Exam Board: AQA Level: AS/A-level Subject: Biology First Teaching: September 2015 First Exam: June 2016 Reinforce students' understanding throughout their course with clear topic

summaries and sample questions and answers to help your students target higher grades. Written by experienced teacher Pauline Lowrie, our Student Guides are divided into two key sections, content guidance and sample questions and answers. Content guidance will: - Develop students' understanding of key concepts and terminology; this guide covers topics 3 and 4: organisms exchange substances with their environment; genetic information, variation and relationships between organisms. - Consolidate students' knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - Build students' understanding of the different question types, so they can approach questions from topics 3 and 4 with confidence. - Enable students to target top grades with sample answers and commentary explaining exactly why marks have been awarded.

Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. A Content Guidance section combines an

overview of the specific unit or module and the key terms and concepts, with an examiner's interpretation so that students understand precisely what they need to understand and learn, the skills required and the potential pitfalls. A Question and Answer section provides graded answers, typically A and C, to questions which have been set to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner.
