A Riveting Medieval

Parallel to the Bible Good
and evil clash. Leinad and
Cedric are determined to
not only survive, but claim
hope and victory! In
Kingdom's Dawn, Leinad
and Tess, along with all
the king's people, must
escape slavery by the
powerful Lord Fairros.

Kingdom's Hope finds them free and arriving in the Chessington Valley. But when they forget the king, will Kergon and the Kessons capture them for good? After many years, Kingdom's Edge finds Cedric living a hopeless life until a stranger appears with powerful words of a new kingdom and a grand army. Finally, Kingdom's Reign marches you through the danger of earth's last days as the evil dark knight threatens to defeat the prince once and for all. Swords, knights, and battles

define these captivating tales that parallel biblical events from Genesis to Revelation! He's just a young man, but that doesn't change the truth. He was chosen... Sixteen-year-old Leinad thought he was a common farmer's son, nothing more. He wondered why his father had trained him for years to master the sword—not exactly a tool of the trade for farmers—but one tragic event initiates a world of revelation. Only then does he begin to understand his calling—a calling no

other man in the entire kingdom of Arrethtrae can fulfill—a calling given him by the King himself. Teamed with a young slave girl, Leinad is thrust into adversity and danger—for the Dark Knight and his vicious Shadow Warriors will stop at nothing to thwart the King's plan to restore the kingdom. Leinad will need more than a sharp blade and a swift hand to fulfill his mission and survive the evil plots of the King's sworn enemies! Journey to Arrethtrae, where the King and His Son

implement a bold plan to save their kingdom; where courage, faith, and loyalty stand tall in the face of opposition; where good will not bow to evil—and the future of a kingdom lies in the hands of a young man.

DISCUSSION QUESTIONS INCLUDED Story Behind the Book “When my six kids’ eyes glossed over during a reading from the Bible, I paused to explain the significance of redemption to a sin-sick soul. I was rewarded with patronizing elephant nods and more blank stares.

Shortly thereafter, I awoke in the middle of the night with a medieval story enveloping my mind. I wrote it down and later read it to my children. Their waning attention transformed into complete anticipation. I was amazed and disappointed. Why did it take a fictional story, not a Bible passage, to get that response? Then I realized—that is how Jesus taught! Parables are powerful! I penned the Kingdom series to help young people get excited about the supremely

significant story of Jesus Christ and His mission to save mankind.” — Chuck Black

The First Book of Moses, Called Genesis

Gregorian Biblical BookShop

Explores the appearance, characteristics, and behavior of protists and fungi, lifeforms which are neither plants nor animals, using specific examples such as algae, mold, and mushrooms.

Routledge

The Kingdom of God Is

Within You, is a non-fiction book written by Leo Tolstoy. A philosophical treatise, the book was first published in Germany in 1894 after being banned in his home country of Russia. It is the culmination of thirty years of Tolstoy's thinking, and lays out a new organization for society based on a literal Christian interpretation. The Kingdom of God is Within You is a key text for Tolstoyan, nonviolent resistance, and Christian anarchist movements.

National Law and International Human Rights Law Multnomah
This is a highly practical guide to the complexities of drug law. It pulls together the strands of detailed, technical legislation and case law into an accessible format.

Drafting Legislation sets out to prove Sir William Dale's doctrine that the rules for drafting good quality legislation are the same in common and civil systems of law. Legislative solutions can therefore serve the drafter, the judge and the practitioner of any jurisdiction. The book discusses the general issue of quality in legislation from the legislative process to the actual drafting

interpretation and enforcement. It also analyzes topics related to quality in legislation such as clarity, precision and disambiguity, plain language and gender-neutral language and assesses whether Sir William's view of universality in the definition and elements of quality in legislation is right or not. The volume is of critical interest to students and scholars of European law and the philosophy and theory of law.

The Case of Augusto Pinochet in Spain and Britain BRILL

The publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language

literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance. *Berlingieri on Arrest of Ships* Oxford University Press

Led by The Right Honourable Lord Justice Hooper and David Ormerod, our team of authors has been hand-picked to ensure that you can trust our unique combination of authority and practicality. With a simultaneous supplement containing essential materials, you can rely on Blackstone's Criminal Practice to be your constant companion through every courtroom appearance. This new edition has been meticulously revised to provide extensive

coverage of all new legislation, case law, and Practice Directions. With free Quarterly Updates, and monthly web updates, you can trust Blackstone's Criminal Practice to provide reassurance on all the latest developments in criminal law and procedure.

"The Kingdom of God is Within You" Routledge Now presented in two convenient volumes, the sixth edition of Berlingieri on Arrest of Ships is an invaluable source of information, detailing the

claims in respect of which a ship may be arrested, the conditions for obtaining an order of arrest, the need for a security, the manner by which the ship that has been arrested may be released, the possibility of a multiple arrest and the jurisdiction on the merits. Written by a renowned expert in the field, and analysing the various conventions relating to the arrest of ships in an article-by-article and paragraph manner, these books are a useful reference tool for

practitioners, as well as academics and post-graduate students of maritime law.

Grove/Atlantic, Inc.

