpectedly missing, she sets the wheels in motion to find him. But she could be the perfect distraction from the soul-crushing damage this injury could cost him. Indie's tired of her naivety putting a

target on her back. As a gifted child, she's let her education take the front seat her whole life. But a fling with a footballer like Camden might be just what she needs to grab life by the balls. And he could be the perfect guy for the plan she's been sitting on for over two years. But when feelings make a final play, there's no amount of medicine that can heal the damage to their hearts.
