*Loose-Leaf for Microeconomics 4e*

McGraw-Hill Europe

With its signature storytelling style and coverage of current issues and events, Nobel laureate and New York Times columnist Paul Krugman and co-author, Robin Wells's best-seller is the most effective textbook available for explaining how economic concepts play out in our world. This new edition offers incisive new insight into market power and externalities in microeconomics, updated analysis of long-run growth, and extensive coverage of the economic impacts and policy responses to the coronavirus pandemic in macroeconomics

*Mikroökonomie* McGraw-Hill/Irwin

Steve Slavin's lively and comprehensive Microeconomics has a student-friendly, step-by-step approach; value pricing; and a built-in Workbook/Study Guide. Instructors and students like the author's humorous anecdotes, direct language, patient step-by-step treatment of math, and easy conversational style. The text encourages active rather than passive reading.

Like no other text for the intermediate microeconomics course, Goolsbee, Levitt, and Syverson's Microeconomics bridges the gap between today's theory and practice. A strong empirical dimension tests theory and successfully

applies it. With carefully crafted features and vivid examples, Goolsbee, Levitt, and Syverson's text helps answer two critical questions students ask, "Do people and firms really act as theory suggests" and "How can someone use microeconomics in a practical way?" The authors teach in economics departments and business schools and are active empirical microeconomics researchers. Their grounding in different areas of empirical research allows them to present the evidence developed in the last 20 years that has tested and refined the fundamental theories. Their teaching and professional experiences are reflected in an outstanding presentation of theories and applications.

Available for the first time with Macmillan's new online learning platform, Achieve, *Modern Principles* is a tour-de-force with a unique combination of vivid writing, up-to-date relevant examples, and online resources unlike any other textbook for this market. Tyler Cowen and Alex Tabarrok have long demonstrated their mastery at communicating economic principles in a clear, captivating way through their blog, *The Marginal Revolution*. And they are pioneers in online education. Their fully updated new edition has more high-quality material designed for online teaching than any other principles of economics textbook. Videos from Marginal Revolution University (MRU), *Discovering Data* questions, live links to FRED data, an e-book, and assessment all live under Macmillan's new learning platform, Achieve and combine to provide an online learning product for all types of learners whether in face to face, hybrid or pure online classes.
