*Plato's Philosophers* Springer Science & Business Media  
 Having a little sister isn't always a picnic. Older sisters may feel jealous of the time taken away from them, the toys they have to share, and the attention focused on the youngest member of their family. Getting along is often a day-to-day battle, but what can parents do to make this situation easier and to help children realize how special it is to have a sister? In *Spice & Little Sugar*, the delightful new children's book about sibling rivalry, authors Megan Waldrep and Melissa Nelson show big sisters the big benefits, responsibilities, and absolute joys of their role. Told in a

whimsical rhyme that children will love to read aloud, *Spice & Little Sugar* first humorously relates all the ways Little Sugar gets on Spice's nerves, from grabbing her favorite toys to sticking to her like glue when Spice wants to be left alone. But gradually Spice comes to realize that Little Sugar does have her good points, including sticking up for her when she gets in trouble with their parents and saving the day with her cute face. Parents will love the warm, gentle lessons the book teaches about understanding how positives can outweigh negatives, and kids will laugh at the playful illustrations and funny story. The perfect book for siblings, *Spice & Little Sugar* can be read and enjoyed by the whole family, time and time again.

"In this outstanding memoir, chef and restaurateur Matsuhisa...shares lessons in humility, gratitude, and empathy that will stick with readers long after they've finished the final chapter." —Publishers Weekly (starred review) "Inspiration by example" (Associated Press) from the acclaimed celebrity chef and international restaurateur, Nobu, as he divulges both his dramatic life story and reflects on the philosophy and passion that has made him one of the world's most widely respected Japanese fusion culinary artists. As one of the world's most widely acclaimed restaurateurs, Nobu's influence on food and hospitality can be found at the highest levels of haute-cuisine to the food trucks you frequent during the work week—this is the Nobu that the public knows. But now, we are finally introduced to the private Nobu: the man who failed three times

before starting the restaurant that would grow into an empire; the man who credits the love and support of his family as the only thing keeping him from committing suicide when his first restaurant burned down; and the man who values the busboy who makes sure each glass is crystal clear as highly as the chef who slices the fish for Omakase perfectly. What makes Nobu special, and what made him famous, is the spirit of what exists on these pages. He has the traditional Japanese perspective that there is great pride to be found in every element of doing a job well—no matter how humble that job is. Furthermore, he shows us repeatedly that success is as much about perseverance in the face of adversity as it is about innate talent. Not just for serious foodies, this “insightful peek into the mind of one of the world’s most successful restaurateurs” (Library Journal) is perfect for fans of Marie Kondo’s *The Life-Changing Magic of Tidying Up* and Danny Meyer’s *Setting the Table*. Nobu’s writing does what he does best—it marries the philosophies of East and West to create something entirely new and remarkable.

This book is based on publications from the ISCA Tutorial and Research Workshop on Multi-Modal Dialogue in Mobile Environments held at Kloster Irsee, Germany, in 2002. The workshop covered various aspects of development and evaluation of spoken multimodal dialogue systems and components with particular emphasis on mobile environments, and discussed the state-of-the-art within this area. On the development side the major aspects addressed include speech recognition, dialogue management, multimodal output generation, system architectures, full applications, and user interface issues. On the evaluation side primarily usability evaluation was addressed. A number of high quality papers from the workshop were selected to form the basis of this book. The volume is divided into three major parts which group together the overall aspects covered by the workshop. The selected papers have all been vetted, reviewed and improved after the workshop to form the backbone of the book. In addition, we have supplemented each of the three parts by an invited contribution intended to serve as an overview chapter.

Faced with the difficult task of discerning Plato's true ideas from the contradictory voices he used to express them, scholars have never fully made sense of the many incompatibilities within and between the dialogues. In the magisterial *Plato's Philosophers*, Catherine Zuckert explains for the first time how these prose dramas cohere to reveal a comprehensive Platonic understanding of philosophy. To expose

this coherence, Zuckert examines the dialogues not in their supposed order of composition but according to the dramatic order in which Plato indicates they took place. This unconventional arrangement lays bare a narrative of the rise, development, and limitations of Socratic philosophy. In the drama's earliest dialogues, for example, non-Socratic philosophers introduce the political and philosophical problems to which Socrates tries to respond. A second dramatic group shows how Socrates develops his distinctive philosophical style. And, finally, the later dialogues feature interlocutors who reveal his philosophy's limitations. Despite these limitations, Zuckert concludes, Plato made Socrates the dialogues' central figure because Socrates raises the fundamental human question: what is the best way to live? Plato's dramatization of Socratic imperfections suggests, moreover, that he recognized the apparently unbridgeable gap between our understandings of human life and the nonhuman world. At a time when this gap continues to raise questions—about the division between sciences and the humanities and the potentially dehumanizing effects of scientific progress—Zuckert's brilliant interpretation of the entire Platonic corpus offers genuinely new insights into worlds past and present.