Of all the themes in the book of Revelation none has proved to be more controversial than the Millennial Kingdom of Christ. Notwithstanding the very vast bibliography

on the theme, there is not yet a critical history which systematically measures the adequacy of the interpretations of Rev. 20,1-10 made by different interpreters. The first part of this book sets out to fill this lacuna by making available in one place the standard exegetical responses, of the past and present, to the enigmas of Rev 20,1-10. The second part, in dialogue with scholarly opinions, offers a carefully thought out exegesis of the text containing original perspectives that help to

overcome the noticeable weak points in the contributions of critical biblical scholarship on this subject. It also attempts to penetrate into the theological message hidden in the suggestive words and images in the text. After that, it goes ahead to determine an interpretative paradigm that is profitable for the pastoral and spiritual application of the theological message. The exegete and the theologian will find in this study helpful data for their research. This work

can also help anyone bewildered by the millenarian prophecies often associated with Rev 20,1-10 to discern the aberrations in the text's interpretation that are not the correct statements of it's message and meaning.

International Encyclopedia of Comparative Law OUP Oxford

This book is an invaluable source of information about the claims in respect of which a ship may be arrested in the various maritime countries of the world, the

conditions for obtaining an order of arrest, the need, if any, for a security, the manner by which the ship that has been arrested may be released, the possibility of a multiple arrest and the jurisdiction on the merits. Berlingieri provides an analysis and insightful commentary, on an article per article and paragraph per paragraph basis, of the 1952 International Convention for the Unification of Certain Rules Relating to the Arrest of Sea-Going Ships and the 1999

International Convention on Arrest of Ships (entering into force September 2011). New to this edition Updating of the information on the interpretation of the 1952 Convention in a number of Contracting States An analysis of the adoption of the rules of the 1999 Conventions in various States of the world, including China, the member States of the Communauté Économique et Monétaire de l'Afrique Centrale (Cameroon, Congo, Gabon, Tchad), the member States of the

Comunidad Andina (Bolivia, Columbia, Ecuador and Peru) and Venezuela. This book is a useful reference tool for practitioners, as well as academics and post-graduate students of maritime law.

The Law of South Africa

Sweet & Maxwell

This book covers the relationship between the jurisdictional immunities of States and international organizations, addressing their similarities and dissimilarities. Their relationship with diplomatic immunity is

also examined. It considers that the immunity of international organizations was historically conceived in terms of State immunity. The major aim of this book is to clarify the conceptual confusion that has often marred the understanding of the law of the, different but interrelated, jurisdictional immunities of both States and international organizations. The approach is to holistically analyze and synthesize select and relevant opinions of international

and national courts. To achieve this, the book focuses more on what the law is than on what it should be. An understanding of the law is more useful to a practitioner than a criticism of it. The book is not an exegesis on everything immunity. The jurisdictional immunities of heads of State and of diplomats are beyond the scope of this book, and are only tangentially examined. The book concludes by making the case that the jurisdictional immunities of States and

international organizations are not only sustainable but also necessary for international relations and cooperation. The author intends to position the book to be of use both to scholars and practicing lawyers and legal advisers in government and international organizations, as well as to lawyers whose practice concerns issues and laws of privileges and immunities.
International Taxation of Banking Cambridge University Press

Celebrating over 30 years as the market-leading series, Blackstone's Statutes have an unrivalled tradition of trust and quality. With a rock-solid reputation for accuracy, reliability, and authority, they remain first-choice for students and lecturers, providing a careful selection of all the up-to-date legislation needed for exams and course use.
A critical history of exegesis with an interpretative proposal
 Kluwer Law International B.V.

Banking is an increasingly global business, with a complex network of international transactions within multinational groups and with international customers. This book provides a thorough, practical analysis of international taxation issues as they affect the banking industry. Thoroughly explaining banking's significant benefits and risks and its taxable activities, the book's broad scope examines such issues as the following: taxation of

dividends and branch profits derived from other countries; transfer pricing and branch profit attribution; taxation of global trading activities; tax risk management; provision of services and intangible property within multinational groups; taxation treatment of research and development expenses; availability of tax incentives such as patent box tax regimes; swaps and other derivatives; loan provisions and debt restructuring; financial technology (FinTech);

group treasury, interest flows, and thin capitalisation; tax havens and controlled foreign companies; and taxation policy developments and trends. Case studies show how international tax analysis can be applied to specific examples. The Organisation for Economic Co-operation and Development Base Erosion and Profit Shifting (OECD BEPS) measures and how they apply to banking taxation are discussed. The related provisions of the OECD Model Tax Convention are

analysed in detail. The banking industry is characterised by rapid change, including increased diversification with new banking products and services, and the increasing significance of activities such as shadow banking outside current regulatory regimes. For all these reasons and more, this book will prove to be an invaluable springboard for problem solving and mastering international taxation issues arising from banking. The book will be welcomed by

corporate counsel,
banking law practitioners,
and all professionals,
officials, and academics
concerned with finance
and its tax ramifications.

Jurisdictional Immunities
of States and International

Organizations

This title was first
published in 2001. This
text critically examines
the role and relevance of
international human
rights law in the process
of protection, especially in
the cases of Botswana,
Namibia and Zimbabwe. It
argues that international
human rights law does
have a role to play in the
protection and, indeed the
enforcement of human
rights in these countries
and that there is an
emerging trend to that
effect.
