This book offers a whole school approach to the teaching of grammar and punctuation that is fully matched to the demands of the English grammar and punctuation test and the new curriculum. With the shift towards elegant, well-

constructed sentences, it offers the busy teacher three simple steps to motivate and engage children, through: • explicit teaching and modelling; • over forty practical games and activities; • application and improvement within editing and proof reading. This book draws on recent research but also is based on many years of classroom practice and a number of case studies.

Practical examples develop teachers' understanding of grammatical terms and progression and show how it is possible to have a significant impact on vocabulary, sentence structure and children's writing in general. A balance is found where skills are explicitly taught but within the context of an exciting and interesting curriculum. Hammer's German

Grammar and Usage
Routledge
Long trusted as the most comprehensive, up-to-date and user-friendly grammar available, HAMMER'S GERMAN GRAMMAR AND USAGE provides you with a complete guide to German as it is written and spoken today. This new edition includes: - concise descriptions of the main grammatical phenomena of German and their use -

examples of grammar taken from contemporary German, helping you to understand the underlying grammatical principles more quickly - invaluable guidance on pronunciation and the German accent - discussion of new words from English roots such as 'zertweeten' ('to tweet'), helping you to communicate in German as used by Germans today - clarification on the spelling reform and

current spellings of German, thus increasing your confidence while writing and reading in German. Praised for its clear layout and lucid explanations, this new edition distinguishes the most common forms of usage, both formal and informal, and offers you a combination of reference grammar and manual of current usage that you will find invaluable, whether a

student or a teacher, at intermediate or advanced level.

Grammar for Teachers

Allyn & Bacon Basic English Grammar is a classic developmental skills text for beginning students of English as a second or foreign language. It uses a grammar-based approach integrated with communicative methodologies to promote the development of all language skills. While keeping the same basic approach and

materials as in earlier editions, the fourth edition continues to build on the foundation of understanding form and meaning by engaging students in meaningful communication about real actions, real things, and their own lives in classroom context. Several of the new features are: Information in the grammar charts highlighting differences between spoken and written English Step-

<p>by-step writing activities with models for students to follow Innovative warm-up exercises that precede the grammar charts and introduce points to be taught Newly created exercises to give students more incremental grammar practice Structure-based listening exercises that introduce students to relaxed, reduced speech <u>Grammar</u></p>	<p><u>Form and Function</u> Pearson Education With a fresh new design and a host of updated exercises and activities, the popular Focus on Grammar series is more practical and accessible than ever. Known for its focus on English grammar through contextualized listening, speaking, reading, and writing activities, this lively integrated skills course helps students bridge the gap</p>	<p>between comprehending grammatical structures and actually using them. Centered on thematic instruction, Focus on Grammar combines controlled and communicative practice in a consistent approach that's a proven success among students at all levels. Each unit progresses through four steps: Grammar in Context, Grammar Presentation, Focused</p>

Grammar Form and Function

English as a Second Language

The purpose of *Grammar for Teachers* is to encourage readers to develop a solid understanding of the use and function of

grammatical structures in American English. It approaches grammar from a descriptive rather than a prescriptive approach; however, throughout the book differences between formal and informal language, and spoken and written English are discussed. The book avoids jargon or excessive use of technical terminology. It makes the study of grammar interesting and relevant

by presenting grammar in context and by using authentic material from a wide variety of sources.

Macmillan English Grammar in Context

Boynton/Cook

Recent SLA research recognizes the necessity of attention to grammar and demonstrates that form-focused instruction is especially

effective when it is incorporated into a meaningful communicative context. Designed specifically for second-language teachers, this text identifies and explores the various options for integrating a focus on grammar and a focus on communication in classroom contexts and offers concrete examples of teaching activities for each option. Each chapter includes a description of

the option, its theoretical and empirical background, examples of activities illustrating in a non-technical manner how it can be implemented in the classroom, questions for reflection, and a list of useful resources that teachers can consult for further information.

Focus on Grammar

Macmillan Elt The German language is the 11th most widely spoken language on earth with 92

to 95 million native speakers around the globe composing 1.39% of the world's population. By downloading this book, you are taking the first steps in your own personal conquest in learning this great and storied language. The following chapters will be more of a general outline of what steps to take when first learning the language and how to develop and apply the

skills necessary to master German. Here are some of the topics which will be discussed within this brief book: What it means to learn Standard German, High German, and Low German; Finding your passion for learning German; Turning a chore into inspiration; Learning German by immersing yourself deeply in German culture; Finding native speakers to improve your

overall understanding of the language and its culture; How to overcome the most difficult part of learning the German language; and finally Learning German in a more formal class environment. These following chapters will, more precisely, discuss the study techniques applicable to learning a new language, the culture of Germany as well as the rest of German-

speaking Europe, some of the history of the language and it is various dialects, steps for beginning the study of the language, and learning German inside and outside of formal class settings. There are several books on the market very similar to this one. Thank you again for choosing this one and if you enjoy it or find it helpful, a review on Amazon would be very much appreciated
